Now that cattle and hogs are no longer permitted to roam at random about the streets of this village can't the citizens write a petition to the County Commissioners calling upon them to remove the antiquated and unsightly iron fence enclosing the court house grounds and throw them open to the public. The expense of a very small sum of money would convert the court house grounds into a beautiful little park, where the public and strangers could seek rest and recreation under the shade of the trees and breathe the fresh air. It is present condition the court house square bears the appearance of a poorly kept pasture field, and presents an unfavorable comparison with adjoining private properties.

The Johnston Democrat in its issue of Monday intimates that the Boddy boys will make another effort to establish their innocence before sentence of death is imposed by the court. The Democrat says that counsel for the prisoners will take depositions, which they will lay before the court when the proper time arrives, which will go to show that the alleged signature of J. M. Williams, signed to a receipt offered in evidence for the purpose of corroborating the testimony of the juror, is genuine, and that Williams will be produced in Court should another trial be granted the defendants. Mrs. Overdier, it will be remembered, testified that she had seen the Boddy boys on the afternoon of June 2nd, and again the same evening at the home of her sister, in Morrellville. Expert witnesses for the Commonwealth testified that in their opinion the name of the witness written on the hotel register of the Meyers House and the signature alleged to be Williams' were written by the same person.

The Pittsburg Post says: Great combinations and remarkable schemes are being fathered by the conspirators of the present plan, which is a show of force between New York and Pittsburg. It has been demonstrated that a line between Pittsburg and Philadelphia would be only 300 miles long, whereas the present route via Altoona and Harrisburg is 354 miles in length. It is now given out that the Beech Creek Company, which is controlled by the Vanderbilt, has secured possession of the unfinished Pennsylvania Midland road, which crosses Bedford and Blair counties from Cassa to a point near Altoona. It is said the road will be finished within six weeks for also that the Beech Creek is in a position to enter Altoona. In effect, this company will then be in a position to tap the coal fields. The route surveyed leads through a portion of the Conowing Creek Valley in Bedford county, and following the face of the mountain for about 10 miles, strikes the summit at a point near Daley, Somerset county. There has also been surveyed a route through Pavia, which is claimed to be of a most excellent one for crossing the mountain.

Dr. Benjamin Anderson, expired at his home in Agency township, Cambria, on Monday morning, after having been laid out for a period of fifteen years. His sickness resulted from a wound received in the army and partook somewhat of the nature of paralysis. Deceased was born in Montgomery county, Pa., fifty-eight years ago, where he acquired a good education. He came to Somerset county at the latter part of the fifties and secured employment as a manager of a number of farms, in Patton township, when Captain Patrick Graham began to organize a company for the defense of the Union, he went to Johnston and enlisted as a private, but was afterwards prevailed upon to accept the position of Orderly Sergeant, and as such he entered the service. These volunteers being one of the 5th Regt., and when the first vacancy occurred Anderson was made a Second Lieutenant. He was one of the coolest and bravest men in the regiment. He was wounded at the battle of New Market, a piece of shell striking his right leg, which caused it to swell and become inflamed or than the left and rendered him a cripple for life. After the war Dr. Anderson engaged in farming. He is survived by six sons and seven children.

Republican Primary Election Fund

Statement of Auditing Committee of Receipts and Expenditures for 1896.

A Complete Refutation of the Persistently Circulated Lies as to the Disposition of this Fund and as to the Amount in the Chairman's Hands.

While the party rules do not provide for publication in the newspapers of the receipts and expenditures of the primary election fund, nor was such a course contemplated by its framers, it has become necessary in order that the good name and fair fame of the party, not furnished by the wilfully false and malicious statements as to the disposition of this fund, made repeatedly both by word of mouth and in public print, that such publication be made.

Ever since the present rules were adopted, so far as the writer's knowledge goes, and he thinks it covers that entire point, the County Chairman's accounts, possibly with one exception—were each year carefully audited and certified by the Auditing Committee and the result announced to the members of the convention of Committees at their annual meetings. These reports have always been kept by the several chairmen and every Republican in the county has been in possession of them.

During Ex-Chairman Biesecker's five years of service in that position every penny of this fund was paid out by check and an itemized voucher was taken for the same, and presented to the auditors. When his successor was elected he handed him a check for the balance in his hands, \$367.40, and took his receipt for the same. With these two vouchers, men who claim to be gentlemen and pose as Christians, some of whom have hitherto borne character as truthful men, have ridden up and down the county iterating and reiterating these malicious falsehoods in a hopeless effort to secure control of the county organization. No later than last week a querulous fellow, falsely in the name of a long and distinguished member of the party, published in a well-known attorney, falsely asserts that there is a large sum at present in the hands of the County Chairman.

With a view to putting an end to this sort of a thing, and to the honor of the County Chairman Biesecker to publish an exact copy of his financial statement for the year 1896, as audited and certified by the Auditing Committee, Mr. Biesecker at the same time proffered us for publication his audited accounts for all of the five years he was Chairman, but space will not permit their publication at the present time. They, however, can be seen and examined at any time by any reputable Republican in the county. The statement follows:
