

The Somerset Herald.

EDWARD SCULL, Editor and Proprietor.
WEDNESDAY, Oct. 17, 1896.
REPUBLICAN NOMINATIONS.
Election, Tuesday, Nov. 6th.

STATE.
For Governor—Daniel H. Hastings.
For Lieutenant Governor—Walter Lyon.
For Auditor General—Amos H. Mylin.
For Secretary of Internal Affairs—James W. Latta.
For Congressman—Large—Galusha A. Grov and George F. Huff.

COUNTY.
CONGRESS:
J. D. Hicks, Blair County.
STATE SENATE:
ASSEMBLY:
Wm. Henry Miller, Queenshoning Town.
Jeremiah Maier, Spanghansburg.
JOHN COMMISSIONER:
Samuel J. Bowser, Milford Township.
POOR DIRECTOR:
William Paul, Milford Township.

"Good old Democratic times" have come again—Wool 17 cents per pound, cotton 5 cents per pound, and 50 cents per bushel for wheat.

MR. BAYARD IS on the ocean, hurrying home to save Delaware to the Democracy, if possible. There is nothing but trouble for the Democracy the country over.

THERE IS 50 per cent. more money per capita in this country now than there was seventeen years ago. This is a complete answer to the Populist howl for free coinage of silver and an increased circulation.

SENATOR McPHERSON, of New Jersey, announces that "his health would permit" his being a candidate for re-election. The Senator sees the storm clouds in the political sky and is smart enough to get in out of the rain.

SHOW THAT you are in earnest by going to the election—storm or sunshine—and casting your vote for the clean Republican ticket. Like the old veterans, you can then say: "I was there when the great battle was won."

MCKINLEY'S tour through the West has stirred up Republican enthusiasm to its profoundest depths. The Kansas City Journal says of him: "His name alone is a synonym for the hopes of all who are now endeavoring business and financial distress."

THE Republicans everywhere are holding the Democratic nose squarely on the protection, gratification, and a universal shriek of "standaway home!" is the only response that comes up from the sufferers. There will not be much nose left by the 4th of November.

NOT A letter nor a word has been received from Mr. Cleveland endorsing Hill for Governor of his own State. Doubtless the President is doing "a power of thinking," but his pen and tongue both appear to be paralyzed. Meanwhile the cuckoos are in dire straits, waiting for a sign.

SOME of the leading Democratic journals are kindly warning Republicans not to nominate McKinley for President in 1896. "Thanks, awfully!" The Republicans are not making nominations for 1896 this year, and it was the advice of a sage: "Find out what you don't want to do, and do it."

THE meeting held at Morgantown, West Virginia, on Saturday, to boost the political fortunes of Congressman Wilson, the father of the bill of "brandied and dishonor," as Cleveland criticized it, was largely made up of Pittsburg and Southwestern Pennsylvania Democratic shouters. When it comes to voting those gentlemen "won't be in it."

DAVID B. HILL, the Democratic candidate for Governor of New York, is the same man under whose advice and with whose assistance Judge Maynard stole the returns that placed the Senate in the hands of the Democrats in 1887. The people of the State sat down on Maynard by over 100,000 majority, and the indications are that they will treat his master in the same way at the coming election.

HOKA SMITH, the pillar of the old veterans' pensions, solemnly asserts that he sees nothing discouraging in the recent elections in his native State of Ohio. There was only a slump in the Democratic majority from 75,000 down to 29,000, and what that in these days, when everything appears to be turning into the Republican party? Probably Hoka is happy that his State didn't make a plunge like Connecticut into the Republican ranks.

ties were reduced immensely. Arkansas cut down Cleveland's majority about one-half and Georgia more than three-fourths, while Maine and Vermont had doubled their Republican majorities. Add to this the revolt of the sugar planters in Louisiana, who have converted entirely to the Republican ranks, the cat-and-dog fight between the Hill and Cleveland Democracy in New York which will almost certainly throw the state into the hands of the Republicans, the virtual abandonment of the Democratic caucus in this State, and who cannot see the end of the party.

Chance for Wild Catting.
The Cleveland administration has solved the currency problem. The repeal of the state bank tax is not necessary in order to increase local circulation. This is the construction placed upon an opinion expressed by the Solicitor of the treasury at the request of Secretary Carlisle on the question as to whether counties may lawfully issue bonds of low denominations that can be used for circulation.

The request for information came from Floyd county, Ga., in a letter addressed to the Controller of the currency and signed by R. G. Clark, a banker in Rome, Ga., who stated that the county commissioners of Floyd county, Ga., proposed to issue a certain amount in county bonds bearing low rates of interest in denominations of \$5, \$10, and \$20, that they had proposed to issue in lieu of these bonds was the intention of using them for local currency.

"No long ago we heard a great deal from Democratic newspapers at a time when the country was prosperous and when that prosperity was generally distributed among the people, a great deal of talk about a time when the rich were all getting richer and the poor were getting poorer and by way of curing that condition of things, which did not exist, the Democrats said that they would bring in a time when the rich would get poorer and the poor all get richer. But instead of that they have illustrated the general truth that we prosper together and that we suffer together. It is not in a time when we are all getting poorer together. The policy of a party that is to be accepted by a people should be a policy that brings and maintains a general policy and that appeals to men in all parts of the country.

Mr. Roosevelt also held that the word "notes" could not be regarded as including county bonds, and he was therefore of the opinion that the proposed issue of county bonds would not be taxable under the federal statute.

