Philadelphia, Sept. 26.-The two significant events of the week, politically, aside from the satisfactory consumma tion of the Republican harmony program in Philadelphia upon the lines predicted some weeks ago in this correspondence, were John Wanamaker's avoldance of a joint debate with State support of the ticket and promised to Chairman Elkin in Media on Saturday and Colonel Stone's crushing rejoinder

The crank candidate for governor issued a public challenge to the Republican candidate to hold several debates with him on a carefully prepared list of charges. In the main they are the same old charges which he published in his newspaper last winter, of criminal libel and is now awaiting

He was then unable to produce any evidence in support of them, even enough to acquit him of mallelous intent in publishing them, and Colonel Stone promptly turned his letter over to the district attorney of Dauphin county, properly holding that if the charges were true the only effect of a public debate, with an exhibition of the testimony, would be to give warnrest and enable them to escape justice. Following is Colonel Stone's let-Philadelphia, Sept. 23, 1898.

Rev. S. C. Swallow; My Dear Sir: My attention has been called to a published letter dated Sept. 21 and addressed to me in which you challenge joint discussion upon what you claim to be the issues in this campaign. I am not surprised that you have omitted prohibition as an issue, but I am surprised that the Prohibition issue should so soon forget the purposes and objects of their organization and follow you in a crusade which entirely ignores prohibition. You challenge me to discuss 12 declarations, or charges upon the stump. All of your 12 declarations charge crimes and mis demeanors which may be severely pur ished under the laws of the state.

You do not name the offenders nor the time when these crimes and misdemeanors were committed, but claim to have evidence to substantiate them. I have no such knowledge, except your unsupported statements which you have heretofore made, but have been unable to sustain in the courts. If you have such knowledge of crimes committed, and have such evidence, it is your duty, not only as a good citizen, but as a Christian minister, to lay the evidence before the grand jury of your county. The witnesses which you propose to call in joint debate will be sufficient to obtain an indictment if they are sufficient to convince an in-That is the proper tribunal to hear

charges, and that is the proper course for you to pursue, instead of undertaking on the stump to prejudice the people against candidates whom you do not charge with committing the crimes or with knowledge of them. I have, therefore, taken the liberty to refer your letter to the district attorney of Dauphin county, where you reside, for such action as he may take in the matter, assuring you that if I am elected governor of Pennsylvania will heartily co-operate in all cases to bring gullty parties to justice and punish all crimes against the state.
