

The Somerset Herald.

EDWARD SCULL, Editor and Proprietor. GALUSHA A. GROW.

On Tuesday next vote for the interests of the working man, and to help fill his 'tin dinner pail'.

Vote for Grow and the Republican ticket if you want to restore plenty of work and good wages.

We can give Grow 200,000 majority in the State, if all the opposition of free trade and an income tax turn out and vote for him.

Next Tuesday, the 20th, is election day. Don't get it, but go to the polls and vote for Galusha A. Grow and your local Republican ticket.

The ticket to be voted next Tuesday will be a large one. You are certain to be all right if you mark the one with Galusha A. Grow's name at the head of it.

Shall we buy our goods abroad or make them at home? Is the tariff question in a nut shell? The Republican party stands by home made goods and home workmen.

A vote for Galusha A. Grow means that you are in favor of protection to American industries, and opposed to making paupers of American laborers for the benefit of foreign manufacturers.

When the news was carried to the House of Representatives at Cleveland had signed the Elections bill, Tom Reed exclaimed: 'Ballot box stuffing has at last been legalized.' That is about the size of it.

During President Harrison's term nearly \$300,000,000 of the National debt was paid off. How much is likely to be paid by this administration that in its first year borrows \$300,000,000 to pay the interest expenses of the government?

What would be thought of the business man who would deliberately turn away his customers, and thus reduce his revenues, and then borrow money to carry on his business? This is precisely what the Democratic Administration is doing.

Democratic State Chairman Wright, is pampering the State, calling upon County chairmen to meet him and telling them that they 'will be held responsible for the result in their counties.' He wants it possible to keep Grow's majority below 150,000.

Every man employed in a mine or a mill in this country, is a purchaser of the farmers product. Every article imported into this country is made by men who eat the products of the farmers across the ocean. Farmers ought to know their best customers.

The farmers who voted for 'Cleveland and dollar wheat,' have now a chance to 'even up' with the politicians who fooled them.

There will be no dollar wheat so long as the Cleveland policy of free trade continues. Wheat sold for 38 cents cash and 45 cents in kind.

The famous old war ship, the Kearsage, that whipped and sunk the rebel cruiser Alabama, during the late war, was wrecked and lost in the Caribbean sea on the second day of this month on Reocador reef, about 200 miles north of Colon. The officers and crew were all saved. But few particulars have yet been received.

Our Democratic masters in the Senate have determined not to give the manufacturers, miners and producers, whose interests are opposed to the Wilson free trade bill, a hearing and the thousands of petitions against it are daily forwarded to them, are simply pigeon-holed. They 'know it all,' and fancy that they cannot be taunted anything.

Well, this Democratic Administration has started out its financial course by borrowing \$50,000,000 wherewith to pay the current expenses of the government. Like other debts the people will have to pay this one when it becomes due.

Robbing Peter to pay Paul has always been the financial policy of the Democratic party.

Mr. Wilson's name will appear twice on the ticket, once under the head of 'Republican Party' and once under the head of 'Protective Tariff Policy,' which is all the same, as all Republicans are for a protective tariff policy. Vote straight and help to rebuke the starvation Democracy.

Mr. Wilson's name will appear twice on the ticket, once under the head of 'Republican Party' and once under the head of 'Protective Tariff Policy,' which is all the same, as all Republicans are for a protective tariff policy.

The Southern Brigadiers are tremendously elated over the passage of the bill repealing the Federal election law. News of the passage of this bill by the Senate was received with shouts and yells in the House.

Congressman Tucker, of Virginia, took the President a gold pen with which to sign the bill, that was being previously used for the same purpose by Vice President Stevenson and Speaker Crier, and will preserve it as a memento of the writing over the 'Yanks' who stood for a 'free ballot and an honest count.'

Frank will now have a free foot throughout the south and Tammany ridden New York.

The House has added still further to its degradation, if such a thing is possible, by passing a resolution endorsing Cleveland's policy of infamy regarding Hawaii.

