Such a small matter seems not to trouble Mr. Tarsney, if he even knew it, as he appears on the ways and means committee as one of the avowed chainions of free lead as "raw material." Of course free lead will materially ad-

Smelting and Refining Company, the on-

ly local corporation or individual that will not be injured by the placing of lead ores on the free list. An intelligent and wide awake Democrat, a worker in the lead mines of Southwestern Missouri, said to me yesterday: "Our wages under the McKinley tariff were from \$2.75 to \$3.50 per day. Should the Wilson bill pass we shall have to compete with the peon labor of Mexico, and I suppose reduce ourselves to their condition." I am told Mr. Tareney is about to go to Mexico. It would be well for him to visit the mines of Zucatecas and Sonors, and to compare the laborers in the lead and eilver mines there and their condition with the class and conditions of similar workers in this country. If he can look on the poor, half starved, half clothany compunctions of conscience because of his effort to reduce the laborer in the mines of Missouri to an approximate condition, it will be because Mexican mescal and pulque will blunt his senses, as the Democratic doctrines and theories
