

CLARION county Republicans joined the procession Saturday and elected C. O. Dave, a stalwart, to represent them in the coming State Convention.

The State Convention office-holders that few die, and no resign, do not hold good as to Congressmen. During the present year five members of the House, elected last November, have died. The result is a draw: two of the number having been Republicans, two Democrats, and one a Populist.

After long and careful consideration, and after ascertaining the views of Major General Otis, the President has decided to enlist a provisional army for service in the Philippines. The men will be enlisted as regulars for three years' service, and it is thought nine new regiments will be sufficient. The War Department intends to keep 40,000 men in the Philippines until peace is restored.

A BROWNING man will catch at a snail's pace the "fake" organ, whose owner was so mercilessly stayed by the voters at the recent primary, and his legislative course so roundly condemned, flapping its wings and crowing over the nomination of its father-in-law to an obsolete office, and for which he had no opposition, but received the unanimous vote of the party.

Some one should apply eye, and lots of it, to Col. "Erney" Acheson's head. It is already swollen to such a size that if it is not quickly reduced, the malady will prove fatal. Such an operation will prove fatal. It is already swollen to such a size that if it is not quickly reduced, the malady will prove fatal.

It is not the only country in which the great department store is regarded by its smaller rivals as a grievance. A report recently made by Consul-General Mason, at Berlin, shows that there is much agitation on the subject in Germany and France, and that in both countries legislative measures have been undertaken for the repression of such establishments, though with little effect thus far.

For the past several years it has been the custom of a number of aspiring "bosses" who had previously not attended Republican Conventions for twelve or fifteen years, to attend, try to override the party rules, create all the disturbance possible, and then, through their newspaper organs, try to place the odium of their conduct on other shoulders. Fortunately, this year there was an immense crowd from all sections of the county present at the convention, who were able to send a message to the delegates to which side lived squarely up to the party rules and conducted themselves in a seemly and becoming manner and which side did not. It always pays to play fair.

The Republican State Convention will meet on the 24th of August this year, nine-tenths of the members of the State Committee having notified Chairman Ekin that that date will suit them. The latest announcement concerning the composition of the State ticket is to the effect that Mr. Quay and his lieutenant have compromised on J. Hay Brown, of Lancaster, for Justice of the Supreme Court; Josiah B. Adams, of Philadelphia, for Judge of the Superior Court; and Lieutenant Colonel James E. Barnett, of Washington county, for State Treasurer. This return is subject to revision, but at present it appears to be close to the truth.

The experience of our army in the West Indies has not been lost on our troops in the Philippines. The result is seen in a far smaller mortality from disease among the latter than in the former. In the latter case more than 300 were killed and died of disease, while the deaths from disease numbered about 2,000. In the Philippine campaigns, from the first landing of our troops at Cavite, June 30, 1898, up to the latest report from General Otis, June 6, 1899, the number killed was 22, and that of those wounded 219. During this period the deaths from all causes except wounds were but 324, and this number includes several who were drowned and killed by accident. Our force in the Philippines has been more than double that in Cuba. The sickness there has been the smallest on record among armies of white men operating in tropical countries.

Stories have been printed in a number of newspapers that extravagant improvements are contemplated at the Executive Mansion in this city, says the Harrisburg Telegraph. L. E. Eyre, Superintendent of Public Grounds and Buildings, has given out the following statement: At a meeting of the Board of Public Grounds and Buildings, held yesterday, the question of furnishing the mansion was considered. The issue, the elevator, decorating halls and lanterns, raising the roof over the office and providing additional sleeping rooms, oil paintings and marble statues, were discussed. Some of these expenses will be incurred. The Board has had no intention of any time to make these expenditures. The Board is not in a position to make these expenditures. The Board is not in a position to make these expenditures.

The following paragraph, taken from a special Somerset dispatch published in the Philadelphia North American, owned by John Wanamaker's son, last Thursday morning, is interesting inasmuch as it shows that Representatives Koonz and Kendall are preparing a desperate attempt to square themselves before the eyes of the Bargain-Counter Statesman:

The effort on the part of the machine to make it appear that the vote at Saturday's primary was a conspiracy for the Legislature from this county is absolutely under the control of the machine. The effort on the part of the machine to make it appear that the vote at Saturday's primary was a conspiracy for the Legislature from this county is absolutely under the control of the machine.

Alger Spurns Pingree.

WASHINGTON, D. C., July 1.—Secretary Alger said today: "I have no political alliance with Governor Pingree—that is no more of an alliance than I have with 500 other Republicans of Michigan, who have assured me of their support in my candidacy for the United States Senate."

Having thus disclaimed any entangling association with Governor Pingree of a nature embarrassing to the Administration, Secretary Alger has cleared up a situation that might have caused his resignation from the Cabinet. It has been an accepted fact that Secretary Alger had but two courses—either to resign or to remain in the Cabinet.

His repudiation of alliance is calculated to relieve the strained situation between himself and his colleagues in the Administration, as well as between himself and the President.

In the face of Secretary Alger's specific denial of the alleged alliance with Governor Pingree it is not thought that the President, either in person or through any of his immediate advisers, will be disposed to intimate to Alger that his presence in the Cabinet is no longer desired. The complications were wholly of a political nature. There was no personal feeling.

Secretary Alger explained today that when he was in Michigan Governor Pingree called at his house voluntarily and offered to support him for election to the Senate.

Even those who have been most persistent in asserting that Secretary Alger must get out of the Cabinet admit that his repudiation of the Pingree alliance puts an entirely different aspect upon the matter. It may be predicted that unless new and unexpected contingencies arise Alger will remain in the Cabinet.