A talk with Solicitor Reeves procured from him the further statement that whether the bonds issued by a county are for interest or not, his opinion is that they are not taxable under the federal statute. He admitted, would be in denominations as low as \$1 and \$2, and could be used as a local circulating medium.

THE importance of the opinion is all the more appreciated in Georgia, where it is declared that the state bank problem is settled, and that it will be an easy matter for the counties to provide the people with all the money they require. The only possible change of conflict with the United States authorities on this question would be in the manufacture of these bonds or notes in a form resembling United States currency, as in the case of the Mississippi bonds recently issued. This, it is said, could easily be avoided by warning the engravers of the new money not to imitate any vignette, seal or scroll work in use by the United States.

Good Democratic Times.
STURTEVILLE, O., Oct. 16.—Another illustration of how the Democratic free trade administration has affected the sheep raisers was given at an assignee's sale near Adams yesterday. Forty-five merino sheep sold for 40 cents; 24 sheep sold for 40 cents, while a bunch of registered blacktop merino bucks sold for 40 cents. Several Democratic sheep raisers in attendance at the sale declared that they would vote the Republican ticket hereafter. A dealer in sheep in this county has been paying 25 cents apiece and then pelting them and harrasing the carcasses.

Deadly Lynched.
LEXINGTON, Ky., Oct. 14.—(Dear Morton, the young mountain desperado, who murdered Sheriff William Sims, of Lee county, at the Beattieville fair grounds yesterday afternoon, was taken out of Beattieville jail this morning at 1 o'clock by a mob of over 200 men and hanged from a bridge.

Morton showed great coolness, and just before being swung off made a short prayer asking God to forgive him.

These gentlemen now tell you that they want to break down our democracy. They want to divide the English friends the other day, that he was engaged in tearing down fences. Now, fences are for two purposes. I was raised on a farm and was an expert. I was in charge of the fences that kept them in, one or the other. The fence around the cornfield is to keep stock out, the fence around the pasture field is to keep stock in. What does tearing them down do? That all of the range stock outside will get into our pastures and that our cattle will share the range with them. I start out with this proposition, that I want to see a man who has a range of cattle that he might not be able to keep the cattle that he had outside. I make this second proposition, that the grass inside of our fences has been better and the cattle sicker and better in one and the same field. I have seen them here and there, and I want to see them here and there, and I want to see them here and there.

They talk to us about wanting more foreign tariffs, and concluding pointed out the rich and exclusive market of the country when they are talking about it. They have thrown away with the reciprocity feature of the McKinley bill.

Tammany's Death Struggle.
From the Pittsburg Commercial-Gazette.
The Tammany Democracy of New York, after a long and fruitless history, has succeeded in placing in nomination a city and county ticket. The greatest difficulty was in the selection of a satisfactory candidate for mayor. The bravest man in favor of Hugh Grant, but the gentleman positively refused the use of his name. An attempt was made to stampede the delegates to his support, but it failed, and the choice fell upon Nathan Straus. Thus the issue between Tammany and anti-Tammany; honesty and corruption in government; the overthrow of machine rule or its perpetuation; the toleration of bribery, blackmailing or the suppression; the shielding of vice, crime or the enforcement of the laws—in a word, the issue between decency and intolerable debauchery—has been squarely raised and will be fearfully fought.

China Suing for Pears.
SHANGHAI, Oct. 12.—The rumor is current here that the Chinese Government has begun negotiations with Japan for peace. China, it is said, has offered to acknowledge the independence of Korea and to pay an indemnity to Japan. The advance wing of the Japanese is reported to be seven days' march from Mukden. The white fleet holds the northern part of the Gulf of Pechili to prevent the return of the Chinese seaward after the battle which is expected.

On Deck This Week.
A large line of Fishing Tackle now on sale at
J. B. HOLLERBAUM.

A TRAIN ROBBERY.
AND NEAR WASHINGTON, TOO.
Over \$150,000 Secured by the Masked Bandits Last Night.
WASHINGTON, Oct. 15.—All Washington was astounded this morning to learn that seven masked men had on a train last night within a few miles of the National Capital, captured a sum of \$150,000 to \$180,000, and escaped on the engine.

The Cleveland administration has solved the currency problem. The repeal of the state bank tax is not necessary in order to increase local circulation. This is the construction placed upon an opinion expressed by the Solicitor of the treasury at the request of Secretary Carlisle on the question as to whether counties may lawfully issue bonds of low denominations that can be used for circulation.

The request for information came from Floyd county, Ga., in a letter addressed to the Controller of the currency and signed by R. G. OUR NEW
FALL AND WINTER
STOCK:
the most artistic and magnificent ones ever issued is now being offered by the Pittsburg Dispatch to its readers. It is beyond question the greatest offer ever made by a newspaper. See the *Dispatch* for full information.

Bowman and Esler Condemned.
READING, Pa., Oct. 12.—The convention of the East Pennsylvania conference of the Episcopate, which closed on Sunday, completed its organization here this evening. The rules of the old East Pennsylvania conference of the Evangelical Association were adopted for the government of the new organization. The resolutions of the two days' session were the adoption of the report of the committee on resolutions, in which Bishop Esler and Bowman are condemned for their attitude toward the church. It is charged that Bishop Bowman and Esler have "by various means of persuasion suspended from the church those whose only offense was a firm, but Christianlike, opposition to their schemes."

MAILED FREE.
