

The Union League of Philadelphia will give a complimentary banquet to ex-President Harrison on the 21st of December next.

The New World speaks feelingly of "the deserving section of the Democratic ticket." The people of New York seem to think it needed kicking—and it got it.

The full official reports of the late election in the State show that Jackson (Rep.) has defeated Oliver (Dem.) for State Treasurer by 155,136, and the plurality for Fall for Supreme Judge is 155,136. The Prohibitionists polled 21,336 votes and the People's party 6,956 votes.

The enormous frauds perpetrated at the late election and the "fix" developed in the cities of New York, Brooklyn, Albany, Rochester, Buffalo and other places show that with an honest election and a fair count the State of New York would have given largely over one hundred thousand Republican majority.

Wm. Col. Watters, of the Louisville Courier-Journal, said that if the Democrats nominated Governor Cleveland at Chicago they would "march through a slaughter house to an open grave," he was apparently endowed with the gift of prophecy, as witness the result of the late elections in New York, Massachusetts, Pennsylvania, Ohio and other Northern States.

The Democrats of Alabama, Tennessee, Virginia and West Virginia are now besieging the doors of the Committee of Ways and Means at Washington and imploring that some course not to be determined should be taken to place iron, coal, pig iron, and potatoes and other farm products on the free list. They particularly claim that they are "Democratic in principle" and beg to be saved from financial destruction.

These "Democrats from principle" voted with their eyes open, and for Cleveland, or a platform that denominated a protective tariff "a fraud and a robbery of a majority of the American people," for the reason that they are not the only "Democrats from principle" who have discovered that a course of foresight is worth a lot of hindsight.

During the last war an income tax of from 10 to 15 per cent was imposed on all incomes exceeding \$500 per year. No withholding it was an absolutely necessary tax to help provide means to save the Union in its most bitterly contested and disastrous period. The Democrats, as being in legislative, prying into private business affairs, paying a set of official lectures to eat up the substance of the people while gathering it, etc., etc. In fact it was generally odious and was evaded wherever it could be, and was undoubtedly the fruitful source of perjury and fraud. Now, in times of peace and domestic tranquillity, it is proposed by the Democratic Administration to revive, or re-impose, this odious tax upon the people. The alleged necessity for it is to be created by the repeal, in part, of the present tariff laws, and the placing on the free list of wool, iron, coal, iron ores, salt, lumber and other so-called raw materials now paying a duty.

The present tariff raises enough and more than enough money to pay all the expenses of the Government and maintain our National credit without anyone directly feeling it, but the free traders are determined to "smash" it, and to make good in part the loss of the necessary revenue by imposing a direct tax upon the earnings and thrift of the people, and with the blundering facility for which that party is noted, it first proposes to destroy the industries from which incomes are mainly obtained, and then proceed to tax the remainder of that which has escaped destruction. What the tax is to be and what portions of the people's incomes are to be computed has not yet been determined, but it appears to be an accepted fact that it is to be levied on the basis of the net income of all the Democratic representatives can be whipped into the traces, of which there is but a little doubt.

The announcement that bituminous or soft coal is to be placed on the free list in the coming tariff will not only be a severe blow to that interest throughout the country, but it will bring directly to our own doors the bitter fruits to be gathered from the "tariff reform" policy of this Administration. The operations in the Elk Lick region, at Lisle and at Hottersville, are now slowly but surely and ship their coal at a very slim margin of profit. Their market is exclusively in the eastern seaboard cities, or at points adjacent thereto, and abolition of the duty on coal will enable the miners of Nova Scotia and Pictou coal to be imported in large quantities, the cheapest in the world, to monopolize the seaboard markets and drive the coal of this country as well as that of the State, dependent upon railroad transportation, out of competition with them.

Latterly, large tracts of coal lands in the northern township of this county have been purchased by eastern capitalists; in fact nearly all the lands in the north of the county have been acquired by them and there are bright prospects of their early development, but shrewd business men, such as are the purchasers, will not receive notice is taken regarding the tariff and it is definitely settled whether they are to encounter foreign as well as domestic competition. If coal is put on the free list there is but one of two courses left for operators in the central portion of this State. They must either stop mining or demand a reduction of the wages of their new not overpaid miners. Operators near the seaboard, with a short haul by rail, and those who have a western and southern market, reached mainly by water, may not be so largely affected, but those among and west of the Allegheny mountains will be literally "between the devil and the deep sea."

A Great Wrong Acknowledged.

From the Pittsburgh Times. It is telegraphed from Washington that the report of the Secretary of the Interior will show that of the 10,000 prisoners who were suspended from the mails (1890) have been restored to the regular mail. A large number of the men who were suspended from the mails will be reinstated, and the attempt to make party capital out of the few doubtful cases will be abandoned. This latter action will be doubtless due to the overwhelming popular condemnation which has greeted the whole infame and unscrupulous practice of suspending and withholding from Hoke Smith and the three accomplices who were found guilty of the crime.

A great wrong was committed by Hoke Smith in suspending these 10,000 men from the mails without proper notice or adequate evidence. Untold misery was inflicted upon many of them, and the blood of not a few who died from neglect or privation by reason of such suspension must rest not alone upon Hoke Smith, but upon his chief, who permitted him to do his miserable work unchecked. There are men who today are inmates of insane asylums because of this criminal mistake of Hoke Smith and the Democratic Administration he represents.

There are men whose ill health gained in the course of their country has been aggravated by reason of privation or neglect for lack of the money the government owed them and withheld. What recompense is it to the families of those who have died or gone insane or to the men who have been impaired in bodily health or suffered great mental anxiety that their names are restored to the pension list?

