We, the undersigned Auditors of the Cong ty of Somerset, in the Commonwealth o Pennsylvania, do certify that in pursuance of the 47th section of the Act entitled, "An Ac the fith section of the Act entitled, "An Act Relating to Counties, Townships, etc.," passed the lith day of April, 1831, we met at the sent of justice in the county of Somerset on the Market of justice in the county of Somerset on the Market of justice in the county of Somerset on the Market of justice in the county of Somerset on the Market of justice in the county of Somerset on the Market of Somerset of Assembly, and the snapples ments thereto, according to the best of our judgment, ability and knowledge set the lollowing accounts respectively:

A. J. HILEMAN, Clerk. Before concluding our report, we deem

HENRY F. BARRON, Esq., Prothonotory and Clerk of the Courts of Quarter Sessions and Oyer and Terminer of the County of Somerset, Pa., in acc't with Somerset County, for A. D. 1897. tour duty to interpose objections to the system of bookkeeping practiced in the office of the County Commissioners, whereby large sums of the county funds are carelessly, if not illegally, drawn from the county treasury. It is manifestly the duty of the commissioners of the county to draw orders on the county \$ 685 39 \$ 685 39 treasury for every cent expended, and not to withdraw funds from the treasury MARTIN H. HARTZELL, Sheriff of Somerset county, Pa., in acc't with Somerset county for A. D. 1897. upon the mere presentation of bills or ac-counts stamped "Approved by the Coun-ty Count'ssioners." We are of the opinion that the practice has resuited in great injustice in the past, and it is unnecessary to point out the fearful consequences it may have in store for the taxpayers of the 5 800 00 5 800 00 county if longer continued

Objection is interposed to issuing orders from two or three different sources, which of itself must be regarded as unsafe business methods, as well as confusing to those charged with auditing the same. Objection is interposed to issuing county orders bearing interest, which we believe has been done without warrant of law and to the prejudice of the taxpayers

of the county.

Objection is interposed to the manner in which the minute book, in the office of the County Commissioners, is kep. It is farcical and unbusinesslike to make a minute of the fact that the commissioners are not on Monday and adjustment of ers met on Monday and adjourned or Saturday, without giving the names of \$ 1022 86 \$ 1022 86

\$ 1022 86 \$ 1022 86

The commissioners present, and a full account of the public business transacted by them cach day they were in session.

Serious objection is interposed to issuing orders on the county breasury for services rendered by county commissioners and Kretching orders on the county breasury for services rendered by county commissioners and Kretching orders on the county breasury poolic policy and without warrant of law.

Objection is interposed to drawing warrants upon the county freasury upon presentation of unitemized bills.

Objection is interposed to letting public contracts in secret without public notice, as we believe it to be prejudicial to the best interests of the taxpayers.

And we further certify and find that And we further certify and find that there is a balance due the County of Somewart from ex-County Commissioner Honry F. Barnett and S. U. Shotler of \$200.00, amount disallowed on order Not 359 of 1885, and was issued in part payment for metallic file cases for the Prothonotary's office. It has not been made to appear that there was any public news sity for such extravagant expenditure of County funds at that time; whereas it

tounly for the year 1886 that the County Treasury was at the time the order was issued in a depicted condition; while, on the other hand, it appears that valuable public property, file cases in condition to meet the requirements of the Prothonotary's office for a number of years to come, was thrown out; whereas, so far as the books, papers and vouchers submitted for our inspection and audit, fail to show that a single cent was paid into the County Treasury for the same; that the expense book kept by the County Commissioners did not contain an entry of the issuing of order No. 350 of 1886 at the time or during the audit of the receipts and expenditures of said County for the year of 1896; whereas, it appears on the face of said order No. 330 that it was insued by Commissioners Barnett and Stocklis for a sum largely in excess of the value of property for which it was given, or for what similar property could have been elsewhere purchased.

We also certify and find that the sum of \$55.00, received by the County Commissioners from the State of Pennsylvania, for the use of the County of Somerset, has not been turned into the County Treasury. All of which is respectfully submitted.
