The Somerset Herald.

EDWARD SCULL, Editor and Proprietor.

WEDNESDAY.....October 2, 1895

REPUBLICAN NOMINATIONS.

Election, Tuesday, Nov. 5th.

STATE.

For State Treasurer.
BENJAMIN J. HAYWOOD,
of Mercer county.
For Judges of the Superior Court.
JAMES A. BEAVER,
of Centre county.
JOHN JERVIS WICKHAM,
of Beaver county.
EDWARD NEWALL WILLIARD,
of Lackawanna county.
CHARLES E. RICE,
of Luzerne county.
GEORGE B. ORLADY,
of Huntingdon county.
HOWARD J. REEDER,
of Northampton county.

COUNTY.

For District Attorney.
ANDREW J. COLBORN,
of Somerset Borough.
For Poor Director.
HARRISON GOHN,
of Somerset Township.

REPUBLICAN voters see that your taxes are paid on or before Saturday next.

THE third term talk still goes on, but it is observable that it is largely confined to Democratic politicians who have an expectant eye on the offices yet at the disposal of the President.

Meanwhile Grover fishes assiduously and winks with the other eye.

SENATOR HILL, of New York, says he is a total abstainer and a careful observer of Sunday as a day of rest, and yet this highly moral gentleman has just had a plank inserted in the Democratic State platform, disguised under the title of "Personal liberty," favoring open saloons on the Sabbath day.

ONE of the chemists of the Chicago University says the essential food elements of a 1,200-pound steer can be placed in an ordinary pill-box. The difference between the size of that steer and its essential elements forcibly represents the difference between the promises and the performances of the Democratic party.

THERE is a constitutional amendment pending in Louisiana, which imposes an educational requirement in the matter of suffrage. Its object, of course, is to disfranchise the negroes; but, strangely enough, a large proportion of the negroes favor it as a stimulant to education, while the opposition to it comes mainly from white men who object to the taking of the franchise from illiterates of their own color. The situation is a surprising one, and the politicians do not know what to do about it.

SATURDAY, Oct. 5th, is the last day for paying taxes in order to qualify a voter to cast his ballot at the coming November election.

MR. ECKLES, the comptroller of the currency, explains that the cause of our gold going abroad is that the American people are buying a great deal abroad and not selling sufficient of their own products to equalize things. And yet, have we not in unrestricted operation a tariff which he and his party told us would open up the markets of the world to American products? Evidently something is wrong with the foreign markets, or with the promises made by the tariff tinkers in the last Congress.

ACCORDING to the *Minneapolis Tribune*, the "exports of corn for the fiscal year ending June 30, 1894, under the operation of the McKinley tariff, were 63,425,655 bushels."

According to the same authority, the exports of the same product for "the fiscal year ending June 30, 1895, under the operation of the Wilson-Gorman tariff, were only 25,507,753 bushels."

At that rate it is not unreasonable to conclude that we may be able to "capture the markets of the world" about the time Gabriel blows his last trumpet on the resurrection morn.

THERE is again an apparently hopeless split in the ranks of the Democratic party in New York. Tammany has refused to allow the State Democracy more than a one-fifth representation in the State Convention, and the State Democracy withdrew from the Convention in high dudgeon, which means that at the proper time they will knife the so called regular ticket. Evidently the fight of last year will be renewed with increased bitterness, and the Republicans will profit by it. As the matter now stands the only question in New York is as to the size of the Republican majority.

EVERY voter should see that his taxes are paid on or before Saturday next, as that is the last day on which taxes can be paid to qualify him to vote at the election on November 5th.

DR. SCHAEFFER, the Superintendent of Public Instruction, has appointed Friday, October 18th, as autumn Arbor Day, and urges its observance by the schools of the Commonwealth. Dr. Schaeffer says the celebration of the day leads to the planting of trees for shade and for fruit. In response to the first Arbor Day proclamation, issued in 1885, not less than 50,000 trees were planted by the teachers and pupils of the public schools of Pennsylvania. The annual recurrence of Arbor Day has led to the planting of thousands of additional trees and to the better adornment of the grounds around the schools and the home.

