Some People too Modest to Confide in their Physician—A Woman Cured of a Serious Disease by a Certain Method, the Only Drawback of which was, it "Made Her Too Fat."

The doctor came in laste and found his patient again in great agony from a splitting headache. It was his fifth call on the same patient, and each time to treat the same trouble. With a suspicion that his diagnosts was incorrect and that he was treating a synapton and not the disease, he said to here. Madam, it is useless for me to visit you again. You are keeping from me facts and symptoms which it is necessary I should know. The patient finally acknowledged that, through a fulse modesty, she had not told him all. Then she told how she had suffered from female weakness but had kent if from him—too modest to speak. The old doctor was disgusted at such pradicalness, but when he knew the facts, cured her casily said quickly.

Mr. Wanamaker's speech at his litthe gathering, as a matter of fact, was disappointing, although it was much admired by the city papers, which get from four to six columns of good advertising from him every day. It was brilliant and vigorous, but it was the brilliancy of the will-o-the-wisp, and the unprofitable vigor of a kicking mule. It was full of vituberative abuse of Republican administration of state affairs, but alleged nothing specific, and only repeated in general and more picturesque terms the old and discredited charges for which Dr. Swailow, when he put them in definite form, was criminally convicted in the Dauphin county court. It set up a ghost of dishonesty in state affairs, and then scared at it, although not one dollar has been lost or stolen from the state treasury by mismanagement or disnonesty in all the years of Republican administration, and it cried out against alleged extravagance and oppressive taxation under which the people are croaning, although not a man in all the state of Pennsylvania, except he has money at interest, pays a special liness, or is a stockholder in a bank, a railroad company, or some like corporation, pays one cent of tax toward the or indirectly. The corporation taxes and the special taxes and the license fees upon particular classes of business foot the entire bill, and amount to over

This is the sort of a Republican record which anybody has to go up against who undertakes to make anti-Republican fight on state issues.
