THE campaign in this State was free from med until Col. Singerly started out on his canvass, earrying a blackguard with him, who is denouncing General Hastings as "a coward and an ignoramus." The fellows name is HENSEL, and he was Attorney General during Pattison's former administration. Of course it won't hurt Hastings, but it disgraces Singerly.

Or course everybody who wants to knock out free trade and these "good old Democratic times" will vote for Hicks for Congress. He is a hustler and a rustler, an old soldier, a farmer and a lawyer. What more do you pai want in a candidate? Remember that the only hope for the return of business prosperity depends upon having a Republican majority in the next House.

Some of the leading Democratic journals of the country are prophesying that the Populists will control the next Congress. This is equivalent to admitting their own defeat. Think of it! The present House has a Democratic majority of more than eighty, and now it is conceded that this majority will be entirely wiped out. The truth is the Republicans will control the next House by a comfortable working majority. Stick a pin there.