IT is now but little more than a month until the election will be upon us, and yet we have never known so little stir and such an apparent apathy existing in the Republican ranks in this county. This is not because of dissatisfaction with the State or county tickets, or because of any trouble in the party ranks, but it is simply because of an assured confidence in coming victory. The HERALD, while in heartiest sympathy with this sentiment, begs to remind its Republican friends that over confidence often leads to disaster. It takes votes to win political victories, and it is the imperative duty of every good Republican to see that the votes are all polled. The election of next month, while important, is only a skirmish in advance of the great battle of next year, but it is of vast importance as a marker in the Presidential campaign so soon to follow. Pennsylvania leads the column. She can give, and she ought to give a majority of two hundred thousand next month for her excellent State ticket, and every Republican voter in the State should take pride in helping to build up the majority. Arouse to the importance of the coming election, friends, and see that Somerset county does her full share in securing this preliminary battle.

Quay May Turn Farmer.

Senator Quay will visit his Lancaster county farm on his return home to Beaver from to-morrow's meeting of the state Republican committee at Philadelphia, says the Harrisburg *Patriot*. He has not seen the place since last Fall, when he spent a day there in company with Senator Cameron. Since then it has been improved under the direction of Deputy Auditor General Friday by the addition of a magnificent new barn, fences and outbuildings. The purpose of Colonel Quay's proposed visit is to arrange for the remodeling of the house and other improvements.

This is one of the finest farms in Lancaster county. It consists of 135 acres and lies along the line of the Lancaster and Columbia electric railway, midway between Columbia and Mountville. It is bounded on the south by the Pennsylvania railroad, which has built a small station nearby known as Glen Manor. The land was taken up in 1741 by Christian Garber, and remained in that family continuously until it was bought last October by Mr. Friday for Senator Quay. Shortly before the sale the large stone barn was destroyed by fire.

The new barn is the finest and most convenient in Pennsylvania. It has a frontage of ninety feet and a depth of ninety-three feet. The basement is used as a stable and is so arranged that one can stand anywhere on the lower floor and see all the horses and cattle feeding. Each stall is automatically supplied with water from a large spring. The second floor is of sufficient depth to admit of three four-horse wagons being driven on the floor at the same time. Two immense corn cribs and an agricultural implement shed are built in the barn.

The dwelling house and barn stand back about 400 feet from the Columbia and Lancaster turnpike. The house is a substantial brick structure and was built in 1812. The floors are as good as the day they were laid and are as smooth as the floor of a dancing hall. The house will be remodeled after a design prepared by Mr. Friday. A porch ten feet wide will be built around the front and sides and the windows on the first floor cut down to the floor.

The old style hallway, with its wide stairs and small old-fashioned hand railing running from the first to the third floor will be retained. A cornice will be built around the front of the building. It will be fitted up with a bath, water closets, hot and cold water and furnaces in the cellar. A dining room and kitchen will be added to the south side for the entertainment of Senator Quay's friends. The Garbers were botanists and planted only the choicest and rarest trees on the property. Near the house is a pecan tree, the only one of its kind in that part of the state. There are several large magnolia trees on the lawn, which yielded flowers two feet in circumference.

There is an immense orchard on the property. The wide lane which runs through it is filled with mahogany and other rare trees. Two fine streams run through the farm, one east and west and the other north and south giving splendid meadows. The outbuildings are in first-class condition and fitted up with the latest improvements in the agriculture line. The land is farmed by the Shuman family, consisting of three brothers and three sisters, all of whom are unmarried. Senator Quay is very proud of the place and expects to spend much of his time there after the Fall elections.

Senator Quay Gives $1,000.

PITTSBURG, Pa., Sept. 28—Senator Quay said to-day that he was in favor of holding the next National Republican Convention in the Smoky City. He explained his position in this way:

"It is not too far East. Western people would come here as well as to Chicago or Cincinnati, and so would the Southern delegates. I shall do all that I can with my friends on the National Committee to have the convention held here."