MILWAUKEE, June 28.—"He won over our boys in blue, and he will be our president, too." Thus ran one of the banner inscriptions displayed in Milwaukee during the recent parade of which Theodore Roosevelt was the center of attraction. But this apparently did not interest the governor half as much as did that other, displayed everywhere and on every lip, "For God and Country."

Photographers by the score leveled cameras at the governor, and he shouted to them: "The Spaniards did not do anything as bad as that." Little girls and boys, and the infants of the town, again the shout went up from street corners and crowded office windows: "Roosevelt for president!"

On his feet nearly all the time he was in his carriage. He was kept constantly moving. Once when he had a breathing spell he said: "This is the jolliest fun I ever had." The cheering at every part of the line was tremendous, and of this the governor said: "They don't know me as they do in New York, hence I am popular."

There were many receptions for him and entertainments during the day. In a speech before the Chamber of Commerce he included the west, and urged everybody to stand by the President "as he upholds the honor and glory and greatness of the flag."

HOLLISTER Never Wavered. HARRISBURG, June 29.—Joseph Hollister was banged in the jail yard here this morning for the first time since August 1 in a case of judicial rage. Hollister confessed his crime at the time it was committed and went to the scaffold without apparent fear. After death, which was from a special drive and put in his cell, he was given over to relatives.

HOLLISTER was an ignorant farm hand, forty-five years old, and was separated from his wife several months before the murder. The defendant about the place near his farm, and they had a quarrel over her refusal to return home with him. Hollister knocked her down and then cut her throat with a pocket knife. He admitted the crime at trial and put in a plea of insanity. The jury soon found him guilty, and the Board of Pardons and the Supreme Court were appealed to in an attempt to reach him in any form, and in good order. No Committee had a right to have the tickets for his precinct or to distribute them before the morning of the primary.

If Chairman Berkeley discharges the duties of the position with the same absolute honesty, fairness and integrity as did Chairman Berkeley, there will be no cause for complaint. We have lists of large amounts of money having been sent into this county by the friends of the local insurgents, and if how it was used, but of this we will not speak at present.

Doctor Johnson and Captain Schroek had no opposition for nomination for Coroner and Surveyor respectively, and yet the "compare notes" "bosses" claim them as their very own. Go. The "fake" organ says: "Of the above named candidates Messrs. Dumbach, Moser, Livengood and Schroek were pronounced anti-Southern. We believe that all of the gentlemen named are Republicans and until we have better evidence than the unsupported word of the ostensible editor of the 'fake' organ we will believe anything to the contrary."

The anti-Southern voters in the county have been in the majority for several years, and they are in the majority to-day. The Governor is a Republican. Representative Koonz, two weeks ago the same multiple candidate: "Frank B. Black is the anti-Southern candidate. 'You pay your money and take your choice.'"

"Dan" Keller, the stalwart candidate for Committee in Somerset township, had a majority of 71 votes over incumbent candidate Ed Barron, a brother of Prothonotary H. F. Barron, and from 15 to 25 stalwarts voted for "Jim" Winter, the stalwart candidate for Committee in Somerset township, evidently thinking that "Jim's" majority of over 250 was too small for such a popular fellow.

"Early last week the Ring knew it was whipped—that popular sentiment was against it." At Somerset it must be admitted that the popularity of two or more home candidates on the ballot ticket made the storming work less a charm. The highest vote ever polled in the borough and township was increased more than 100 votes and the Split ticket came out of the field with big majorities. "Fake" votes.

In the language of a local celebrity, "There's a dundertin' lie out there here." Hives are a terrible torment to the little folks, and to some older ones. Easily cured. Down's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

An American Railroad in China. Moneyed men from the United States have secured a franchise for building a railroad from Hong Kong to Hainan, China, a distance of nearly 700 miles. While railroads are necessary to a nation's prosperity, health is still more necessary. A sick man can't make money if there are a thousand railroads. One of the reasons why America is so progressive is the fact that in every drug store is sold Hostetter's Stomach Bitters, that celebrated tonic for the weak, appetizer for the dyspeptic and sedative for the nervous. It is taken with great success by thousands of men and women who are run down, pale and weak. It increases the weight, and the gain is permanent and substantial.

Trained Child Killed. HARRISBURG, June 29.—A meeting of the State Live Stock Sanitary Board was held at the State Hotel here this morning, at which it was arranged that \$50,000 should be set aside for the purpose of the Board for the fiscal year beginning June 1st.

Little Strokes Fell Great Oaks. The giants of the forest must yield at last to the continual blows of the woodman. When the human body has become clogged and impure the little drops of Hood's Sarsaparilla, properly taken, will fell the oak of bad blood.

Two Interesting Specimens Start Out in Quest of Adventure. The journeys of those enterprising ladies will be described only in the Great Philadelphia Sunday Press. The pictures and rhymes are extraordinarily funny. In another week the whole world will be laughing. You had better ask your newsdealer for the Philadelphia Sunday Press regularly.

Two Interesting Specimens Start Out in Quest of Adventure. The journeys of those enterprising ladies will be described only in the Great Philadelphia Sunday Press. The pictures and rhymes are extraordinarily funny. In another week the whole world will be laughing. You had better ask your newsdealer for the Philadelphia Sunday Press regularly.

Trained Child Killed. HARRISBURG, June 29.—A meeting of the State Live Stock Sanitary Board was held at the State Hotel here this morning, at which it was arranged that \$50,000 should be set aside for the purpose of the Board for the fiscal year beginning June 1st.

Little Strokes Fell Great Oaks. The giants of the forest must yield at last to the continual blows
