They have a newspaper bureau, which circulates their weekly budget of misrepre sentations among the insurgent newspapers, and the Democratic organs are quick to take up the same matter as grist to the mill of the minority party The vituperation and abuse which is heaped upon representative Republicans of the state comes mainly from this insurgent aggregation. The Democrats naturally desiring to miss no opportunity to divide the majority party, take up all the stories put affoat by the insurgents and use them to the advantage of the cause of Bryanism and everything eise the Democracy

STONE IS NOW THE TARGET. During the session of the legislature Colonel Quay was the conspicuous mark of the Wanamaker subsidized organs. He was painted in the most in the old establishment, but it was hideous colors. He was maligned and no go; he couldn't make the same kind misrepresented in a most outrageous manner. Colonel Quay has since been vindicated.

A jury of his peers, all American citizens and qualified electors of this commonwealth, have declared unantmonsly that the charges and insinuntions affecting him were untrue, and no one familiar with the circumstances

AS TO THE EXECUTIVE MANSION. The insurgent newspaper organs throughout the state, which are not in a happy frame of mind by reason of the recent primary elections, that indicate the failure of the war against the stalwart wing of the Republican party, have recently been venting their spite in bitter criticism and misrepre sentations of Governor Stone and his administration. They have even descended to censure the governor because the formal schedules for the information of bidders in the annual letting of contracts for state supplies, repairs and the like happened to contain a few paragraphs regarding some remodeling and furnishing of the executive mansion. Large headlines about reckless extravagance on the part of the governor and criticism of his conduct as an occupant of the executive mansion have excited the wonder and thoughtless comment of scores of people who never stopped to consider the

If we have at last acmethods employed in the various departments. The president of the United States or members of his cabinet who might be visiting Pennsylvania would naturally call upon the chief executive. The governor must entertain such officials at his own expense, but the state at least should supply sleeping
