The Saving of Money

Baking Powder is considerable. Royal is economical, because it possesses more leavening power and goes further.

Royal saves also because it always makes fine, light, sweet food; never wastes good flour; butter and eggs.

More important still is the saving in health. Royal Baking Powder adds antidyspeptic qualities to the food.

There is no baking powder so economical in practical use, no matter how little others may cost, as the Royal

Imitation baking powders almost invariably contain alum. Alum makes the food unwholesome

Three big Circuses in three big rings. Big Menageries. 1 Prodigious Aquarium. 1 Com plete Aviary. 1 Grand Biblical Spectacle. 10

Truly Great Shows. For Seventy-five years,

Through three generations, this Mighty and Powerful Amusement Organization has exhibited in every State of our vast Union, and the name of JOHN ROBINSON is alone a guarantee that the performances under the vast Canvases by far excel all others in Merit, Originality, Magnificence, Variety and Quality. More for the Money than any other three reorganized circuses furnish their patrons.

... Larger, ... costlier, and more distinctly original

Tableaux Cages and Dens than owned by any big show in the world. More costly costumes and more scenery used in the one great feature of Solomon and the Queen of Sheba than in the entire combined features of any other exhibition in this country. Over \$100,000 actually expended on this grand production alone. The most magnificent Scenery, Costumes, Emblems, Armors, Trappings, in every detail historically correct. 100 of the most beautiful dancing girls in America.

The Circus Features

This season obtained from Europe and America will amaze and startle the world. Nothing like them ever before presented in this country. The most novel Bare Back Acts ever witnessed. From nine to twelve of the World's Greatest Champion Lady and Gentlemen Equestrians riding in three rings at one time. This feature is new and original with this show.

The Menagerie

Surpasses in magnitude and completeness the largest known Zoological collection in the world. One of the special features of the Big Triple Menagerie is the LARGEST SNAKE ALIVE-TWENTY-FIVE FEET LONG. Ordinary snakes are fed on rabbits and rats, while this reptile devours pigs, sheep, turkeys and dogs. Greatest feature ever witnessed.