Democrats revolted at the dose, but the party whip and 'the postoffice and sick' brought most of the shirkers into line. Out of 215 Democrats in the House only 177 voted for the resolution, and three leading Republicans in voting against it.

The vote was 177 yeas to 77 nays. If Mr. Cleveland considers that this record and lily laid on coat of whitewash, is a vindication, knowing as he does the trouble he had to procure it, his easily gratified.

A Giant Western Meteor.

CARSON, Nev., Feb. 4.—On the night of February 1, about 10 o'clock, a brilliant meteor shot over Western Nevada and eastern California. The illumination was followed by a low rumbling shock as if of earthquake. It has now been ascertained that the meteor struck at Candalaria, about 140 miles from here.

People there who saw the meteor describe it as an immense body of fire with a tail like a comet. As it rushed through the air it made a noise like a skyrocket as it starts upward. At Candalaria many people were greatly alarmed at the sudden appearance of a great ball of fire. Suddenly it seemed to burst in the air, and then the light died away. The report here is that houses in Candalaria were shaken as if by an earthquake. People have had wild estimates of the weight of the meteor, some in their excitement saying it must have weighed 100,000 tons to cause such a shaking of the earth.

Friday morning a party was organized and started in search of the meteor. Toward evening the searchers began to find branches which had been broken from trees by flying fragments, and these were found in holes and holes in the earth which had been gouged out by pieces of the meteor. Finally they came upon a huge hole, nearly 100 feet across, where the larger portion had fallen. It struck on a bare knoll, composed of sand and rocks. One report is that the ground was hot about the hole, and hence close examination was impossible. Pieces were found in the neighborhood within a circle a mile in diameter. The surface of the earth for several hundred yards is scarred by pieces of meteoric stone.

Sims's Bloody Tractor. MILWAUKEE, Feb. 11.—If Walter Sims, the American Protective Association lecturer, carries out the threat he made tonight, the soil at Kankana, Wis., will be stained with the blood of three human beings. Sims is a member of the American Protective Association, and has been arrested on a charge of conspiracy to murder three men.

Charles A. Dorr, only son of Toledo's first mayor, Saturday commenced proceedings for divorce for the third time against the same woman. They married one month after his first divorce and two years later a second suit was instituted.

A woman of Russell county, Va., supposing she was dying, confessed to having witnessed a murder four years ago in which an old man named Brackett was killed by Jim Baker because he had testified against him in case in court. Baker has been arrested.

Adam Carbaugh, the man charged with having murdered Jacob W. Wagaman, of York county, by strangling him, was arrested Friday and is in the Adams county jail. He was arrested at his home in Franklin county near the town of Rocky Mount.

One hundred and forty-seven pecker horse and three tortoisers perished in the flames which destroyed one of W. L. Ellwood's big stock barns at DeKalb, Ill., on Wednesday. The barn was located beyond the reach of the fire department. One hundred tons of hay were also consumed. Trains are thought to have started the blaze. The loss is \$50,000; partially insured.

During burial services of Mrs. Amanda Harris, at Double Springs, Ala., while the body of Mrs. Harris was being lowered into the grave, one of the straps which held the coffin broke, throwing George Gillis into the grave. As he fell his head was pinned between the head of the coffin and the grave wall. His head was crushed.

Fland Flayed Alive. ATHENS, Ga., Feb. 10.—A negro man named Collins, shagred with entailing away, was taken from his house last night by White Caps, tied to a tree and literally flayed alive. He lingered until morning, when death ensued. There is no clue to the perpetrators, but the authorities are making every effort to apprehend the miscreants.

Had Charge of Libby Prison. BALTIMORE, Md., Feb. 10.—One of the most interesting cases of the century has passed away in the person of General Leslie B. Northrop, the Commissioner General of the Confederate Army, who died yesterday at his residence here at the age of 82 years. He was in the Indian service he was severely wounded and left the army on sick leave. He entered Jefferson College, Philadelphia, and studied medicine. The War Department was informed that he was practicing and dropped him, but when Jefferson Davis became Secretary of War he reinstated his former classmate.

