Purify your blood, tone up the system, and regulate the digestive organs by taking Hood's Sarsaparilla. Sold by all druggists.

A Year of Record Breaking.

This year will be memorable in the annals of athletics, sports and physical nchievements generally for the raising of the old standards of performance. Records have been broken right and left. For instance:

When the trotting season began Nancy Hanks' record of 2.04 had stood To please and suit ail. unbeaten for a long time. Alix has brought it down to 2.03%. On the pacing track Robert J. has lowered the record to 2.1), beating Mascot's previonsly fastest mile by 21 seconds. Directum has made a new record for twoyear-olds by pacing a mile in 2.07]. Fantasy has made a new trotting record four-year-olds by covering a mile in 2.07]. The wonderful performance of Flying Jib at Chillicothe, Ohio, last Saturday, when, hitched to a running mate, he paced a mile in 1.59], is the Gloves, Stockings, and Underwear crowning track feat of the season. This feat is made still more astonishing by the fact that the last half mile was paced in 58] seconds. The best previous pacing record made by a horse hitched to a running mate was that of Westmont, who, in 1884, at Chicago, covered a mile in 2.01]. Robert J. still holds the pacing record, but Flying Jib's work has made it probable that in the near future a mile in two minutes or less will be paced by a horse running without a mate. Nearly all the old mile turf records have been broken this season, and we must not forget in this brief review of it that Ducat, at Sheephend Bay, on August 28 last, run a mile in 1.39, carrying 113 pounds-the best one-mile time ever made on a circular track.

Two Valuable Friends.

1. A physician can not always 1 had. Rheumatism, Neuralgia, Sprains Bruises and Burns occur often and sometimes when least expected. Keep handy the friend of many households and the destroyer of all pain, the famous Red Flag Oil, 25 cents.

2. Many a precious life could be saved that is being racked to death with that terrible cough. Secure a good night's rest by investing 25 cents for a bottle of Pan-Tina, the great remedy for coughs, colds and consumption. Bottles of Pan-Tina sold at G. W. Benford's drug store.

Hill's Prospects.

"Holland," the well informed correspondent of the Philadelphia Press, has the following to say about the prospects of Hill's election in New York: So far as the general result in the state is concerned, we get all sorts of opinions, excepting that we hear no person of sense claiming that Mr. Hill is sure to be elected. The most that the Democratic leaders say is that they other hand Republicans who are estimating, vary in their figures from 100,mate seems to be that the Republicans will win and by a majority rising 20,- will be the 000. Mr. Platt does not set the figures much higher than 40,000. At the same time it should be said that it, will occasion no surprise if Mr. Hill is buried beneath a majority greater than that which he received when he was first candidate before the entire people of the state, a majority of 196,000 or 4,000 more than Cleveland received on the same ticket in 1882.

Thomas G. Sherman who has been a is there will be a revolution in the Democratic party, because such a defeat as that would be due to national issues to Cleveland's administration, to ,Carlisle's imcompetency and to the mbeeility of the Democratic party.

Graveyard Soil. While cremation of the dead is un-

doubtedly growing in favor it appears that the dangers attending the ordinary burial practice may have been exag- BARGAIN gerated. This is indicated by a chemical and bacteriological examination of samples of virgin soils, pure agricultural soils and gravevard soils, that has lately been made by a Scotch investigator, Dr. James Buchanan Young. The proportion of organic matter, as judged by the organic carbon and nitrogen present in the samples, was buy or not, and it will give us found to be not materially greater in soil that has been used for burial than in good pure agricultural soil. No examine and price these bargains But a merchant may lawfully give tickets pathogenic organisms were discovered in the graveyard soil, and the number of bacteria present, though greater our ability to make prices on best than in virgin soil, was much smaller than one might expect. The groundwater layer of soil below the coffins unprecedented. was practically free from bacteria. The results, in fact, tend to support the idea that properly conducted burial in suitable and well-drained soils can

ceived from Clevelands Secretary of Agiculture, J. Sterling Morion.

speaking of Morton, said, if President Cleveland in the selection of a Secretary of Agriculture had searched this broad land over with the single purpose of finding and placing in power the worst American enemy of the American agriculturist, he could not have made surer work than in the selection of Secretary Morton, whose unrelenting hostility to the farmers of our country has already een abundantly proved.

The granger complains that Secretary Morton has crippled the scientific work of the agricultural department, and in his glaring maladministration of the meat inspection service has again laid the farmer open to the charge of foreign govrnments that he is nursing pleuro-pneumonia. In conclusion he said: "The farmers of Pennsylvania will soon be called upon to endorse the acts of Secretary Morton at the ballot box. Endors-

happy, and his business apparently in a prosperous condition, President, or Dictator, Hippolyte, of Haiti, has physically thrashed his Minister of War. This is the news that comes lirect from Port an Prince, Haiti. The Dictator and his Chief Warrior quarreled at the palace a day or two ago about some natter of government. Hippolyte doesn't believe in red tape. A request for the resignation of the War Minister would have been in order, but the Dictator concluded he would run a little war of his own, with the Minister in it, so he went at the latter, hand to hand. The dusky Cabinet officer, despite his bellicose title,

risburg Judge McPherson laid down the law of chance in these words: "What is popularly known as a 'raffle' is a lottery, and so is the the disposing of money or property, of any kind by the sale of 'chances.' A merchant giving tickets to his customers with articles purchased, and afterward decides by some form of chance (by drawing lots, for example,) which tickets shall receive a prize, either in money or in property of any kind, is a lottery is maintained by any person whether he is a merchant or not, who sells tickets only, and afterward decides by chance what ticket is to receive a prize. to every customer, or to those only who buy to a certain amount, and may after-