As an earnest of his interest in the matter, Senator Quay subscribed $1,000 to the convention fund. With Senator Quay's subscription the fund now amounts to $41,000. The amount yet to be raised is $34,000. The Finance Committee, which was appointed to urge this city's claims in the matter, held a meeting to-day, at which Senator Quay was present.

Gen. Mahone Paralyzed.

WASHINGTON, Sept. 30.—Ex-Senator William Mahone had a serious stroke of paralysis this morning while in bed at Chamberlain's hotel. His right arm is useless, his tongue paralyzed so that speech is impossible, and his right leg is affected.

The general's condition is critical, owing to his advanced age. Vomiting and effusion in the head, which have set in, Dr. Wales says, are bad signs, and he would not be surprised if Gen. Mahone died in a short time.

Gen. Mahone's physicians, on leaving their patient at 11 o'clock to-night, said that there was no change in his condition.

Retirement of Schofield.

WASHINGTON, Sept. 29.—At noon to-day Lieut. Gen. Schofield, having reached the age of retirement—64—was placed on the retired list, and relinquished the command of the army. There was no ceremony attendant upon the retirement, though this evening he dined the members of his staff at the Arlington hotel. On Saturday afternoon the officers of the army stationed in Washington called on Gen. Schofield to pay their respects and bid him good-bye.

Maj. Gen. Nelson A. Miles will be appointed by the President next week to succeed Gen. Schofield as commanding general of the army. Maj. Gen. Ruger has been ordered to relieve Gen. Miles at New York as department commander of the East.

The Apple Crop.

According to reports the apple crop of the year 1895 in this country is simply enormous. It is estimated that its value will amount to nearly $100,000,000, though this may be a large figure, owing to the inevitable cheapness of the fruit. A large part of this vast crop will come from New York and Michigan, though Missouri, also, will have an enormous crop. Apples are said to be a surer growth in Missouri than any other state.

This year there will come near being a glut in the fruit market, so far as apples are concerned. Missouri alone will furnish from $12,000,000 to $15,000,000 worth. Orchards of hundreds of acres are no great novelty in the prolific Ozark country. Ex-Secretary of Agriculture Norman J. Coleman has 6,000 pear trees and 2,000 apple trees, the latter bending under the heaviest yield they have ever borne. Apples pay if the producer can get 20 cents a bushel for them on the tree. In almost every part of the apple producing section the yield is as great as in Missouri. The only hope of making this great quantity of fruit pay is to ship it to Europe, where good apples are scarce. For this purpose the utmost care must be observed in packing. The rest of the crop that cannot be consumed at home and made into cider, cider jelly and vinegar can be fed profitably to live stock. Apple fed pork is a delicacy. But the apples must be sweet for pigs to thrive on them.

For Itching Piles, Irritation of the genitals, or itching in any part of the body, Doan's Ointment is worth its weight in gold. No matter how long-standing the trouble, Doan's Ointment will not fail to give instant relief.

The Ideal Candidate Out.

Aaron Vanderworker, of Brooklyn, has issued a card to the voters of the First Assembly district of Kings county, announcing his candidacy as Republican Representative. In his address he says:

"I have never been in Congress, the Legislature, the poor house or the penitentiary. I am opposed to rum, Schierenism, silk stocking politics and all other known hoodoos. I own no fast horses or slow yachts, and do not depend altogether on politics to pay my rent or grocery bills.

"I never made a political bargain, and wouldn't know where, how or when to begin.

"I will work for lower taxes; will try so to regulate the expenditures of the State that every honest man shall have three square meals a day, including porterhouse steak, chicken potpie, rice pudding and port wine; and will guarantee that all the wealthy corporations shall be made to divide their profits annually with the families of workingmen, under fair discrimination and mutual agreement.

"During the canvass I will make every effort to kiss all the pretty children in the district (females between the ages of 15 and 20 being entitled to the first choice)."

Bread Will Go Up.

