

ONE reason why Bryan says silver is still an issue is that his political future, if he is to have any, depends on the silver question. The first speech made by him in Congress which attracted any attention was on silver, and, of course, if there had been no silver in the Chicago convention he would not have been the candidate. Still there is a chance for him in the Populist party if that organization keeps out of the political picture until 1910. Bryan is a Populist rather than a Democrat. He opposed the West for Weaver, the Populist presidential candidate, in 1892. He was very friendly to the Populists, and the Populist spirit which seized the Democracy in 1896 is what got him the nomination in that year. He would not have to make much of an adjustment in his political program to qualify him for membership in the Populist party. The Populists could do worse than to nominate him in 1906. He would undoubtedly make a stronger run than when Bryan Bricker, whom the Populists have already put up, His chances for getting the Democratic nomination in 1906 are faint, but the base money elements will have a ticket in the caucus, and he would be as good a man to head it as could be.

There are in the Philippines a few islands. Some estimate say 1,400, and some 2,000. But Uncle Sam has got them all, and the next census will find out for him the exact number.

For all the purposes of practical legislation, a Republican majority of one in the next Congress would be just as good as twenty or more. Speaker Reed could have done the rest.

A conversation by telephone has been carried over a distance of nine hundred miles. At the beginning of the century such a feat would have been deemed as wilder than a fairy tale.

It seems to be a foregone conclusion that State Chairman John P. Elkton is to be the Attorney General of the incoming State administration, and surely no more fit appointment could be made.

Spain might as well have given in with a good grace at first. She could have avoided many faults by a sensible submission, but a perception of mistakes was never one of her conspicuous merits.

Expansion looks differently according to the point of view. The Philadelphia bench, has resigned its official position, it is said, to avoid impeachment by the Legislature. Judge Gordon was a prominent candidate for the nomination for Governor when Jenks was nominated. Governor Hastings has appointed Henry J. McCarthy, a Democrat, to succeed Judge Gordon.

DEFEAT has so demoralized the Free Silver party that its leaders and advisers want to throw it into involuntary bankruptcy. They are restrained, however, by the fact that in its present condition it will not pay the average Free Silver percentage—in on the dollar.

OF COURSE Admiral Dewey advises that all the Philippines be retained, and he adds that "Any other arrangement will lead to no end of trouble." Dewey is on the ground, and his advice as a practical man will command general attention.

THE primitive idea of justice among the Cumins is shown by the suggestion that the soldiers accused of rioting there should have a number selected by lot from their regiment for execution. So somebody is executed, and the disorders are ended, it does not seem to them to be particularly material whether the guilty or the innocent suffer.

JUDGE James Gay Gordon, of the Philadelphia bench, has resigned his official position, it is said, to avoid impeachment by the Legislature. Judge Gordon was a prominent candidate for the nomination for Governor when Jenks was nominated. Governor Hastings has appointed Henry J. McCarthy, a Democrat, to succeed Judge Gordon.

THE appointment of Hon. C. W. Stone as Secretary of the Commonwealth under Governor W. A. Stone is being advocated by many of the Republican papers of the State. The appointment would be a most excellent one, and would meet with the hearty approval of a vast majority of the Republican voters of the State.

SOUTH DAKOTA has adopted the referendum by popular vote. Under its provisions if any law is passed by the Legislature objectionable to the people a petition may be circulated, and if five per cent of the voters sign it, the act must be submitted to a popular ratification before it is put upon the statute books. It is the first time it has been tried in this country, although well known in Switzerland, and its working will be watched with interest. A complication in the present instance is that while there is a Populist Governor, the Republicans have the necessary two-thirds in the Legislature to pass any measure over his veto. Politics ought to be exciting in that State during the next year or so.

UNLESS the present arrangements are changed, the Republican caucus for the nomination of a candidate for United States Senator will be held on the evening of the 28th of November at the capitol building, and will be held over the United States House on the afternoon of January 17th, and at noon on the 18th a joint meeting of both Houses will be held to compare the vote. The friends of Senator Quay are confident that he will have a large majority in the caucus and claim that even should Magee, Finan and Martin combine with the Democrats and Wansinkers Quay will still have a majority, and that in any event his re-election is assured. They only conceive Wansinkers the control of eight votes. Martin, Magee and Finan have all publicly stated that they will go into the caucus and will be governed by its decision.

THE Johnstown Tribune and its Albany associate are calling upon the Republicans of this congressional district "to formulate a plan to make a congressional nomination other than the one now in vogue," but they neglect a new plan. It is suggested that the Republican County Chairmen of the four counties get together and devise some plan; or that after getting together the Chairmen appoint a committee, to consist of a certain number of Republicans from each county, who shall formulate a set of rules to be submitted to the different county conventions for approval. If men of the intelligence and wide political experience of the editors of the two leading Republican dailies in the district are unable to devise a more satisfactory system than the one now in vogue, we might expect a meeting such as they suggest would be barren of results. The Herald is not devotedly attached to the conference system, but we seriously question whether, in a district composed as this one is, it can be greatly improved upon. We are open to conviction, however, and will be pleased to hear from our contemporaries in the district on the matter.

Spain Accepts American Terms

SAYS SHE YIELDS TO SUPERIOR FORCE AND PRESENTS HONORABLE TERMS.

PARIS, Nov. 28.—Spain has accepted the United States' offer of \$20,000,000, and at a joint session of the peace commissioners this afternoon announced the conditions to relinquish Cuba and to leave Porto Rico, the island of Guam in the Ladrones, and the Philippine Islands. The document presenting this acceptance contained the following provisions:

Spain's reply in substance contained by declaring that the United States has offered, as a kind of compensation to Spain, something very inadequate to the sacrifices the latter country makes at this moment, and she feels therefore that the United States' proposals cannot be considered just and equitable.

