Greco-Turkish Frontier.

Following quickly the actual outbreak of war between Greece and Turkey the regular troops of both countries find hemselves engaged in armed conflict of the fiercest character on the Thessalian ports, is ablaze with the murderous fire of the combatants.

The Greek Government having been

otified by the Sultan that diplomatic relations between the two countries had been the heaviest. The sufferings of been severed, King George accepted the issue and at one recalled his Minister All along the frontier the opposing forces are keeping up an active cannon-

ading, and on the sea operations have been begun following the sinking of a Greek steamer in the Gulf of Arta by a Torkish battery, which was subsequently stormed and destroyed by land and water forces of the Greeks.

The Turkish commander, Edhem Pasha, is leading the main body of the Sultan's forces across the border. There has been desperate fighting as they advanced, but the Greek forces, after heroic defenses in the mountain passes, have retreated, and the Turks, flushed by temutter obliteration. Mr. Martin, the chief porary victory, are making Larissa their bjective point. Preparations for its defense have been well planned, and a desperate battle may be expected at that point. The Greek reserves have been called out, and troops are being dispatched to the point from Athens, where the wildest war spirit prevails. The Turks are equally impetuous, and their forces thus far appear to have been better handled than those of Greece.

VICTORIES ABOUT EVEN. Larissa, Greece, April 19, -At five clock this afternoon it was announced that the Greeks have defeated the Turkish attack on Reveni, northwest of Larissa and not far from the important position of Tyrnoya, Crown Prince Constantin has gone to Tyrnoya, which was the objective point of the Tarkish movement. as it is on the direct road between the Greek headquarters at Larissa and the Turkish headquarters at Elassona. Two Greek brigades have entered Turkish territory and penetrated to Damasi, northeast of Zarkos, Another division is endeavoring to flank the Turks, who are retreating in disorder.

While, however, the Turks have been efeated at Reveni, they have won a victory at Gritzovali. They attacked the Greek brigade commanded by Gen. Masropas, which gave way under the Turkish assault, but was formed again. The Greeks are now attempting to recapture Gritzovalio, where heavy fighting has been in progress since noon.

Fighting continued to-day at the entrance of th Gulf of Arta. The firing at to depend upon democratic surroundings Prevessa was desultory because the sea for information with which to formulate was too rough to permit of effective gunnery by the Greek fleet, but the remaining Turkish forts were destroyed and 4,000 Greeks were landed to occupy the and assistants, in order to maintain conposition. The Turkish authorities have fidential relations, otherwise they would roclaimed the gulf closed to all but Turkish ships.

TURKISH PLAN DEFEATED. Gen Smolenitz is in command of 14,000 reeks at Reveni. At this point Edham Pasha, closely pressed was nearly taken prisoner. His plan was to force the pass of Reveni, to enter the plain of Larissa, to cut off the retreat of the Greek army with his cavalry, and thus take Larissa without resistance. But this plan was

Capt. Tagarde, who was wounded at Gritzovali, shot himself in order to avoid falling into the hands of the Turks. The Greeks report that the Turks lost 7,000 killed and wounded at Reveni, but this estimate is probably excessive.

AMERICAN INTEREST IN THE WAR. WASHINGTON, April 19.-The State department to-day made an official announcement of the cipher dispatch received last night from Minister Terrell at Constantinople. It contains merely a statement as to the outbreak of the war and that the 40,000 subjects of Greece in Turkey are required to leave the latter country within 15 days. The Greek government requires all subjects of military age reserved for military duty. Turkish troops are scattered along the border of Thessaly and cannot quickly concentrate for decisive battle. This may enable the

Greek army to fight them in detail. While the sympathies of the army offieers lie largely with the Greeks, they fuly expect that the Turks will prevail in the end if allowed to wage war untrammeled by the interference of other powers. The War Department experts ulated that the patronage privileges of say that Turkey, on paper at least, has one of the most formidable armies in the absolutely insignificant in numbers. The Turkish forces have had the benefit of thorough training by German army offieers, the best drill masters in the world.

