When the young man walked into the newspaper office and timidly asked the society editor if s' e would kindly insert a notice of his approaching marriage, he little thought of the trouble he was bringing down upon his head.

The announcement was printed Sun day. When he reached his office Monday, he found a stack of letters waiting for him, every one addressed in a handwriting he did not know. He whistled when he opened the first, ditto the second, looked a bit surprised at the contents of the third and swore fluently through the balance of the pile. At noon others.

And each blessed one has come since the announcement of my Primus. approaching wedding was printed."

The young man pansed a moment, then he dug into the pile and after a ment which he shoved at his friend, simply sping: "Just look at the devilish ingenuity displayed in the construction of that thing." The "thing" was about the size of a theatrical poster known as a three sheet, in other words, three of them will paper the side of a barn. Down the center, at regular intervals, were a lot of mottoes and warning exhortation printed in type three times the size of the context, and in red ink. Here is one choice extract from the document: "In the midst of life we are in death.' "Let us call your attention that it is every husband's duty-his selemn duty -to provide for those dependent upon him. No one knoweth when the angel of death may knock at the door of hovel or mansion and how can one be prepared for his coming unless time is taken by the financial forelock? Got the Backache?

17 You Have, Here's the Way to Rid Is None Too Good When You Buy Yourself of the Weariness and Pain Attending It.

Some people suffer with headaches, many people are worn out and weary all the time, many more people have lame back and backache. Few people understand the real cause of their aches, and fewer yet know how easily they can find a cure. Just a word of explanation be-fore we prove that what we say is true. The back is the key-note of the kidneys. It aches; that's a sign that the kidneys are not working properly; it is lame; another sign, the kidneys are out of order. The kidneys, you know, are the filters of the blood, but filters sometimes get clogged up. This means in their case that the blood courses through the entire system impregnated with poisonous uric acid, bringing on many a disorder which if neglected means disease perhaps incurable, and now about the cure. Don't take our word for it, read what Mr. Robert Donaldson, who lives about four miles from Canonsburg, says. Some time ago he had the misfortune to suffer a severe strain, which gave indications of serious results but for the fortunate discovery about which Mr. Donaldson tells here. He says: "While working on a new building in Canonsburg I received a severe strain, which caused me much suffering from a constant pain across the small of my back. I found it difficult to get around and perform my work. I could hardly stoop over at all. I wore porous plasters, but received no benefit from them. I was almost lame when I heard about Doan's Kidney Pills. I procured a box at the drug store of Doualdson and the result of their use has been most gratifying. The neverceasing pain over my kidneys has left me for good. I can recommend them to anyone suffering from a bad Back." Doan's Kidney Pills are doing just such work as this in Canonsburg every day.
