Quality

It is the high quality of Royal Baking Powder that has established its great and world-wide reputation.

Every housewife knows she can rely upon it; that it makes the bread and

biscuit more delicious and wholesome—always the finest that can be baked.

It is economy and every way better to use the Royal, whose work is always certain, never experimental.

ROYAL BAKING POWDER CO., NEW YORK

There are many imitation baking powders, made from alum. They may cost less per pound, but their use is at the cost of health.