BUFFALO, N. Y., Sept. 29.—The efforts being made by the leading millers of the country, and the chief members of the National Millers' association to bring about an arrangement which will provide rules for the output of flour on the market, and fixing a minimum price for flour, appear to be on the point of reaching a successful issue. The details of this plan have been worked out, and made known to the principal millers in the country, and the agreement of the large millers of winter and spring wheat to abide by the regulations, or in other words, to enter the combination, is all that is now lacking. Aside from the Northwest, Buffalo holds the key to the situation, and vigorous efforts have, it is said, been made to bring the Buffalo millers into the movement.

To solve the over-production problem it was decided to have all mills reduce their production 15 per cent. All mills failing to reduce their production shall, according to the agreement, pay to the combine 10 cents for every barrel of flour in excess of the agreed rate of production. The agreement is to hold for one year, and to be renewed thereafter if satisfactory.

A Fire Under Ground.

BURLINGTON, September 28.—A strange phenomenon has developed at Columbus, a village eight miles from this city. About two weeks ago smoke was noticed coming from the ground in a large field on the farm of John Willis, but at the time little attention was paid to it. Since that time the smoke has increased in density and there is every indication of an immense fire raging underneath.

The fire has eaten its way through the field and has attacked a strip of woods where the trees, after having the roots burned off, topple over. The inhabitants of the village having made several attempts to put out this mysterious fire by digging up the earth and applying large quantities of water, but without success. Some of the older people of the community state that one time this field was woodland and they account for the fire by claiming that the decaying matter which has been turned under has caused spotaneous combustion.

No Money for the Grangers.

HARRISBURG, Pa., Sept. 27.—There will be no cash for the Grangers' societies reports this year. In answer to a letter from Secretary of Agriculture Edge asking whether the State Agricultural Society, the State Dairymen's Association are entitled to receive an appropriation for the publication of their annual reports, Deputy Attorney General Elkins decides that they are not.

He says the act of March 13, 1895, creating the Department of Agriculture, which repealed all previous acts relating to that Department, including those providing for the publication of their reports nullifies appropriations.

Stops the Fight.

AUSTIN, Tex., September 27.—Governor Culberson, in his proclamation issued last night calling a special session of the Legislature to pass a bill prohibiting prize fighting so as to prevent the Corbett-Fitzsimmons fight, says: "The recent decision of the presiding judge of Court of Criminal Appeals will embarrass execution of the laws against prize fighting, and the Legislature is asked to pass a law in clear and unambiguous terms to prohibit prize fighting, and putting it into immediate operation so that the proposed exhibition of this character within this State may be prevented.

Bought His Own Coffin.

PIKEVILL, Ky., Sept. 27.—Captain Lewis Howard died Monday at his home, in Pike County, aged 97. He was a member of the Kentucky Legislature in 1804, and the first man to steer a raft down the Big Sandy River.

He was wealthy and eccentric. He was of the belief that he would he carried off suddenly some day, and about seven years ago had a coffin made. He often lay down in it with evident enjoyment, and declared that he was ready to go at any time. His death was not sudden.

Want a Whipping Post.

WASHINGTON, Sept. 30.—A Grand Jury of the District of Columbia to-day recommended that a whipping post be established for the punishment of wife-beaters and petty thieves.

Judge Bradley remarked that he agreed that the establishment of a whipping post would be productive of good results, but said the Court could not establish it, hence Congress should be applied to.

Two Valuable Friends.

1. A physician cannot always be had. Rheumatism, Neuralgia, Sprains, Bruises and Burns occur often and sometimes when least expected. Keep handy the friend of many households and the destroyer of all pain, the famous Red Flag Oil, 25 cents.

2. Many a precious life could be saved that is being racked to death with that terrible cough. Secure a good night's rest by investing 25 cents for a bottle of Pan-Tina, the great remedy for coughs, colds and consumption. Bottles of Pan-Tina sold at G. W. Benford's drug store.

Holidaysburg Helps Out.

HOLLIDAYSBURG, Sept. 28.—The councils of this city were convoked in special session this morning, when a committee, composed of Edwin R. Baldridge, president, and William P. Smith, member, was appointed to visit Altoona and tender to the mayor and inhabitants of that city the use of a temporary water supply from the local mains during the protracted drouth.

