A California elergyman proposes to abolish taxation by making national, State and local governments earn their own living by operating a'l lines of transportation, the telegraph, and other forms of business now carried on by large corporations. Details of the plan are omitted, and no wonder.

THE only county officers to be elected this fall are one person for District Attorney and one person for Poor Director. For the Republican nomination for District Attorney, Hon. A. J. Colborn is the only candidate. For Poor Director two candidates have announced themselves: Harrison Gohn, of Somerset twp., and Adam S. Miller, of Lincoln twp. At the primary election, therefore, the only contest will be between these two gentlemen. It strikes us that this is a very small matter, as both are farmers, neighbors, and equally fit to fill the position, to necessitate the expense and trouble of holding a primary election. Mr. Gohn and it passed without any opposition. having been a candidate last year and only having been defeated for the nomination by a few votes, claims the nomination this year should be conceded him.
