

# FARM FIELD GARDEN

## A DINNER IN KOREA.

It is a ceremonial that extends through the entire day.

There is a strong feeling among many practical farmers that the advantage of the grain drill for seeding has been overestimated. American Cultivator believes that the drill simply sows the seed and does not improve it. It was formerly the custom to put it in the ground in a shallow furrow, and then to cover it with a roller. This method is now being replaced by the use of the grain drill. The grain drill is a machine that sows the seed in a row, and then covers it with a roller. This method is now being replaced by the use of the grain drill.

The comparative merits of broad-casting versus seeding with a drill. There is a strong feeling among many practical farmers that the advantage of the grain drill for seeding has been overestimated. American Cultivator believes that the drill simply sows the seed and does not improve it. It was formerly the custom to put it in the ground in a shallow furrow, and then to cover it with a roller. This method is now being replaced by the use of the grain drill.

It is also good for spring grain, which is nearly always drilled in seed. It is indispensable with grain that has to pass through winter and spring with the sudden alternations of freezing and thawing lifting the soil at night and letting it fall when the sun is shining during the day. Unless the grain rows are horizontal and near the surface they cannot live through such usage. To have the grain rows thus the seed must be covered as lightly as possible for it to grow, says the authority quoted.

It is also good for spring grain, which is nearly always drilled in seed. ### Saved Mrs. Remie's Life.

Mrs. Jennie Remie of Virgil, N. Y., had been sick for a year or more with overflow of the gall and ulcers of the stomach. Her physician told her she could not live. Mrs. Remie's mother had used Dr. David Kennedy's Favorite Remedy, that she persuaded her daughter to use it, which she did, with the result that it cured her of these diseases, and she says she was never as well as now.

### Farm and Garden Notes.

Fed as good a variety as possible. Examine the colts carefully for vermin. Sunshine is the best and cheapest medicine. During 1894 only sixty stallions were imported from Great Britain. The grooming of a horse is second only to his diet in importance.

### A Remarkable Cure of Rheumatism.

WESTMINSTER, Cal., March 21, 1894.—Some time ago, on awakening one morning, I found that I had rheumatism in my knee so badly that, as I remarked to my wife, it would be impossible for me to attend to business that day. Remembering that I had some of Kennedy's Pain Balm in my store I sent for a bottle, and rubbed the afflicted parts thoroughly, with an hour I was completely relieved. One application had done the business. It is the best liniment on the market, and I sell it under a positive guarantee. R. T. HARRIS. For sale by Benford's Pharmacy.

### It may do much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe Kidney trouble for many years, with several pains in his back and also that his bladder was affected. He tried many so-called kidney cures but without any good result. About a year ago he began to use Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. For large bottles, at J. N. Snyder's drug store, Somerset, Pa., or at Benford's drug store, Berlin, Pa.

### Knights of the Maccabees.

The State Commander writes from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New Discovery and at the end of two days the cough entirely left them. We will not be without it hereafter, as our experience proves that it cures where all other remedies fail."—Signed, F. W. STEVENSON, State Com. Why not give this medicine a trial, as it is guaranteed to cure all coughs, colds, and croup. Regular size 50c. and \$1.00.

### A Dream and its Fulfillment.

A young man lived in Florence, dreamed that he had been bitten and mortally wounded by the marble lion which stood with open jaws in front of a certain church. Walking past the church on the following day with a few friends he told them of his dream and placed his hand in the lion's mouth, with the words, "Now bite me." At that instant he felt a violent pain, for a scorpion that lay concealed in the lion's jaws had stung him, so severely that he died in a few hours.—Scots.

### Having used Chamberlain's Cough Remedy in my family and found it to be a first-class article, I take pleasure in recommending it to my friends. J. V. FOSTER, Westport, Cal. For sale by Benford's Pharmacy.

