Mrs. George Rowend, an estimable lady who around again and attend to my household

Mrs. George Rowend, an estimable lady who resides at No. 276 East Main Street, Bradford, Pa., has cause to feel grateful towards the science of medicine.

One day recently a reporter, learning that Mrs. Rowend had been greatly benefited by the use of a new medicine, interviewed her. She stated that she had been suffering with a female trouble for many years. She had been doctored for the ailment for a long time—in fact, nearly all her life—and had never received anything more than temporary relief. During the last three years her condition grew worse and was pring, took them and they made a new man of spring, took them and they made a new man of

more than temporary relief. During the last three years her condition grew worse and was aggravated by an affection of the heart. Her health was so poor that she found it almost impossible to perform her household duties.

"I never believed in proprictary medicines," said Mrs. Rowend, "but one day last fall I read an article in a newspaper which told of the cures effected by Dr. Williams' Pink Pills, and I decided to try the medicine. Before I had taken the contents of one box I began to feel better. The depressing weakness which had bothered me for so many years began to disappear, and the action of the heart at once became stronger and more regular.

"I took nine boxes of the pills and I am now feeling better than I have for several years, and I have unbounded faith in the medicine."

As a remedy for all forms of Headache Electric Bitters has proved to be at Bralller's drug store, Beriin, Pa.

Years ago a member of the Indiana Legislature, in a brand new suit of breadcloth and a silk hat, gold-headed ane and white lawn tie, wandered up into the sanctum of the "Courier-Journal," stood around in a listless way, looked over the papers, went downstairs and came back several times, says the Washington "Star." ### A Ghastly Battle-Field.

In Chile, on the battle field of Tarapaca, the bodies of the slain lie just as they fell in the battle between the Peruvians and Chileans, which took place before the annexation of Tarapaca by Chile in 1883. Four thousand men and 1,000 horses were killed on that occasion, and the bodies were left unburied. It never rains at Tarapaca, and the sun has dried the corpses, and the nitrate in the soil has preserved them. Upon the plateau the mummifled bodies lie in ghastly confusion just as they fell, with the broken swords and bayonets as fresh looking as on the day of the memorable fight.