The Hollidaysburg reservior is now furnishing water to the people of five communities, and it is believed that a sufficient quantity of the surplus water can be piped to Altoona, to afford temporary relief until rain falls.

None Under 75 at Dinner.

ALLIANCE, O., Sept 27.—The second annual Old Folks Day was held at the home of Dr. C. E. Rice to-day. A dinner was served in the Methodist Episcopal Church, at which were seated 80 of the aged guests.

Among them were Elizabeth Byers, aged 103; Priscilla Spooner, 102; Catherine Hooble, 101; Letitia L. Walker, 100; James R. Green, of Waterloo fame, 98; Sarah Greenawalt, 97; Robert C. Hutchison, 90; Maria Messmer, 95; Luther Butler, 94; Augustus Halden, 93; Jonathan King, 92; Dr. Josiah Bebout, 92; James Bayils, 91; Elizabeth Ware, 81; Wm. S. Ware, 60; Rev. John Schoffer, 99; James Thompson, 99. Not one was less than 75 years old.

Hill Turned Down.

The New York Democratic State Convention met in Syracuse, on Wednesday, and nominated the following ticket:

Associate Justice of the Court of Appeals, John D. Teller, Auburn.

Secretary of State, Horatio C. King, Kings.

Attorney General, Norton B. Chase, Albany.

Treasurer, DeWitt Clinton Dow, Schoharie.

Comptroller, John B. Judson, Folton.

Engineer, Russel R. Stuart, Onondaga.

There was the usual fight for representation from New York City. Tammany and the State Democracy presented contesting delegations. The Credentials Committee gave Tammany four-fifths and the State Democracy one-fifth representation. This made both factions angry, and the Convention adjourned amid threats of slaughter on both sides that bode ill for Democratic success this fall in the city or State.

Ex-Governor R. P. Flower presided over the Convention. The platform declares for home rule in all local affairs, including local option; better roads; legislation in the interests of labor; Federal taxation for revenue only; gold and silver as the only legal tender; rigid maintenance of the reserved rights of the States, and the vigorous enforcement of the Monroe doctrine.

Senator Hill was very active in trying to compose the difference between Tammany and the State Democracy, but without success. Tammany turned him down. A notable incident was the presence of Senator Murphy in the interest of Tammany.

Good News for the Farmers.

The price of wheat has fallen from 83 to 60 cents a bushel, but this is no argument that the low valuation of last year will succeed the rise of six months ago or that wheat growers will suffer by holding back their harvests. In the nature of things a reaction was inevitable and the reaction came, but the short crops in Argentine and lack of Russian supplies in European markets means a demand before long upon American reserves which must restore the figures to quite near the dollar mark. This year's crop in the Northwest is below the average and there is a good market in sight for every bushel the farmers may have to sell.—*Philadelphia Times.*

Increase of Pension List.

While the amount of money paid for pensions will not be materially different from that of past years, it appears that there have been added to the pension rolls during the year about 1,000 names in excess of those that have dropped out. There have been a great many outstanding pension claims adjusted during the year, and that accounts for the large increase.

The year has not been very fatal to pensioners, the death rate being less than would be anticipated at the time of life at which the veterans of the late war have arrived.

Widow's Pensions.

The pensions allowed the widow of a soldier cease, under the law, when she marries again. If she has any children by her first marriage she may continue to draw a pension as Guardian of her children after her marriage, but, in such an event, she must surrender her widow's certificate and be appointed Guardian of the children. The pension drawn as Guardian ceases when the child reaches the age of sixteen years. If the widow continues to draw her pension as a widow after remarriage, she may be proceeded against civilly for the recovery of the money overdrawn, if she has property, and may also be prosecuted criminally.

Don't Quarrel

With people for groaning when they suffer with rheumatism or neuralgia; the pain is simply terrible; no ancient torture wos more painful; but people ought to be blamed if having Rheumatism or Neuralgia and won't use Red Flag Oil; it has cured hundreds of sufferers and costs only 25 cents at G. W. Benford's drug store.

Loose City Finances.

