Bear in mind that his is nerve power, and if you wish to keep it you must feed the nerves. Do not simply stimulate them, but coax them—feed them. Give them the food which will renew their life and make them sound and healthy, that they may word off disease.

Probably paralysis is the nearest disease to nerve-death that we know, and we therefore cire a case of it below, to show what a certain famous nerve-building preparation can do to feed and absolutely restore almost hopelessly wasted nerves.
