A new blank form has been prepared at A Man'S

the department of public instruction for the annual district reports which calls for the cost of two additional items of expenditure not heretofore published in the of these items calls for the cost of school the cost of school supplies other than textbooks, including maps, globes, &c. These forms are sent to the secretaries of all the school boards in the state. The reporting of these additional items of expense becomes necessary, inasmuch as the act of 1893 requires directors to purchase textbooks and supplies at the expense of their districts, and it therefore, becomes a legitimate item for publication in the de partment's annual report for the current school year. County superintendents will be notified of this change and are requested also to see that all district reports are made up in accordance with prescribed forms.