Spain has, however, exhausted all the resources which she has at her disposal to justify her attitude. Seeing that an acceptance of the proposal made to Spain is a necessary condition to a continuance of the negotiations, and seeing that the conditions of Spain are not such as to enable her to re-enter war, she is prepared in her desire to avoid bloodshed, and from considerations of humanity and patriotism, to submit to the conditions of the United States, provided these latter may be. She is, therefore, ready to accept the proposals of the American commission, as presented at the last sitting.

The reading and the translation of the document occupied less than five minutes. Having embodied in the treaty articles all the principal questions, the two commissions will now attend to finalizing details regarding the matters suggested in the American ultimatum a week ago, matters subsidiary and incidental to the principal provisions, which must form part of the peace treaty to be signed. These include the religious freedom of the Caroline Islands, as agreed to 12 years ago, the release of political prisoners now held by Spain in connection with the revolution in Cuba, and the Philippines, the taking over of the island of Kauai or Ulaia, in the Caroline, for a telegraphic and naval station; cable station rights at other points in Spain's possessions, and the removal of the Spanish fleet, previously in force between the United States and Spain, which may have lapsed or been violated by war.

Several Lives Lost.

BOWEN, Nov. 28.—It is known definitely to-night that more than thirty lives have been lost in the wrecks of the two schooner and coal barges during the storm of Saturday night and Sunday morning, and if the steamer Portland has also gone down, as now seems possible, the list of casualties will run up to 140, with over 100 vessels and descriptions ashore, two score of them total wrecks and an unknown number probably beneath the waves of Massachusetts bay. There is scarcely a bay, harbor or inlet from New York to New London that has not on its shores the bones of some stanch craft, while along Massachusetts bay, and especially Boston harbor, the beaches are piled high with the wreckage of schooner, coal barges, and fishing boats. The record, although hourly lengthening, is still incomplete, for that ocean grave yard of Cape Cod is still to be heard from, and as it has never yet failed to give up its grisly tale at such a time, it probably will not be found lacking on such an occasion.

Teachers Get Papers Pay.

Dr. N. C. Schaefer, Superintendent of Public Instruction, on Thursday made public the advance sheets of his annual report for the last fiscal year. He reports a marked increase in the number and size of the libraries established and maintained in connection with the public schools. The Doctor also reports that the new law for the distribution of the public school fund was a success. The increase in the number of teachers is reported as follows: In 1905, 2,350; in 1906, 2,500. The total cost of the public schools for the year was \$1,200,000. The report also shows that the number of pupils in the public schools has increased from 100,000 to 120,000.

His Blood Young Him.

J. M. Wingate, a young sportsman of Greene River, Centre county, had a novel yet thrilling experience the other day while hunting in the neighborhood of Bear Meadows. Wingate, with several companions, was out on a hunt when he was crossing a log about 100 feet long on a crossing all day without seeing any game, he started for a trap about 100 feet from the log. He was following a trail from the top of the ridge which was covered with brush, and he stepped into a bar hidden beneath a covering of leaves, and the ponderous steel jaws closed on his right leg, leaving the leg badly, without breaking the bone. The shock which sudden pain caused the man to swoon. When he came to his senses he was horrified to see not 20 feet away a monster bear sitting on her haunches and curiously watching the hunter's go.

Wingate attempted to free himself from the trap, but the springs were so powerful he could not budge them, and in addition every movement of his was watched by the bear in such a threatening manner that he feared every movement he would be attacked. Suddenly his mate sprang and was 100 feet up a tree before the hunter realized what was watching him. Then, with a deep groan, she plunged for the man.

The blood from Wingate's wounded ankle trickled down, and this saved his leg from being lacerated. The bear, which was backed up to the trunk of the tree trunk, which being a barbed slippery slide, became as slippery as glass, and when finally tried to climb it could not. In her rage and fury the bear swung so hard that the tree trunk was covered with a lather which was finally coated on her body, and in half an hour she was so exhausted and so covered with the slim lather that she rolled over and could not regain her feet.

Wingate, seeing the bear's dilemma, slid down the tree, and by lying full length was able to reach his gun, when he hit the bear in the moment to send a bullet from the 4th caliber Winchester into the bear's brain. The bear killed, Wingate tried to release himself. For at least a half hour he pounded the trap with stones in an attempt to break it, but the bear had been so covered with the lather that she was unable to get up.

Three Negro Lynched

MEMPHIS, Miss., Nov. 27.—Three negroes were lynched last night. Four more were shot to death in New York city. Farmers were said to be on the trail of others implicated in an assault upon a white man, who came to Memphis on Friday morning. The negroes were shot to death near Okatuba river, four miles west of the city. While breaking camp yesterday a hog came up and bit into his leg. VERY PRECIPITOUS ROW

Tordontes Seeks to Overthrow Colonel Guffey's Leadership AND HELP WANAMAKER.

Representative Row, of Peculiar, Missouri, and Author of Queer Bills, Leads the Fight, But He Gets Cold Comfort From the Straight-Out Democracy.

(Special Correspondence.)

HARRISBURG, Nov. 28.—There is a pretty row on in the Democratic party in Pennsylvania. It is all over the opposition of the Governor to the nomination of Colonel Guffey and to the desire of the friends of Judge Gordon to help out the Wanamaker combination in their plans to annex the Philadelphia millionaires and their Republican associates.

That Wanamaker has given up all hope of being elected to the United States senate is now apparent. His friends, while still in touch with the Democrats, are trotting out C. W. Stone and John Daisel for United States senator, to divide the Republican vote. Meanwhile Mr. Guffey is in the line of work being done by the Democrats, are trotting out C. W.
