Another Lie Told.

The Somerset Standard having alleged in its issue of April 21 and 22, 1886, that on the day of the recent Republican primary election certain "meal tickets" were being used to purchase votes, the weekly Herald, in its issue of the 21st, published a notice which was stamped the name of J. H. Longenecker, I want to emphasize very distinctly that I have not the slightest card or ticket, or authorized any one to do so, or that I had the slightest knowledge of any such cards being issued or used. The parties using them did so without my knowledge and consent.

FRANK W. BISHOP, Notary Public, Sworn and subscribed before me, a Notary Public, in the borough of Somerset, Pa., this 21st day of April, A. D. 1886.

A Lie Told. From the Somerset Standard March 27, 1886. Wherein consists a liar's license? We hear of a post's license, and possibly the Post Laureate Austin had two, one to grind out machine-made poetry to the order of royalty, and another still more valuable, to be paid promptly therefor in the current coin of the realm. But where does the liar get his license to lie? Has he license for no one gives him liberty to indulge in his contentions and others discount in his speaking but in his mendaciousness? If so, who, in the name of all that interests those who really work for the welfare of mankind and the advancement of truth, possesses the power to withhold the same when the liar lies beyond the bounds of propriety and the limits of endurance?

There must be a line beyond which it is unsafe for even a liar to go. We know there is such a line, so far as suffering individuals and the interests of the public generally are concerned, but it seems difficult to make the line so, and it continues to work his license and art out his lies with a mischievous short-sightedness, an innocent unconsciousness and an evident enjoyment worthy of a better cause, and that, to not without certain attractions which such a person should always possess for the blushing but severely admiring glances of native modesty and shrinking truth.

On the other hand, there seems to be at times a line beyond which the liar, if he lies with sufficient vigor and picturesque shortness, is safer than if he had fallen short and blindly plunged into ignominious mediocrity. This is human nature, and we all know it. We do not know the limits of this knowledge but we know that a liar has a genius for lying, which imperatively makes it worth his while to take up a liar's license, he had better adhere to the ways of peace and the walks of truth, for a common liar is as accounted post and a nuisance, and as such he is marked out for infamy and scorn. Of such a liar it has been said, with the certainty of truth and the picturesque diction of a natural born liar, that "the hell that a lie would keep a man from, is doubtless the very best place for him to go." We don't believe that a liar has any liberty to take out a liar's license, nor that such a document is worth the coloring matter in the devil's ink with which it is generally engrossed, or the devil's wax with which the lying covenant is sealed, or the blasted reward which is held out for contracting liar swears fidelity to that father of all lies, who, it must always be remembered by the liar, waits with fiendish patience to the end of the play.

Lightning Knocks Out Cupid. PHILADELPHIA, N. J., April 18.—A bolt of lightning last night postponed the wedding of Miss Annie Piggett, who was to have been married to-day.

A severe electric storm passed over the city last night, and a woman named Mrs. Piggett, who was in the house at the time, was struck by the lightning. Her sister, Annie, and several of her friends were in the house at the time, and the lightning struck the house in several places. Mrs. Piggett was struck on the head and fell unconscious. She was taken to the hospital and is now recovering.

Confessed the Crime. LORAIN, O., April 17.—Ten years ago the dead body of William Belcher was found in a shallow grave near the town of Avon. It was supposed the man had become intoxicated, and while crossing the track was struck by a train. The matter was almost entirely forgotten until the actual confession of a man employed by a neighbor of Belcher was made public to-day. The man lay at the point of death and appeared greatly worried about something. Finally he related his mind by saying he had murdered Belcher. He was 10 years ago for the purpose of robbery, and had taken sixty dollars from his clothes. He said that to cover up the crime and divert suspicion he placed the body on the railroad track.

Holmes a Champion Liar. HAMILTON, Ont., April 17.—In the list of Holme's victims prepared by himself, appears the name of Mrs. Haverkamp, of Hamilton. No person of that name is living here or is ever known to have lived here. There is no such name as anything like it in the directory. The police say they never heard of such a person and don't believe she ever lived here.

Bride Courted by Letter. WILLIAMSPORT, Pa., April 18.—There was a romantic wedding at Ovid, this county, on Thursday. The bride and groom had never seen each other until three hours before the wedding ceremony, the courtship having been carried out by letter. The bride was pretty Sarah Voneida, daughter of a Nipeween Valley farmer, and the groom W. L. Shannon, of Butler.

