FIERCE NAVAL FIGHT

THE WYOMING'S HEROIC BATTLE WITH THE JAPANESE.

Against Overwhelming Odds the American Commander McDugali Fought One of the Most Daring and Successful Nagagements In the History of Marine Warfare.

Strange as it may seem, the Wyoming's oriental battle is an almost unrecorded chapter of our naval annals, though it ranks even higher in point of daring and success against overwheiming odds than the defeat of the Alabama by the Wyoming's sister ship, the Kearsarge. But the Wyoming never was in very great luck as a naval star. She had her part throughout the civil war in all the hardest of blockading and ernising service, and fought well whenever she had the chance, but she did not have the luck of getting into the papers. She was sent off at the same time as the Kearsarge to cruise for that scourge of the seas, the Alabama, and just missed her by the merest chance on two occasions in the China sacs.

It was in 1863, toward the end of the dual reign of the tycoon and the mikado, when Japan was in the throes of civil war, and the forces of the rebel princes were resisting to the last the

THE OLD CLERK.

A Pathelic Picture Too Frequently Pre-sented In the Basiness World.

He is a familiar figure in almost every business house-the old clerk. White haired, thin, with clothes that are always of decent black and scrupalously brushed, he has sat behind the same desk or stood behind the same counter for dear knows how many years, growing thinner and older and mustier as the time went by. Sometimes we meet him in the early morning going down to office or store, walking the same route he has trod for 20 or 30 years with a regularity so perfect

that the very policeman on the beat might set his watch by his movements. Often, late at night, when we are going home from the theater we see him through the iron grated window, still bending over his ledger, for he works slowly newadays and must work overtime to make up his accounts. His eyes are growing dim and he fumbles with his

Prince of Nagato was one of these, and from his tiny kingdom that fronted on the straits of Simonoseki he declared himself lord paramount of everything in sight, including the neighboring seas, from which he took generous toll as did ever the pirate chiefs of Tarifa. He had laid violent hands and hot shot upon the vessels of various powers, including Great Britain, France, the Netherlands and the United States.

Meantime Prince Nagato throve and flourished by the strait of Simonoseki, and failing one day to wring tribute or blackmail by any other means he fired on the American merchantman Penbroke and killed a couple of her crew. There was another diplomatic protest of the combined foreign representatives to the Japanese government, and Commander McDugall, who happened to be in port with the Wyoming, suggested that if the mikado could not take a fall out of his rebellious subject the Wyoming could and would without much urging. This struck the government as a good thing and an easy way out of the international difficulty, so McDugall was given carte blanche to settle ac- al protection. counts with the Prince of Nagato in behalf of all the powers concerned, and he forthwith sailed away.

The other two vessels had come up in the meantime and engaged the American on either side, but she lay to and gave them shot for shot, port and starboard, till her gunners were smoke blind and the finne of the guns no longer served to light the battlecloud that rolled in white billows over the smooth waters of the strait. It was desperate work in the shallow water, but the Wyoming was the best vessel, and she ontmaneuvered her two opponents from start to finish, though twice aground and once afire, with as many men knocked out from splinters and heat as from the enemy's shot.