There was no legal or moral warrant for the suspension of a single one of the 10,000 prisoners in the manner employed by Hoke Smith. The fact that a few hundred cases may be developed in which the pensions were not really deserved, affords no justification whatever for the arbitrary and illegal suspension of the 10,000 and odd against whom there was no case whatever. Their restoration to the pension list is a proceeding as one of the greatest crimes in history, acknowledged to be such by its perpetrators, and should stand upon all responsible for it the everlasting condemnation of the American people.

A Policy of Infamy. From the New York Sun. Never before nor has an American executive undertaken to stamp out republicanism and to set up monarchy in any part of the world. Never before, we believe, has an American president in the exercise of his executive authority, been guilty of the assassination of a free and successful government. Never before has any officer of this government undertaken, upon his sole responsibility and without consulting congress or the people, to decide the destiny of a foreign country, in a diplomatic relations with ourselves. Never before has a president invited or commanded his cabinet advisers to assist him in the odious business of setting up again a nation and broken throne. Was there no American who was ready to sign his name to the document which was this policy of infamy was decided? Walter Q. Gresham would have done well to bear his commission to pieces and fling the pieces in the face of his master, rather than to sign his name to the document which was this policy of infamy was decided? Walter Q. Gresham would have done well to bear his commission to pieces and fling the pieces in the face of his master, rather than to sign his name to the document which was this policy of infamy was decided?

Greesham Made a Mess of It. WASHINGTON, Nov. 26.—The administration having discovered that the Hawaiian question was leading to a serious war, the late President's policy was to give sharp practice to the President and Secretary of State and resigned in order to get out of the way before the actual situation became known.

It is the satisfaction of outraging public sentiment and gratifying his rebel propensities by hauling down the American flag and left a report to justify his conduct. The Blount exhibit would be interesting reading, but the administration has been so badly handled by the rebel Georgia that they are not disposed to add to the indignities of their position by trying to make Blount a scape goat.

It has always been the practice in international intercourse and among nations to give the people's incomes as to be computed has not yet been determined, but it appears to be an accepted fact that it is to be levied on the basis of the net income of all the Democratic representatives can be whipped into the traces, of which there is but a little doubt.

Hunter Hugged by a Bear. HARRISBURG, Pa., Nov. 18.—While tracking a deer hunters from this place to-day walked into a bear trap and had a hair-raising experience. Eugene Riley, Frank Deuch and Robert Riley contemplated spending a few days in the forest, and yesterday left for that purpose. Going to Mud Run they struck out for the woods of Mount Pleasant. The operators in the Elk Lick region, at Lisle and at Hottersville, are now slowly but surely and ship their coal at a very slim margin of profit. Their market is exclusively in the eastern seaboard cities, or at points adjacent thereto, and abolition of the duty on coal will enable the miners of Nova Scotia and Pictou coal to be imported in large quantities, the cheapest in the world, to monopolize the seaboard markets and drive the coal of this country as well as that of the State, dependent upon railroad transportation, out of competition with them.

Peffer Outlines a New Party. WASHINGTON, D. C., Nov. 17.—The rumor of the possible re-organization of the Populist party will let it in all advantage of the coming of silver. The party do not care to take up the prevailing Populist doctrine as to Government ownership of railroads, the bond loan policy, and the leasing of paper money was today confirmed by Peffer, of Kansas, in a speech made at Kansas City, Mo. He said: "While the Populists have fundamental doctrines other than that relating to the volume of the currency, which they cherish and will continue to cherish, they recognize that the first step in securing the reforms which they advocate is the adoption of a question, by amalgamation, just as soon after next year's Congressional election as possible. The new party will probably be known as the Nationalists."

OOO Lost in the Storm. A wild fire, probably reaching a total of 600, has been caused by the furious hurricane that has been scourging the United Kingdom and Northern France ever since Thursday.

The greatest death harvest is on the French coast, where it is believed that at least 500 persons have been engulfed by the hanging waves.

On the English and Irish coasts the number of lost persons is also heavy. Seventy men are known to have perished and scores of points on the coast are still inaccessible because of the dismantled wires.

Books of coasting and fishing vessels line the storm-wrecked coasts, the shanties being blown and the waves of the fury of the tempest. The boats and cargo were blown and scattered in every direction.

November Days. November is a month of rainy, disagreeable days. The damp cold air penetrates every where and chills the blood, laying the system open to the danger of colds, pneumonia and kindred complaints. There is but one remedy that stimulates the system and fortifies it against such attacks, and that is the use of the Sarsaparilla. It is generally palmed off on the public as a purgative of known purity and quality. Such a Sarsaparilla is the one which is sold by the New York World. This Sarsaparilla has been known for many years and has cured thousands of persons who were afflicted with rheumatism, neuralgia, headache, and every reputable dealer sells them.

They are for sale at \$1.00, and \$1.25 and \$1.50 per quart respectively. Send for a complete catalogue and price list. Free of charge. All goods neatly boxed and shipped to any where. Address, Max Klein, 52 Fulton Street, Albany, N. Y.

Had Planned to Kill Him.

HARRISBURG, Pa., Nov. 18.—That Capt. T. B. Patton, of the State Insurrectionary Army, is alive is owing to a singular discovery of a well-laid plot among three insurrectionists to assassinate him. One of the plotters, who had received a sufficient number of recruits to reduce him to a new grade, proposed to kill him on the way to the State Prison. He enlisted the sympathy of two fellow prisoners, who are supposed violators of the prison rules, and the three planned the assassination.

It was their intention to commit the deed in the night. Knowing that it was Mr. Patton's custom, at the completion of every service to station himself at a particular place to inspect the prisoners' movements during their exercise, the would-be assassins determined to make their attack there. Their plot was unscrupulous, however, the night of the 15th, at the completion of every service to station himself at a particular place to inspect the prisoners' movements during their exercise, the would-be assassins determined to make their attack there.
