A Preventive of Cattle Pests.

London, April L.-Fresh from his tri-

amph in discovering in South Africa a preventive for the cuttle pests, Professor Koch publishes to-day an article giving particulars of his improved tuberculia. Speaking of the lymph as he first introduced it, he claims that it proved efficaious as a means of diagnosing disease even at so early a stage that clinical observations and physical examination were of no avail. At great length he describes what im-

rovements he has been able to make. He does not venture to regard his lymph as the best that is possible, and he intimates that experiments are being made with a new serum which may prove still more efficacious. But he is convinced concludes: "Whatever may be done with tubercle cultures can be done with these, I don't think the danger connected with into the grave and the bole was filled these experiments to be little, and I must up. The murderer evidently believed confess that I often had a feeling as if I were dealing with capteriver." that if any one dug into the grave he

you know its aches and pains, the fever, the chil's, the cough, the depression you know them all The Grippe exhau ts the nervous system quickly, lowers the vitality. Two things should be done at encar -t's: body must be strengthened, and force must be given to the nervous system. God

liver Oil will do the first: Hypophosphites the second. These are permanently and cleasantly combined in Scott's Emulsion. It lists the descondency and heals the inflamed membranes of the throat and lungs.

You can put your system in a condition unfavorable to it. You can have rich, red blood; resistive strength; steady brain and nerves. Scott's Emulsion prevents as well as cures. And whether you send or go

CINGLE

the city hospital, has a brand new nose Lewis formerly had a good nose of the Roman variety, but a bite of a centipede started a case which developed into caneer. Yesterday Dr. Otto Sutter ent away

every vestige of flesh on Lewis' nose, There was sufficient bone left in good The... condition to serve as a bridge, and around this the doctor built Lowis a good nose. The skin over Lewis' nose is now loose, but Dr. Sutter says the flesh is forming under it nicely, and in a few months a symmetrical nose will be the result. Lewis new nose is Grecian,

Tuberculosis Said to Be Widespread Among the Cattle.

WASHINGTON, Pa., April L.-Dr. C. S. he responded aye amid applause. The McKenna, of this place, a veterinary surorganized. The thing leaked out, we are negative vote comprised 117 Democrats | geon attached to the State board of Dr. McKenna believes that the disease is now so widespread that almost every dairy herd is affected, and advises that examinations be made wherever possible. The question is attracting a great deal of attention here, as since the disease was discovered in the county three years ago, a number of the most valuable herds have been attacked by it.

> "Saved My Life" A VETERAN'S STORY.

"Several years ago, while in Fort Snelling, Minn., I caught a severe cold, attended with a terrible cough, that allowed me no rest day or night. The doctors after exhaust-

ing their remedies, pronounced my case hopeless, saying they could do no more for me. At this time a bottle of

AYER'S Cherry Pectoral was sent to me by a

friend who urged me to take it, which I did, and soon after I was greatly relieved, and in a short time was completely cured. I have never had much of a cough since that time, and I firmly believe Ayer's Cherry Pectoral saved my life." - W. H.