### How She Took the Oath.

The story of how a Southern girl took the oath is not new, but still good. "You must take the oath," said the agent, when she applied to one of the relief agencies for rations. "No, indeed, sir, I can't swear," was her blushing reply. "But you must if you want the rations," urged the agent.

### Two Valuable Friends.

A physician can not always be had. Rheumatism, Neuralgia, Sprains, Bruises and Burns occur often and sometimes when least expected. Keep handy the friend of many households and the destroyer of all pain, the famous Old English Oil, 25 cents.

### Facts for the Farmer.

It is contended that severe winters do not do as much harm to crops as they go down below the effects of moisture, but it is a fact that the severe frosts of winter do destroy some of them. Late frosts, however, which come after the warm weather begins, is very destructive to insects. In 1893 a June frost destroyed the growing crops in Pennsylvania, but also exterminated the red wheat weevil, which more than paid for the damage.

### Sure to Be the Case.

"I can't tell you," said the experienced suburbanite in reply to the question of his new neighbor, "when the next crop will be raised, but I can tell you the chances of catching it are what you wish."

### Little David's Wish.

David was only about five years old, but he was very anxious to be a man. One day when he had been thinking about the matter, he came to his grandmother and said, "Grandma, I do wish I had a vest and a bald head!"—Youth's Companion.

### Reward \$100.00 Reward

to any person who can prove we don't reward him where no cure is effected after giving a fair trial according to directions.

### Little David's Wish.

David was only about five years old, but he was very anxious to be a man. One day when he had been thinking about the matter, he came to his grandmother and said, "Grandma, I do wish I had a vest and a bald head!"—Youth's Companion.

### Resurrection of Hostilities.

"Speaking of Noah," said the exchange editor. "What's speaking of Noah?" interrupted the financial editor. "If he owed anybody for the ark," resumed the other, ignoring the query, "his debts must have been liquidated when the ark came."

### The Norel of Religion.

I heard long ago of an enterprising tradesman who desired to have the Old Testament at least broken into a series of tracts. He was, very likely, a much less pious man, no version of these narratives can be tolerated except the ancient original versions. Yet many readers or hearers are so familiar with these, or think themselves familiar (they would probably break down under examination), that something more "spicy" is required by them. I have read an American novel about the life affairs of Judas Iscariot and Mary Magdalene. It did not interest me, I own, but it did make me laugh. Probably a more pious student would have been edified. There is no accounting for tastes. Perhaps no Biblical novel has ever won critical applause or been recommended as a piece of literature. But such novels hit a large class of readers whose tastes in other matters is not always just.

### What is an Edition?

What is an edition? Does it consist of 1,000 volumes or of 500 or 100 or 50? The word is not a technical term like "page" or "column" or any like expression. It is a term of art, and its meaning varies with the occasion, and there is, of course, no reason why it should not mean anything from the lowest to the highest of these numbers, according to the taste and fancy, or it may be the tactics, of the particular publisher who employs it. Only now that enterprising person shows himself anxious to keep the public regularly informed as to the sales of the works being from his house, it might be well to come to some understanding on this point. We know what is meant when we read that Miss Abner Darling's new novel is "in its twentieth thousand," whereas the statement that it is "in its forty-fifth edition," conveys a slightly different information at all.—London Graphic.

### How to Get Rid of Flies.

There are several ways of getting rid of this annoying little nuisance, which does not make its appearance in formidable numbers until after the last cold storm of May. Bunches of smutgrass hung in the kitchen window will keep them away, or brushing the window casings with oil of sassafras will have the same effect.

### What Comes After Death.

A good thing is told in connection with the lectures on theosophy in this city. The lecturer, in the midst of a learned discourse, asked in a stentorian tone: "What comes after death?" No one answered, and after waiting a moment he repeated, with vivaciousness, "Again, I say, what comes after death?" Just at that moment the door opened, and one of the leading undertakers of the city walked in and went down to the city, the coincidence was too much for the audience.—Bangor Commercial.
