VIRTUES OF HOT WATER.

Many Are the Aches and Pains It Will Not a phrase conveying an impression of entire felicity, yet it may be found that water, bot, bas manifold uses and is peculiarly able in certain places to afford comfort and relief. A physician who has tried it says that no Uncle agent so quickly relieves nauses and Sam vomiting as water, hot as it can be mken. For constipation drink of hot water a short time before retiring at This is aight. Dyspepties are benefited by sip- America's ping a cup of hot water an hour before cuting. The same practice tends to flesh production, and is one of the rules given sometimes in prescriptions for the cure

As water is so considerable an element in the physical structure, it is in tome sense a food, though-knowing, too, that without it life cannot be supported-it is not usually regarded in that manner, and the knowledge that a wenk stomach will retain bot water when it will nothing else may be oftentimes of value. Let these who are inclined to sneer at

"only hot water" try a cup of it, fresh water, quickly heated and brought to a boil, used with cream and sugar as for conce. If coffee, as many believe, encourages dyspepsia, and tea renders its consumers subject to bendaches, while a cold fluid with warm fluid is not bygienic, it answers to reason that if any drink must be used at meals, the one we are considering (or else bot milk), having none of their objectionable qualities, is preferable. To ward off the cold threatened by a

chilly sensation, drink a cup. To loosen

a tight cough, sip water as hot as it can be borne. A hot compress, with a dry flannel over it, persistently applied to the threat and chest will cure a stubborn cough, a sore throat and out short in its incipiency congestion of the lungs. To dip a cloth in hot water and lay it quickly over the sent of pain is some times a relief in neuralgia. The same application on the stomach will banish colic. In croup place about the neck a flannel wrung out of hot water. For sprains how fomentations are excellent In such cases care should be taken that the clothing is protected from dampnes by the intervention of a dry cloth, and in all the uses for it thus far given it

must be kept in mind that the water is

to be really hot. In spasms place the afflicted child as SEE OUR quickly as possible in a hot bath-that is, one heated as much as comfort will allow. The convulsed frame will be re laxed and soothed by its contact with the warm water. A hot bath after exposure will do much to prevent the taking of an infectious disease. An occasional full hot bath upon retiring is of great benefit in inducing sleep. Even a footbath will be found a help as a means to the same.

When a person is tired and heated, bathing the face with warm water will prove more comfortable as well as less dangerous than the use of cold. Weak Wood Frame Harrows. eyes are made stronger by bathing them regularly in water as hot as can be borne. If they are tired, such bathing to which is sometimes added a little salt, will wonderfully rest them.

For a fine complexion and velvety washing the face. It may be first washlish should be written. Some time | ed with soap and het water, then rinsed move pimples. And the appearance of T Bar Steel Pulverizer Land Roller. wrinkles may be greatly delayed, it is

> Deacon Jackson was a very pious but very determined old colored citizen of Owl Creek valley. He had a young mule which his boys were unable to ride, and their failure to break the ani mal so exasperated the old man that he determined to ride it himself. He was however, no sooner located on its back than he was thrown into an adjoining tot, where he was picked up with both legs broken and his neck badly sprained "What on earth did such an old man

as you mean by trying to ride a wild young mule like that?" asked the dector "Waal, suh," said Deacon Jackson "I never does undertake to do nutbin widout fust consultin ov de Lawd an seein what he dan thank erbout hit. I axed him ef I orter ride dat mule what my triflin no ercount boys couldn't ride, "Well, but he seems to have given

you bad advice." "No, doctor, his judgment was al to straddle anything from a circular saw When these infinite insects are dis- up to er elephant, but dis time I think

She Could Get the Answer, but Still She

A dear little woman up on Capitol hill married and went to housekeeping in the most determined manner. Sh set to work to keep an exact account of her expenditures, balancing her books regularly once a month. One of her earliest purchases was an ice ticket for the season. It cost, I believe, \$10.

A month later, in making up her a counts, it occurred to her that that \$10 should be divided proportionately among the several months mentioned on the ticket in order to give to each day's account only the amount of money actually expended on that day. Also she wished to calculate and set down the number of pounds of ice used each day. The problem had several ramification which I have forgotten , but, at any rate, it was exceedingly difficult, and the housewife covered sheet after sheet of white silks, satins and brocades just paper with her calculation. The arbrought from over the sea are set forth | rival of her husband found her dishevel-"What in the world is the matter?"

"Well, can't you get any answer without that figuring?" he asked. The "Oh, I can get an answer," she said,

At an early stage in our journey our difficulties began. The pony broke loose ly, gorged herself with dried vegetables. few pounds of oats saved from the preon a serious illness, to remedy which Armitage and I clubbed together the small supply of pills which we had with us. He produced, I think, two varieties of pills, and I had a number of podophyllin; so we made up a dose of 22 in all, which I administered to our by ordering now. -Geographical Journal.

Stamps were put on the market in August, 1847, but were so little used that the government had to pass a law enforcing prepayment of postage, which went into effect in 1855 Before this action was taken scarcely one letter in a dall. "I have some respect for you that cards, stamped envelopes and stamps of all kinds), valued at \$75,000,000, during a single year.