PITTSBURG, Pa., Sept. 30.—A sensation was created here to-day by a communication to the City Councils from Controller Gourley, in which he submitted the report of the City Auditor on the City Attorney's office. The gross collections of the office from 1882 to 1894 were $2,483,840,30, which business was transacted without a cash book. The auditors were unable to find the receipt book stubs. It has been stated that some persons have been charged with interest on assessments, some overcharged and others not charged at all.

The Auditer's report declares: "That a request made for the bank books was declined for the reason that the City Attorney's personal funds and the city's money were kept in the same account. The city's money was deposited in the individual name of the City Attorney, and we are satisfied that banks having this money paid interest on the large balances which it has been the custom to withhold from the treasury."

Controller Gourley observed: "City Attorney Moreland positively denies that interest was paid to him. That interest was paid to some person there is reason to believe."

Industrial Exposition at Pittsburg. Excursion Tickets via Pennsylvania Railroad.

For the Industrial Exposition at Pittsburg the Pennsylvania Railroad Company will sell, on September 25, October 1 and 11, excursion tickets from stations on the Pittsburg Division between Pittsburg and Conemaugh, and from stations on the Southwest Pennsylvania Division to Pittsburg and return, at *half fare*, with price of admission to the Exposition added.

These tickets will be good going on any regular train leaving stations at or before noon on the day of issue, and will be good for return passage until the following day inclusive.

Excursion tickets for this occasion will also be sold under similar conditions from stations on the Monongahela Division on September 26, October 4 and 7, and from stations on the West Pennsylvania Division on September 27, October 10 and 16.

Going to Atlanta in Fine Style.

The Pennsylvania commission to the cotton states exposition will go to Atlanta in fine style to attend the ceremonies on Pennsylvania day, which has been fixed for November 14. The Pennsylvania railroad company has placed at the disposal of the commission the finest train in its service. It will consist of five sleepers, a dining car and combination smoker and baggage car. The party will be limited exclusively to the commission, the members of Governor Hastings staff and cabinet and the heads of departments. They will live on the train from the time they leave until they return.

The party will start from Harrisburg on the afternoon of November 11 and arrive at Chattanooga the following day. On the thirteenth the Pennsylvania monuments on the Chickamauga battlefield will be dedicated with imposing ceremonies in charge of Adjutant General Stewart. After these exercises the party will go to Atlanta to participate in the ceremonies on Pennsylvania day. They will consist of addresses by Governor Atkinson, of Georgia, Governor Hastings, Lieutenant Governor Lyon and one of the judges of the state supreme court. A special display of fireworks will be given in the evening.

Farmers!

I have just purchased a new improved baler and am prepared to bale your hay and straw. J. J. PILE,
Sipesville.

Killed by His Bride.

Coroner Greenburg and a jury, of Huntingdon county, are just now investigating the cause of a fatality which occurred in Juniata township at 5 o'clock Wednesday evening. Between 2 and 3 o'clock this afternoon there was a big country wedding at the residence of Jas. Bowser, in that township, in which Miss Mary Bowser and Jesse Morningstar figured as principals. At the time of the occurrence the bride was sitting on her husband's lap, near a window in the parlor, and McClellan Spooneyberger passed by with his gun. The bride remarked that she would kill a turkey if he handed her the gun, and he did so. In drawing the gun across the window sill it went off and the load blew Morningstar's head nearly off. Neither of the young couple was over 23 years old.

Lover Preferred to Fortune.

Miss Maud Umbarger, aged 19, heir to $240,000, and Fred. H. Gerdan, 35 years old, eloped last week from Muncie, Ind., and were married. They left for California. Gerdan is a poor mechanic. Miss Umbarger planned the elopment, and provides for their expenses.

Her father was prostrated at the news of her elopement, and through a friend telegraphed her to return. She wired back that she would go to California without delay.

Mr. Umbarger thereupon disinherited her, making a young man, who is no relation to him, his heir.

