Why Some Districts Receive Less Than Last Year. Many school directors are directisfied be muse the State appropriation which their listricts receive this year is considerably less than the amount which they received last year. The decrease seems all the more strange in view of the fact that at the last ession of the legislature the annual approriation was increased from five to five and a half millions. In reply to impairy on this point, State Soperintendent Schaffer says "The State appropriation for common

schools is distributed upon the basis of the number of taxables in the several school districts of the State, as a certained and certhed to this department triennially by the county commissioners. It is not due and payable until after the close of the year for which it is made, and after the amount reparts of the districts, duly approved by their respective superintendents, have been received ed by this department. The present basis of distribution—the

at-large and Judge of Supreme Court, Disbasis for the school years 1895, 1834 and trict Congressmen, Senators, Representatives 1802. The change from the triennial return of 1889, on which the appropriation was paid for the school year ending June, 1892 was largely attended. The obsequies were unacture of fertilizer, including a large boiler to make a cross in the square at the right of to the trienmial return of 1802, on which the name of each candidate voted for, care the appropriation for the school year ending being taken not to mark in the circle at the June, 1888, is paid, will account for any intheir own and a blank column will be pro-The total increase in the number of targthe names of candidates nominated by nomcapita so that unless a district has more bex ables than in 1880 it will receive less money then hast year.

> The appropriations for the school years were made by the Logislature at its ressions

The rate per taxable in 1893 was \$3,450. What districts show a marked change in

The tide of population is from the coun try to the city and the triennial assessment for 1807 shows a marked durants in the number of taxables in many country school districts and causes an annoying diminution in their share of State appropriation."
