A Mother's Misery.

The story of this woman is the every day history of thousands who are suffering as she did; who can be cured as she was; who will thank her for showing them the way to good health.

The most remarkable thing about Mrs. Nellie J. Lord, of Strafford Corner, N. H., is that she is alive to-day.

No one, perhaps, is more surprised at this than Mrs. Lord breself. She looks back at the day when she stood on the verge of death and shudders. She looks ahead at a Ele of bappiness with her children, her hushand and her home with a joy that only a mother can realize.

Mrs. Lord is the mother of three children, two of whom are twins; until the twins came nothing marred the joy of her life. Then she was attacked with heart failure

and for a year was unable to attend to the ordinary duties of the house. In describing her own experience Mrs. Lord says: "I had heart failure to bad I was often

thought to be dead.
"With this I had neuralgia of the etomac's so bad it was necessary to give me morphine to deaden the pain.

"Sometimes the doctors gave me tem-porary relied, but in the end it seemed as if

"Medicine did me no good and was but

"No one thought I would live.

AN UNANSWERABLE SPEECH

The Chairman of the Republican State Organization Takes Up the Various tion. Points Out Their Faisity, and Doos Not Leaves Shred of Them That Holds Together With Another.

Philadelphia, Sept. 19.-The event of

the week politically was the musterly arraignment of the Wanamaker defamation mill by State Chairman John P. Eikin, in a speech at siedia, on Saturday. It was the formal opening of the campaign in Delaware county, and the court house was packed with people, who received the speeches of Colonel spoke substantially as follows:

before an audience of Delaware county returns received from your county at our headquarters in the city of Philadelphia on the evening of the president time certainly entitle your county to be called the "Little Giant of the East," and I know of no good reason why you stronghold of uncompromising Repub-Hennism. In that campaign the Repubtype of American citizenship, William McKinley, should be elected president of the United States, prosperity should again be restored throughout the nation. The repeal by the Cleveland Democratic administration and a congress in sympathy with him of a Republican protective tariff law and the passage of the Wilson bill resulted in the reduction of the annual output of our manufacturies about one-ha'f, and the opportunities and wages of the laboring people were reduced in the same proportion. You will recall that the wheels of industry had stopped under the baleful influence of that administration, the marts of trade in many instances were closed, capital was idle and unproductive, and many of the wage-earners of the country marched up and down the face of this fair land begging for leave to earn a livelihood. It has now been about one and a half years since President Mc-Kinley was inaugurated. In that short space of time, however, business has revived, capital is being invested, labor is rewarded with good wages and ample employment, and the business conditions of the country from one ocean to the other and from the lakes to the gulf have steadily improved. The administration of President McKinley has already made itself felt to the advantage of our country and people in two on the continent and in the orient as it has never been respected before. Our and patriotic guidance of the present administration have won distinction for valor and courage which have merited civilized world. Under these circumstances it would seem as though every person who voted the Republican ticket support of a party that had performed such valuable service to the country of the column of Republican states. The vital elements in Mrs. Lord's blood were delicient. The haemoplobin was exhausted. She was unfit for the strain she was compelled to undergo. Her nervous system was shattered and her vitality deopped below the danger point.

A collapse was inevitable.

Dr. Williams' Pink Pills cured her by supplying the lacking constituents of health by filling the veins with blood rich in the requisite element of life. The heart re-