Attack by the Prize Billiard. NEW YORK, April 18.—Just as Henry Baltzer, of Flatbush, L. I., jumped out of his kennel and fastened his teeth in his neighbor's side, when the grip was loosened he sprung at his face and closed his jaws on his nose. Mr. Baltzer's outcry brought his brother Adam Baltzer, and both brothers tried to unfasten the fellow's jaws, but they were unable to do so.

Finally six bullets were fired into his head and body, but after the dog had been killed his jaws had to be pried open. Mr. Baltzer's nose was terribly lacerated and he was almost unconscious.

All those creeping, crawling, stinging sensations that combine to make up the tortures of any itching disease of the skin are instantly relieved and permanently cured by Doan's Ointment. Take no substitute. Doan's never fails.

No Politics For Him. HARTFORD, Conn., April 17.—William Harrison Taylor, of Putnam, telegraphed congratulations on his marriage to ex-President Harrison, after whom he was named. Mr. Taylor said in his telegram, "May 'Al' Home" mean White House in New York?"

In his autograph reply General Harrison said: "I thank you for your telegram of congratulations and good wishes so far as they relate to my domestic concerns, but I beg to enter a dissent from your political suggestion."

Tragic End of a Marriage. CLAYTONVILLE, Ind., April 18.—Two weeks ago John Bowen, a young grain merchant, eloped with his first cousin, Laura Nykos, daughter of William Nykos, a wealthy farmer. By the representation they obtained a license from the clerk, and were duly married, going East for a wedding trip. They returned yesterday broken by legal marriage with her cousin, begged her to return to their home.

The girl was only 17, and very beautiful. This morning her very beautiful Samuel Sargent, swore out a warrant for Bowen's arrest, charging him with living openly with his cousin. The young man was arrested while his wife sat on his knee, and was rushed before a Justice. He was placed under \$800 bonds to answer to the Circuit Court and was hustled off to jail.

CLUES TO HER HUSBAND. While his friends looked for him, his wife threw her arms about his neck, when the Constable started with him, but was rudely jerked back by the bride and father, who was thrust into a chair, where she sat throbbing wildly.

Suddenly she leaped up and rushed through the door into the crowded main street of Claytonville, which stood hunched near the carriage, which she lifted the seat cushion and seized a large revolver concealed she clapped it to her bosom and fired. Just as the Constable passed through her bosom and arm, but did not penetrate a vital spot. It embedded itself in her father's leg. The girl is in a serious condition. From her father, together with her wild mental condition, she will likely die.

Rivals to the Siamese Twins. LORAIN, O., April 15.—Mrs. Bidd MePherson, wife of a Cleveland, Lorain & Wheeling Railway conductor, gave birth to a most remarkable freak nature.

It was a double child or united twins, rivaling in some respect the famous Siamese twins. The children are both alive and now but fail to reach the age of maturity. One is a boy and faces forward; the other a girl, and faces in the opposite direction.

The union, which local physicians regard as a freak, is from a point a little above the boy's right eye, and extends nearly to the top of the head. There are four legs, four arms, four eyes, two looking in each direction, two mouth and only one pair of ears. There is a simultaneous action in her bodies. When one child lies on its face in such a way as to interfere with its breathing the other cries as if in distress.

The boy twin is the stronger of the two, and is naturally a naturally strong boy. He has no other child, but the female has not yet taken any food, although it apparently feels no hunger, indicating that the legs make nourishment for both bodies. The mother is a woman of good looks, and the mother of five bright and well-bred children. The parents feel very sensitive over this unexpected and undesirable novelty.

Bradley's Empty Victory. LOUISVILLE, Ky., April 16.—The Republican State Convention finished its long session yesterday by adopting a declaration for Governor W. O. Bradley as its first choice for President of the United States, and instructing the delegates at large to vote "for him as Presidential nominee." In the event his name is withdrawn from the contest, the McKimley men are jubilant over their success in forcing recognition from the faction which has controlled the convention from the outset.

She Gathered Berries. Mrs. Althia Hertz, of Artimus, Ky., has built a church through her own efforts alone. A year ago she made up her mind that a church was needed. She asked for help from the miners, but they had no money to spare. She gathered berries, trapped across the mountain and sold them. She raised a pig and a calf, and donated every bit in her power she toiled for the good. Last Fall she begged of the miners again, but this time for work. She met with a ready response. A tract of land was bequeathed. Lumber was given. The little store of savings did not fail.

The church is now under roof. Little more has been done, but it is a church which one day will be complete, and Mrs. Holtz has her reward.

Killed by Masked Men. INDIANAPOLIS, April 18.—Leo Hirth, a well-known and wealthy German citizen, was instantly killed at 2 o'clock this morning by two masked men, who were discovered in his bed room, and whom he pursued into the rear part of the house.

