Black ink as a Face Wash.

traveler in Africa, weary exhausted, was received hospital bly one evening in the kraal of a Hottentot prince. Early next morning he was about to write down the events of the previous weeks when he perceived, to his dismay, that the ink in his traveling case was dried up. With a sigh of disappointment, he was packing up his writing materials when his eye fell on a glass vessel standing on a bamboo shelf, which, on closer inspection, proved to be a genuine ink pot nearly full to the brim.

Delighted at the discovery, he sat down and worked away at his diary. Suddenly he was disturbed in his occupation by a young negress, who, springing toward him, snatched the ink pot from the table in passionate haste. Her agonizing screams soon attract-

ed the other members of the family, and the unsuspecting stranger was soon made aware that he had committed the beinous offense of laying sacrilegious hands on the carefully guarded provision of ink which the rich aunt of the monarch had bought from a European trader as a toilet preparation for improving the complexion.

The explorer was forthwith arrested and sentenced to death, and the edict would have been put into executio had not a British man-of-war arrived in the bay. The captain, learning of to supply them with much needed rain. his countryman's exploit, promptly intervened and appeased the trate royal house by a gift of half a pint of black ink.

The Safest Part of a Train.

A party of travelers in a train we talking over their traveling experience and the danger of accidents, and finally the question arose as to the safest part of the train. Failing to settle the question among themselves, they called on the guard, and one of them said to

"Guard, we have been discussing the matter of the safest part of the train and want to know your opinion.' "Want to know the safest part, ch?"

replied the guard. "Yes, that's it."

"Well," continued the guard, "I've been on the line for 15 years and have been turned over embankments, 'busted' up in tunnels, dumped off of bridges, telescoped in collisions, blown off the line by cyclones, run into open switches and had other pleasant incldental divertisements of a kindred nature, and I should say, gentlemen, that the safest part of the train was that been "sold." The lady was never heard part which happened to be in the of after. works for repairs at the time of the

He Dodged the Question.

accident."-London Telegraph.

The story is told in The Church Review of a certain vicar near Birmingham who had an amusing passage at arms with his diocesan. It seems that he had been in the habit of issuing a private manual of devotions in the church without the bishon's consent. On the front cover, be it said, was the notice, in hold type: "Not to be taken away. The property of the vicar." By some means or another a copy of the little book found its way to the palace, and a few days after the vicar received a somewhat tartly worded

communication from the diocesan, nsking when his lordship had given permission for the use of the manual. "My dear lord bishop," wrote the

A rumor got about in a village tussia, not far from the German frontier, that the corpse of a woman who

Ebony. Ebony was known and highly esteemed by the ancients as an article of ages of beads. Every year immense luxury and was used by them for a variety of purposes

In India it is said that it was employed by kings for scepters and also for images. On account of its supposed antagonism to poisons, it WOR used largely for drinking cups.

The name ebony is given to the wood of several varieties of trees. All kinds of ebony are distinguished for their great density and dark color. The wood in all varieties is heavier than water. The heaviest varieties are the darkest. The other grades require a considerable amount of staining to make them black.

Ebony is of a uniform color throughout and will not show any deterioration even from long continued use.

There are three varieties of ebony well known in commerce. The ebony from the Gaboon coast of Africa is the darkest. The Madagascar coony is the densest. The Macassar ebony furnishes the largest pieces. It is sold by weight.

Imitations of ebony can always be distinguished by their lighter weight, and the cheaper imitations can be detected by merely scratching the surface.-Jewelers' Weekly.

A Mexican Gambler.

Don Feline Martel, the famous gambling house proprietor of the City of Mexico, had made a fortune in the business before the government decided to abolish gambling houses by levying on them a license tax of \$1,000 a closed, and when the field was clear Don Felipe Martel approached the authorities with \$1,000 in cash and demanded a day's license. In a few hours his place was througed. At a in unison and keeps the center of gravsingle stroke he had won the patronage ity always at the base of the frameof Mexico, and his doors have never | work. Consequently the equilibrium of been closed since. The daily outlay of the pagoda is never disturbed, and this \$1,000 is not missed from the daily is the explanation of the great age of revenue of thousands. A Sompless Country.

In spite of British rule, India is still virtually a soapless country. Throughout the villages of Hindustan sonp is indeed regarded as a natural curiosity, and it is rarely, if ever, kept in stock by the native shopkeeper. In the towns it is now sold to a certain extent, but how small this is may be gathered from the fact that the total yearly consumption of soap in India is about 100,000 hundredweight-that is to say, every 2,500 persons use on an average only 112 pounds of soap among them, or, in other words, considerably less than an ounce is the average consumption a person.

An Ancient Military Devotion. have his trade, for the Persians are as fond of the shiny reflectors as are savnumbers of mirrors of all sorts and in the middle ages. On the eve of battle the shah. Germany, France and Belglum furnish most of the supply. In addition to having a fondness for see-

ing themselves as looking glasses show them the Persians know no more plensing parlor decorations than brilliant mirrors in gilt frames. Some of the Persian drawing rooms are so com-

pletely hemmed in by great pler glasses that visitors often become bewildered and try to walk through the glasses down the long aisle that seems to stretch in front. So bumped noses, knees and toes are not uncommon in that land of oriental splendor and mystery.

Enormous Pendulums.

The only structures in Japan which seem to be carthquake proof are the pagodas, which are erected before the temples. There are many which are 700 or 800 years old and as solid as when first built.

There is a reason for this and it lies that he remained the whole time at in their construction. A pagoda is practhe bottom of the class. tically a framework of heavy timbers, This went on for some time and puzwhich starts from a wide base, and is zled the teacher until he noticed that in itself a substantial structure, but is the fire was near the bottom of the rendered still more stable by a peculiar class. He immediately changed the

device. Inside the framework and suspended from the apex is a long, heavy beam of timber two feet thick or more. This hangs from one end of the four sides; four more beavy timbers, and if the pagoda be very lofty still more timbers, are added to these. The whole day. One by one the gambling houses forms an enormous pendulum, which the class instead of the bottom .-- Spare reaches within six inches of the ground

When the shock of an earthquake rocks the pagoda, the pendulum swings many of them, when from their height

Origin of the Dolly.

From the name of Robert D'Oyley originated the word dolly. A grant of land was given to him in the reign of William of Normandy on condition that he should give yearly a tablecloth of at least 3 shillings' value at the feast of St. Michael. According to the custom of the times, the women of his family were skillful cults with the needle and felt great pride in embroidering their "quit rent table-

cloths." In time these cloths came to be valuable and were used as napkins at the royal table. They were called "D'Oyleys."
