A minister in a nearby town who frequently crossed streets at typographical signs in newspapers recently had a program for religious services in his church. When the program was ready for the press, it was found that there might be no errors in it, the proof is submitted to him. It was found and corrected according to his marking. After the job was up a friend called him to the following line in the program: "Jesus reigns and Heaven is his." The preacher nearly fell, but he doesn't criticize the newspapers half as much as he used to.

Some one has discovered that music has a bad effect on the growth of the hair and that while certain music prevents hair from falling, other kinds have a disastrous effect. Composes lose their hair like ordinary people, but composes do not perform their own work. It is asserted, "Always have luxurious locks. Wind instruments, especially the cornet and trombone, are fatal to heavy beds of hair; the violin and cello keep the hair pretty well, but the flute cannot be depended upon. It has not yet been decided what particular key is best for the prevention of baldness."

The State newspapers are discussing the depredations of "tramps," and Judge Baker, of Lancaster county, a few days ago advised farmers to get up a few more outlaws to suppress the great and growing nuisance. In a State like Pennsylvania, where simple provisions are made for the support of those who are unable to subsist without charity, there is no excuse for the gangs that infest the highways of the State, and which are a disgrace to the State.

Blinded by the thought that he will teach a little child that there is no Santa Claus. To men or women, says the Harrisburg Telegraph, who teaches such horsey howl had a child—never was happy when young, and their children are 173, dead, gloomy and forbidding. Why? What more beautiful picture is there in the world than the face of a little child listening to the story of "Old Santa Claus" coming over the roof of the house and down the chimney with his magic wand and things for the good children? Says the novelist: "You must not tell such stories to children, for when they grow up they will be disappointed. They are disappointed their parents as first, who told them that there is no Santa Claus. The little ones have all the enthusiasm of women of their time before they are out of short cloths."

After communicating with the members of the local bar Judge Longmeyer decided that in view of the reported opinion of small pox at Bedford it would be imprudent for him to preside at this week's term of criminal court, and he therefore requested Judge L. B. Doty, of Westmontedown, to occupy his place on the 18th term Monday morning and wed immediately to the court house and conveyed court. Judge Longmeyer says that the newspaper reports concerning the epidemic of small pox at Bedford are grossly exaggerated; that there are only two or three cases of a mild form in the town, and as many more outside of the borough; but on account of the alarm created throughout the State by the newspaper reports and the general fear on the part of the public that the disease might be wide spread, he would respect the desire of the Somerset trustees and request Judge Longmeyer to preside.

BEDFORD'S EPIDEMIC

Office of State Board of Health Reports. Many Cases of Small-Pox.

CITIZENS DENY THE STATEMENT.

Bedford is greatly stirred up by the statement that has been given out that the whole town was afflicted with small-pox and that the residents were quarantined and hospitalized. The 200 cases reported have dwindled down to seven, two in the borough and five outside within a radius of ten miles. In several cases the small-pox is in a very mild form, thought to be the same as that felt by the citizens, the patients being entirely under control and not permitted to mingle with other members of the family.

IMPRISONED FOR OTHER OFFENSES.

Even at this late date there are people living in this country, says the Greenburg Tribune, who do not believe that Simon Miller, the defaulting Westmontedown county treasurer, who in 1894 had \$2,800 of the county funds stolen, was responsible for the robbery. Circumstances, however, were against him, and he was convicted and sentenced to the Western Penitentiary for a crime that may have been perpetrated by others.

The Tribune is in possession of a very voluminous letter purporting to have been written by a man named Geo. H. Miller, of Rockwood, Pa., in which the writer claims that a man named Miller, who was at the time employed by a well known citizen of Greenburg, assisted by four other well-known citizens of the county, whose names are also mentioned, to steal the county funds. The Treasurer