### CIVIL SERVICE REGULATIONS.

BATTLES ON LAND AND WATER. Philadelphia Inquirer has the following say on the operation of the civil service rders issued by President Cleveland: Representative Grosvenor, of Ohio and and house, have been giving a good deal of attention during the last six weeks to the civil service question. The Ohio repvice until all the secretaries in the several departments had put democrats at remarkable feature of the robbery is the the head of bureaus and chief of divis- fact that \$100,000 in bonds of the United

there are eighty chiefs of divisions, seventy-five were filled by democrats. The same conditions were discovered in the interior department, and so on through the entire departments.

In fact the several orders issued by ex-President Cleveland at different times during the last year of his administration placed nearly every office clerk, messenger and watchman in the classified service, three-fourths of whom of the lower class were appointed at some period during the four years' term of the administration. Had the President and his sec retaries divided the chiefs of bureaus and divis ons in the departmental service nearly equally between the two political parties, half democrats and half republicans, there would be no complaint made by the republicans agains those orders. But to turn out nearly all the republicans and put democrats in their places, and then lock the door and prevent any change, was, in the judgment of all fairminded people, a flagrant violation of

the civil service law. The attention of President McKinley has repeatedly been called to this matter, and strong pressure from senators and representatives in congress and from prominent men outside of official life, has been and is being brought upon the President to revoke so much of ex-President Cleveland's last order as relates to bureau and division chiefs. This pressure is not being exerted exclusively by the office-seeking contingent. It is understood that President McKinley has talked over this matter with his secretaries, with a view of modifying the existing orders and taking certain chiefs of bureaes and divisions out of the classified service. It is not the purpose of the President, it is understood, to make a general attack upon civil service, as he and his secretaries are known to be ardent supporters of the merit system. Under the existing condition of affairs, the republican secretaries are compelled

departmental policies, The demograts even concede that the secretaries should have their own chiefbe hanopered from the start in the dis charge of their duties.

It has always been customary for Cashier Stickney and the bank clerk, Mrs. Parker Swazey, to close the bank at noon and not reopen it until 2 o'clock. To-day Mrs. Swazey left her desk at noon. The cashler remained, looking over the bank's accounts, and it is. thought he was preparing to go out when the robbers entered.

The first suspicion that the bank had been robbed was at 2 minutes of 2, when Frank P. Reed went up the staircase and found that the thick plate glass in the hall door of the bank had been completely shattered. He notified City Marshal Eaton, and they broke in the door and found evidences of a desperate struggle. On the floor on a great pool of blood was the lifeless body of Stickney. His head had been nearly severed from the body, the robbers having cut his throat. His head was marked with several deep gashes made by a heavy blackjack and his skull was fractured.

Mrs. Tilton is Dead. New York, April 15,-Mrs. Elizabeth R. Tilton, the wife of Henry Ward Beecher's accuser, died on Tuesday last at her home in Brooklyn. The news of her death was not made public until today. Since the famous Beecher trial she had lived in strict retirement. Theodore Tilton, her husband, is in Paris, where he has lived ever since the Beecher trial. For a long time Mrs. Tilton was almost totally blind, but less than a year ago she underwent a difficult operation and regained her sight. Then, about a month ago, she suffered a paralytic streke which eventually caused her death.

Mrs. U. S. Grant has written a book, in which she will tell of her courtship and of the home life of the General with the accounts of the battles famous in the history of this country when the United States was in the throes of the civil war. Mrs. Grant will tell of the General's conversations with her. She will tell of their life in the White House, and the real inner nature of the great General will for the first time come to be known

Look about you! See for yourself! Who suffer most from sleeplessmess, nervousness, nervous dyspectis, neuralgia, descendency, general weakof nervous prestration all the time? Those who are thin, Opium, chloral, bromides, headache powders, only make matters worse. Iron and bitters are only stimulants. To be cured, and cured for good, you need a fal-making food. You want new blood, rich blood; and a strong nerve-
