

The Somerset Herald.

EDWARD SCULL, Editor and Proprietor.

WEDNESDAY, November 3, 1909.

Do you hear anything d-r-p-p?

The winners are Beacom, McCauley, Shoemaker and Coleman.

Messrs. Swallow and Thompson can now congratulate each other that it is no worse.

The New York Herald says that Greater New York's first municipal election cost \$2,754,000.

PRESIDENT MCKINLEY did not wait until after the election to issue his Thanksgiving proclamation.

DOLLAR wheat seems to be within reach again. It is hard on the Bryans, who have been kicking vigorously against it, but the farming community is prepared meekly to submit to it.

The next session of Congress will be decidedly interesting. Cuba and Hawaii will take the place of the financial question, which has been settled by the Republican party in favor of the 100 cent dollar.

The question of postal savings banks is to be seriously considered at the coming session of Congress. Senator Mason, it is said, has prepared the draft of a bill which will be urged during the session.

SENATOR HANNA, in a speech at Bellairs, O., said that men who attempted, like Mr. Bryan, to array the poor against the rich, should be in the penitentiary. This is putting it a little strong, but such people are, without doubt, public enemies.

WM. B. THOMPSON, the independent candidate for State Treasurer, suggests Wayne MacVeagh as the candidate of that party for Governor next year. As Wayne was a Cleveland Democrat, it might be difficult to persuade many Republicans to vote for him.

SIXTY McKinley has been President 173 negroes have been appointed to office. This has been done so quietly that, with one exception, the appointments have attracted but little attention. Quietly, but surely, the constitutional doctrine of equality before the law is making its way.

MISS WILLARD says that what women to-day need is "a better physique, and that means nutritious diet, simpler food, loose corsets, larger shoes, and fresh air at night." All this, except the corsets, would be equally good for the men.

COL. WAHING, the man who evacuated New York from the Tammany accumulations of dirt, and is keeping it clean, says that in twenty years the horse will no longer be used in cities to draw burdens. He thinks the automobile carriage will take the place of all other kinds of vehicles.

It is proposed to make a new territory out of a portion of Alaska, taking within its boundaries the gold-bearing basin of the Yukon. The matter is likely to be presented to Congress at its next session, and already the name of Seward, who was largely responsible for the purchase of Alaska, is being urged as a suitable name for the new territory.

In the following States Legislatures will be elected this year, the members of which will participate in the choice of United States Senators: Maryland, Ohio and Virginia. The Maryland Legislature will vote for a successor to Arthur P. Gorman, the Ohio Legislature for a successor to Mark A. Hanna, and the Virginia Legislature for a successor to John W. Daniel. It is somewhat peculiar, by the way, that a successor to Senator Gorman, long the representative campaign manager of the Democrats, and of Senator Hanna, now campaign manager of the Republicans, should be chosen at the same time. In Virginia, the re-election of Senator Daniel is as good as settled, but General Fitzhugh Lee has announced himself as a candidate to succeed Senator Martin, whose term expires in 1896.

These returns from the elections throughout the country yesterday bear the character of the falling off in the vote used in a year following a presidential campaign, the loss being more severe on the Republican than on the Democratic party.

Beacom and McCauley, the Republican standard-bearers in Pennsylvania, are elected by about 100,000 to 150,000 plurality.

In Ohio, the indications are, at the time of this writing, that Bushnell, Republican candidate for Governor, has carried the State by a rather narrow margin, and that Hanna is defeated in his fight for the U. S. Senatorship, although Hanna's friends still claim that he will land a winner.

Iowa and Massachusetts are Republican, and both parties are still confidently claiming Maryland.

Kentucky is Democratic, Tammany is victorious in Greater New York and the Populicist fusionists still retain their hold on Kansas.

While these results indicate a slight reaction from the Republican cyclone of last year, it is nothing in comparison with the landslide that overtook the Democracy the year following Cleveland's first election.

Here at home, the fall-off in the vote was slight, compared with that in many other places, and the assembly as great among Democrats as among Republicans. The Republican majority in the county is 1,800, and the Democratic vote a little more than 1,000.

When comparison is made with other counties, Somerset is found among the banner counties of the State.

What Do Children Drink?

Don't give them tea or coffee. Have you tried the new food drink called Crai-O-Gro? It is delicious and nourishing and takes the place of coffee. The more Crai-O-Gro you give the children the more healthful they distribute through their systems. Crai-O-Gro is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about as much. All grocers sell it. Use and see.

Children Saved From a Wolf

Little Rock, Ark., Oct. 28.—A wolf was killed on one of the principal streets of Little Rock today just as it was about to attack a party of children playing on Arch street. The animal, emboldened by hunger, had come out of the swamps south of the city. A negro, named Tom Johnson, saw the animal about to attack the children and, securing a gun, quickly killed it.

Republican, city treasurer, and Horatio R. Hackett, Republican, for recorder of wills, by majorities approximating 7,000.

Judges Gregg, Witkum, and McKaughey, Republican, were amply re-elected, they having been endorsed by both parties. The proposition to increase the salaries of public officers has been carried by about 20,000.
