The condemned cells, where they are constantly under the eyes of the death-watch, and they are given every attention and comfort that can be granted by the prison officials to men standing on the brink of the gallows. Sheriff Hartzell has issued about 125 ards of admission to the double execution, and had he been able to grant the requests of all who applied for admission to the jail on Tuesday next, that building

> The main corridor of the jall in which the double death traps are located is quite contracted, not affording standing room for more than forty or fifty persons and allow the sheriff and his assistants sufficient space to perform their official daties. The death traps are in the west end of the corridor and are operated by a lever, which when drawn permits the heavy iron doors to drop, when they are caught and held in position by steel clasps. The Somerset jail is the only prison in the State provided with death traps that are a part of the prison structure and ready to be called into use at any instant their services are required. They were tested on April 2, 1891, when Joseph and David Nicely were executed for the murder of Herman Umberger. On that occasion final act in carrying out the sentence of the law. With the experience acquired on that memorable day, when he assisted Sheriff Good in the execution of the Nicely brothers, before him, Sheriff Hartzell will have all of his arrangements perfect-