A Storm at Sea

Increases the discomfort of the voyager. But even when the weather is not tempestuous he is liable to sickness. They who traverse the "gigantic wetness" should be provided with Hostetters Stomach Bitters, which quiets disordered stomachs with gratifying speed and certainty. To the hurtful influence of a tropical malarious or too rigorous or damp climate, as well as to the baneful effects of unwholesome diet and bad water, it is a reliable antidote. Commercial travelers by sea or land, mariners, miners, western pioneers, and all who have to encounter vicissitudes of climate and temperature, concur in pronouncing it the best safeguard. It prevents rheumatism and pulmonary attacks in consequence of damp and cold, and it is an efficient defense against all forms of malaria. It can be depended upon in dyspepsia, liver and kidney trouble.

Fish Ate his False Teeth.

George Parcell and A. E. Pysher, two residents of East Stroudsburg Pa., have just returned home from a fishing excursion. While out in a boat one day Parcell was seized with a fit of coughing, which dislodged his false teeth, and they dropped from his mouth to the bottom of the pond. Several unsuccessful attempts were made to regain them. Shortly afterwards, while fishing near the same spot, Parcell caught an unusually large catfish. When the fish was dressed for dinner the missing teeth were found in its stomach, and Parcell now wears them as formerly.

Just Home From the War.

David Hughes, of Indiana, Pa., after an unexplained absence of thirty years, Wednesday night rejoined his family of wife, daughter and son. There union was most joyous. Hughes was wounded during the war, came home and married Miss M. P. Reed, of Kittanning. In 1864 he returned to the army, and in 1865 was honorably discharged. Instead of returning home Hughes buried himself in the pineries in Wisconsin. His wife mourned him as dead. Hughes has accumulated considerable wealth, and says he is now too happy with his family to discuss the particulars of his long absence and continued silence.

We would like to look into the pleasant face of some one who has never had any derangement of the digestive organs. We see the drawn and unhappy faces of dyspeptics in every walk of life. It is our national disease, and nearly all complaint spring from this source. Remove the stomach difficulty and the work is done.

Dyspeptics and pale thin people are literally starving, because they don't digest their food. Consumption never develops in people of robust and normal digestion. Correct the wasting and loss of flesh and we cure the disease. Do this with food.

The Shaker Digestive Cordial contains already digested food and is a digester of food at the same time. Its effects are felt at once. Get a pamphlet of your druggist and learn about it.

Laxol is Castor Oil made as sweet as honey by a new process. Children like it.

Law Costs Much Money.

UNIONTOWN, Pa., Sept. 27.—In the case of John Collins against Albert Crossland, the jury to-day returned a verdict for the defendant. Collins owned a cow that strayed from the pasture one night to Crossland's home, who took her back and demanded 50 cents for his labor and trouble. Collins would not pay more than 25 cents, and Crossland took the cow home again. Collins secured a writ of replevin and Crossland filed exceptions to the writ. The cost of the litigation was much in excess of the value of the cow.

Items of Interest.

A large number of farms are offered for sale in Lancaster county, the owners of which desire to go west. In this connection it can be said that there are now many farmers in the west who would, if they could, return to their old homes in Pennsylvania.

Department-Commander H. H. Cummins, of the Pennsylvania Grand Army, made a rather startling address before the reunion of Chester County veterans. He said he was just home from the reunion at Chattanooga, and from what he heard and saw there he didn't think the results of the War were over by any means. Commander Cummings declared that as long as the South teaches its children that its cause was righteous the people there will not be thorough patriots.

While Miss Jennie Crow, of Rockwood, W. Va., was horseback riding a few days ago, her horse shied and she slipped from the saddle. Her foot was firmly set in the stirrup, and when the horse started to run at breakneck speed she was dragged for two miles over a stony road. Her clothing was almost torn from her body, and her head, breast, shoulders, and arms cut, while the flesh and hair had nearly all been torn from one side of her head. She will die.

Judge Taylor, of Washington County, in dismissing a woman who was arrested on complaint of her husband, charging her with unfaithfulness, ruled that a husband cannot make information against a wife on such a charge, nor a wife against a husband. District-Attorney Parker has given notice that Judge Taylor's ruling will hold good in all similar cases, and announces that hereafter all such informations returned to court will be sent back to the Justices sending them up, with a hint that Justices disregarding the rule may get themselves in trouble.

Make Cows Pay.

