For Lieutenant Governor—Walter Lyon. For Auditor General—Amos H. Mylin.

For Secretary of Internal Affairs—James W. Latta. For Congressmen at Large—Galsbush A. Crow and George P. Huff.

COUNTY. STATE SENATE. N. B. Crigfield, Jemett Township.

Jerry Commissioner. Samuel J. Bowser, Millford Township. POOL DIRECTOR. William Hall, Millford Township.

THEY all "take sugar in their." SHALL THE Senate of the House "shack down?" Ah, there's the rub.

As a financier and a money-saver, Secretary Carlisle is not a howling success.

SAID David R. Hill, "I am a Democrat," and now "he winks the other eye."

CHAIRMAN Wilson of the House Committee on Ways and Means, is now out with a lantern searching for the remains of his little bill.

AND now the organs are down on their knees pleading with the Senate, "please be good friends to the President. Let him have his way." "Just look how these rascally Republicans are laughing at us."

By the House accepts the Senate tariff bill and it looks as though it will have to, the President will, when he signs it, with his Wilson letter before him, have a big dish of crow to swallow and digest.

EMMETT F. AVHESON, of Washington county, was Monday night nominated as the Republican candidate for Congress in the Twenty-fourth Pennsylvania district. The nomination was made on the 250th ballot.

After the 24th ballot Robert F. Hopwood, the Fayette county candidate, withdrew from the contest. The nominee is one of the best known and active young Republicans in Pennsylvania. He will be triumphantly elected and will be faithful to the interests of his constituents.

THE "reading out" process with which the Democratic organs are wont to intimidate recalcitrant statement has fallen into most laughable disorder. A few days since Senator Hill was being most rigorously "read out of the party," and now that Senator, faithful among the faithful, standing squarely on the party platform, grins with glibness at the "reading out" of all his colleagues for "perfidiousness" deserting the President and the platform. It is the old story of the "litter bill" or "answering a fool according to his folly."

The insincerity and inconsistency of the Democratic "statermen" is exhibited in a very marked manner by their votes on Senator Hill's motion to instruct the conferees to abandon the proposed duties on iron and iron ore and place them in the free list. Notwithstanding the party pledges and party mouthings and in face of the President's denunciations of "party perfidy" and "party dishonor" but two lone Democratic—Hill and Irwin—cast their votes for free iron and free iron ore.

Who is it who is the President's ally? It is the Democratic Party, who is the President's ally? It is the Democratic Party, who is the President's ally? It is the Democratic Party, who is the President's ally?

By a slip and tuck vote the Democrats in the Senate, on Friday last, escaped defeat on their tariff bill. On the question of sending the bill unamended to the Conference Committee the vote stood 22 to 22, Senator Stewart (Republican) of Nevada, having flunked at the last moment and refused to vote. Never before was a majority party so badly served; never was a President so humiliated. The managers of the Gorman or "what is it?" bill saw defeat staring them in the face, and they were saved by the vote of a Senator who openly declares that on a final vote he will support the tariff bill. It is amended to suit him, and the President with a majority of his party in the Senate and after denouncing Gorman and his allies as corrupt and perfidious, found himself utterly powerless in the house of his party friends and was compelled to see the "perfidious" Gorman gather in the fruits of victory.

The sugar trust proved more firm than the President with all his patronage and the bill goes back to conference without the dotting of an "or" or the crossing of a "t." After the pitiful appeal of Senator Vilas, the mouth-piece of the President, and after all the whining in behalf of his friends, Gorman is absolutely master of the situation for the present, and there will either be no bill passed at this session or the President and the House will have to eat a tariff of crow.

With their victory on the hard fought field of the Senate, there is no probability of any compromise being made by the conferees appointed by the Senate, and so it must be the Senate bill or nothing. There is no escape from this dilemma, except by the President winning over one of the Gorman Senatorial combine, and after the tie vote of Friday this week appears to be absolutely preposterous. It is a strange thing, a vote would change the face of the situation, and who will dare take that responsibility? It looks, therefore, as though there is no possible solution otherwise than through a total surrender on the part of the President and the House. Will the President surrender, or must the country do without the tariff reform, which has so long been announced as essential to its salvation? This is the question that will have to be determined within a few brief days. Meanwhile the country sustains and waits.

The alliance maintained by Governor Pattison during the late labor insurrection has been so adversely criticized that his Excellency has made known the fact that so far from being a mere disinterested looker-on, he made an official tender of the entire military force of the State to assist the President in maintaining order and enforcing the law. While the Governor's attitude in this particular, and his received himself thereby of adverse criticism, we are of opinion that a little closer attention to home affairs and the suppression of the lawless rampant in some sections of our Commonwealth would be more to the credit of his administration. For instance, the deplorable condition of affairs in the coke region should have speedy and determined handling, and the organized and defiant hostility to law and order prevailing there should be summarily crushed. For weeks past hundreds of alien strikers have been organized and armed bands been marching through the region, intimidating workmen, terrorizing the entire community and enforcing illness through fear. The law-abiding citizens and the willing workmen of that section of the State are entitled to, and should have, speedy and ample protection from the ignorant and lawless men. These alien strikers are not American by either birth or adoption, but as a rule are the scum of Europe, aliens in sympathy and alien to law and order and good government. Riotous, brutal, and fearing nothing but bayonet law, they must be put down with a strong arm and an iron hand. If the civil authority is unable to control them, the Government should take them in hand. The American and naturalized workmen of that and other regions are, with scarce an exception, law-abiding, law respecting citizens, who are entitled to protection in their persons, their property and their labor from the authorities of the Commonwealth, and the Government should be no party to their wrong-doing. There should be no parading, no hoisting, no trifling with the brutal and anarchistic aliens now terrorizing portions of Western Pennsylvania. To hesitate is a crime. The Governor has the power; let him use it. Riot and disorder must be put down. If the Government was so prompt in punishing the armed forces of the State for the purpose of putting down rebellion and mob law at Chicago and other places, why not use the forces for the suppression of anarchy and lawlessness at home? Let the Governor act before riot becomes chronic and the citizens are constrained to arm themselves in self-defense.