Mrs. Hirth was awakened by a noise in the room and saw two men standing in the doorway leading to another room. She gave the alarm by calling to her husband, whereupon one of the men leveled a pistol at her and fired, the bullet entering the forehead just above where she lay. A second shot followed an instant later and the two men turned toward the rear of the house. Hirth was awakened by the first shot and sprang from the bed and followed the intruders. As he passed into the room immediately back of the sleeping apartment a third shot was fired, which sent a bullet through his head.

Four Indeed! There are degrees and kinds of poverty, just as there are differences of opinion among those who compute and measure poverty and riches by different standards. Some men deem themselves poor because they have less than others, again there are comparatively poor people who are satisfied with a competence. There is a kind of poverty for which no amount of wealth can compensate, namely, a poverty of mind, evinced by nervousness and a derangement of the functions of digestion, bilious secretion and the bowels. To restore vigor upon a permanent basis there is one remedy that covers the entire system, "fills the blood," and is Hostetter's Stomach Bitters. By restoring digestion, giving a healthful impulse to the action of the bowels and liver and tranquillizing the nervous system, the condition necessary to a resumption of strength by the system. It also overcomes malaria and rheumatism.

Parties on the day Express. Correspondingly low rates from other States. Tickets will be good ten days, and will be valid for passage from Washington to Baltimore at any time within the life of the ticket.

The Carr's Pageant.

LONDON, April 19.—Europe is already turning its eyes toward Moscow in anticipation of the all-surpassing splendor which the Carr of all the Russias will assume the emblem of his anacronistic power a month hence, and it is already apparent that nothing in the history of the Christian era can compare in grandeur and magnificence with the pageant which the "sacred entry of their imperial majesties to Moscow" will take place on the 21st. This wonderful pageant will be the general pageant of the festivities of the coronation of the Russian government since has spent more than a million dollars in preparing for it, while the magnificent equipages of ambassadors, foreign chieftains, and tributary princes will add more to the pomp and splendor. The chariots, jewels, costumes, etc., which will pass down the main street of Moscow will, it is estimated, represent a value of \$20,000,000. The coronation itself takes place on the 29th in the Cathedral of the Assumption, and following that ceremony will be the illumination of Moscow for three successive evenings. This, it is expected to be only less brilliant than the burning of Moscow for Nero's anniversary. A number of balls and banquets will follow, and on June 3 the Czars and Czarina will depart for St. Petersburg.

The bill for all this, that that portion of it which the imperial treasury will pay, is estimated at not less than \$5,000,000 roubles, or about \$21,000,000.

Cuban Women Fought Bravely. HAVANA, April 17.—In the battle of Tuesday last at La Chua, between the insurgents and Spanish troops a company of Cuban women fought bravely.

In an effort to capture Colonel Linares, an insurgent, a sergeant separated from his company. Seeing his danger, Mrs. Alvarez and several others followed him. Both husband and wife were caught in the Spanish lines and tried to fight their way back with machetes. The wife was at his side still, and bravely made her escape, but she was cut off at the last moment, and was literally hacked to pieces by Spanish machetes. In his grief and chagrin, Alvarez shot himself in the head, and died shortly afterwards.

Use of Schoolhouses. Saturday the Court of Lancaster County handed down an opinion which affects the custom prevailing in many rural districts of allowing religious services and lectures to be held in public school buildings. For some months past the Dubs faction of the Evangelical church has been holding Sunday school in one of the public school buildings in the Manor township school district. Lecturers were held in the same building during the winter months. One of the school districts recently requested the grand jury to prohibit the holding of either the Sunday school or the lectures in the building. The proceeding was fully argued before the court and the case was held under advisement. Saturday Judge Haddock handed down his opinion, in which he holds that under the general school law, public school property can be used for no other than school purposes.

Sick Headache Permanently Cured. "I was troubled, a long time, with sick headache. It was usually accompanied with severe pains in the temples and sickness at the stomach. I tried a good many remedies, but all without result. I then bought Ayer's Cathartic Pills, and it was not until I began taking them that I received relief. I feel like I never had the headache before. A single box of these pills did the work for me, and I am now a well man." C. H. HITCHINGS, East Abnott, Me.

For the rapid cure of Constipation, Dyspepsia, Biliousness, Nausea, and all disorders of the Stomach, Liver, and Bowels, take

Ayer's Cathartic Pills. Medal and Diploma at World's Fair. Ask your druggist for Ayer's Sarsaparilla.