Twenty cows and one LITTLE GIANT Separator will make more butter than 25 cows and no separator. Five cows will bring $200 to $300 and one separator will cost $125. Five cows will eat a lot of feed; a separator eats nothing. Moral: Make the cow business pay by using a separator. Send for circulars.
P. M. SHARPLES, West Chester, Pa.
Rutland, Vt.

HENCH & DROMGOLD'S
SAW MILL AND ENGINES
A wonderful improvement in Friction Feeds and Gig-Back. Back motion of Carriage 3 times as fast as any other in the market. Friction Clutch Feed, causing all the feed gearing to stand still while back-ing; great saving in power and wear. Send 4 cents in stamps for large Catalogue and prices. Also Spring Harrows, Hay Rakes, Cultivators, Corn Planters, Shellers, etc. *Mention this paper.*
HENCH & DROMGOLD, M'f'rs., York, Pa.

Great Inducements.

Goods reduced in price in every line. Dry Goods, Carpets, Oil Cloths, Lace Curtains, Ladies' Coats, &c. Now is the time to buy to save money and get something good.

JAMES QUINN,
CLINTON STREET. - - - JOHNSTOWN P

This eminent physician has devoted a lifetime to his specialty—diseases of the Eye, Ear, Nose, Throat, Lungs and Chronic Diseases.

The doctor has been for years Professor and Lecturer in one of the largest medical Colleges, and has earned a fame as an authority and author on all subjects concerning his specialty.

Dr. MORRITZ SALM, Specialist

Wonderfully Successful in all Chronic and Diseases of the

EYE, EAR, NOSE, THROAT, LUNGS and NASAL CATARRH

All Eye Operations Successfully Performed by him.

Deafness, Ringing Noises and Catarrh Cured by Dr. Salm.

For a long time I noticed that I became gradually harder and harder of hearing. Ringing noises came into the ear after a while and I become very much alarmed. So I went to Dr. Salm and put myself under his care, and to-day, I am grateful to state, and for the benefit of those who may suffer in a like manner, that I can hear once again as good as ever, and those infernal noises have disappeared, although I am nearly 70 years of age. Dr. Salm said all of it was caused by catarrh.
M. H. Dock,
April 20, '95. Spring Mills, Centre Co., Pa.

I am pleased to say that Dr. Salm cured me of Catarrh Throat, Ear and Stomach Trouble after some of our best doctors had failed.

For over 8 years I have suffered very much from Catarrh, resulting in Throat, Ear and Stomach trouble. It seems that no common remedy could cure me. I tried some of our best doctors in the county, but my misery became always greater. So I consulted Dr. Salm, and I am pleased to say that I am now entirely cured. No more dyspepsia, no more taking of cold, ear aches or throat trouble. All this, thanks to Dr. Salm's wonderful treatment. Mrs. Albert Miller.
Attested by her husband, Albert Miller, proprietor Commercial Hotel, Hyndman, Pa.

Thought His Nose Had Come But Was Cured by Dr. Salm.

For some years I have been suffering with various ailments and broke down at last. I suffered most excruciating pain from head to foot all the time. My stomach troubled me a good deal; liver and kidneys as well were out of order, in fact, I thought my time had come. The doctors couldn't do me any good, patent medicines had no effect, so I went at last to Dr. Salm, and after a course of treatment, I am now again as hale, hearty and strong as ever.
F. L. Confer,
Warriors Mark, Huntingdon Co., Pa.

Scrofulous Limb of 8 Years Standing Cured by Dr. Salm.

For the last 8 years I have had troubles; they would swell, break open, giving me a world of trouble, and made me unfit for my daily labor. I had doctors trying to cure me, but they only heard so much of Dr. Salm, and had success in his eye operations, that I went to him and he has once more proven his great skill on my eye, for to-day, after being totally blind, I can see splendidly as the same again.
March 28, '95. Scullton, Somerset Co., Pa.

Granulated Lids Cured by Dr. Salm.

For the last 4 years I have been in very much pain with granulated eyelids and blinded me. Doctors here did me no good, also seemed to affect my general health. Sal