South Carolina's present Captain Northrop was the first to resign as commissioner. President Davis made him Commissioner General, and he had charge of the provisioning of Northern soldiers confined in Libby and other prisons. So infamous was his conduct that he was referred to by the Confederate soldiers as 'the man who fed the Union soldiers.'

Feeding Wheat to Cattle. HAYES IS GRACED, Md., Feb. 6.—Henry Amos Osborn, the extensive owner of the neighborhood, has 1500 bushels of wheat in his barn which he is feeding to his cattle. The farmers of Harford county who have mortgages on his land are unable to make the interest due. The present price of wheat, the lowest ever known, is the cause of this general misery.

Mrs. Mary Lease Wins. TORONTO, Kan., Feb. 5.—Mrs. Mary Lease today won her case in the Supreme Court. The court decided that the Governor can not remove her a member of the State Board of Charities, of which board she remains president.

Tariff Poses in the Senate. WASHINGTON, D. C., Feb. 10.—Great difficulty is being experienced in the Sub-Committee of the Senate in its efforts to amend the tariff bill that it will satisfy the full committee. This appears to be the case particularly with sugar and the Louisiana Senators have been loud in their protests against all the suggestions so far made by the Sub-Committee will not give them enough, and in order that the Committee may have no cause to complain, they have made their demands in writing.

There is some evidence of a combination of sugar, iron and coal Senators, and their demand upon the Committee is causing it no end of trouble. The Senators representing these three articles insist that they be always and always have under Democratic doctrine purely revenue articles, and that in the present condition of things this is no time to remove the duties.

The Impending Peroration of Mr. Cockran's speech is expected to be a historical event. For the first time in the history of this nation, said Mr. Cockran, there is an effort to create a class distinction between a small body of capitalists and the great body of the people who support the government and who support the industry and agriculture of the future glory and greatness of our nation depend.

Mr. Cockran's speech is expected to be a historical event. For the first time in the history of this nation, said Mr. Cockran, there is an effort to create a class distinction between a small body of capitalists and the great body of the people who support the government and who support the industry and agriculture of the future glory and greatness of our nation depend.

Novel War Over a Quilt.

Acworth, Ga., Feb. 2.—A curious case, which has excited the interest of lawyers, is being tried in the Superior Court of law, heard by Judge Whitehouse, of the Superior Court, this afternoon. At an Old Fellow's fair that took place last March, a quilt was sold for \$25. Mrs. Viola Pettigill, who guessed the right number first, claimed the quilt, got a Justice of Peace to issue a writ of replevin and secured the quilt.

The other five women, then learned that the commission of Justice had explained the writ issued by them. There was no way in law to recover the quilt from Mrs. Pettigill, so a bill in equity was brought. The hearing was exciting. Five plaintiffs each asked to be declared tenant of the quilt in common, and have a receiver appointed.

The defense of the woman who has the quilt is that the guessing scheme comes under the law against gambling. Lawyers contend that it will be the case of the commission of Justice had explained the writ issued by them. There was no way in law to recover the quilt from Mrs. Pettigill, so a bill in equity was brought.

The contest has caused trouble in two churches, and divided the quiet village into warring factions.

Holiday Cheer. The holiday season is now upon us, and every household in the land is preparing for the plum pudding, and the general feasting and rejoicing. Little good brands of our old country rum for the pudding, or a little stimulant to keep the spirits up and the mood cheerful, is absolutely necessary for an old country Christmas cheer. One of the most prominent liquor dealers in the country, Mr. Max Klein of Allegheny, Pa., whom we can cheerfully recommend, and who has the reputation for handling only absolutely pure liquors, will sell you the following brands of six year old Pure Pennsylvania Whisky, at \$1.00 per quart or \$10 for \$100.

Charles A. Dorr, only son of Toledo's first mayor, Saturday commenced proceedings for divorce for the third time against the same woman. They married one month after his first divorce and two years later a second suit was instituted.
