

The Somerset Herald.

EDWARD SCULL, Editor and Proprietor.

WEDNESDAY, November 22, 1899.

GOESSEL would not consider civil war in Kentucky too large a price to pay for the success of his utterly selfish political scheme.

THE Republican National Committee will meet in Washington on December 15th to name the time and place for the next National Convention.

LIEUTENANT-COLONEL BARNETT's plurality over Creasy was 110,000, and State Chairman Billing is proud that he kept the figures under 200,000.

That alleged Populist revolt in Nebraska was invisible in the returns. The Popes are a bump on a log even in that State.

THE United States Senate the number of Democrats who support the President's Philippine policy is greater than the number of Republicans who oppose it.

NATIONAL issues were fairly tested in Iowa, where there were no factional State issues. The Iowa record shows that the majority is in the index of the sentiment of the country.

NOBODY can excel Colonel Bryan in snatching victory from the very jaws of defeat. Wherever and whenever an election is held he manages to get some sort of consolation out of it for the Chicago platform.

SOUTHERN Democrats are by no means united against expansion. Senators Daniel, Morgan and Mc Laurin are among those who have recently expressed their opposition to giving up the Philippines.

THE Charleston is the first vessel lost by our navy since 1894, with the exception of the Maine, whose destruction was a mystery. The record speaks well for the efficiency of officers and men.

SENATOR DANIEL, of Virginia, like Senator Morgan, of Alabama, seems no encouragement for Democrats in the recent elections. It is the opinion of Daniel that the Chicago platform is "additions and subtractions."

Symptoms of Democratic discouragement are multiplying. The insurgent leaders are holding their meetings in Philadelphia for the purpose of arranging a campaign of war or something on the regular Republican organization. It was generally thought that they had gotten their fill of that kind of thing about two weeks ago. But the insurgents appear to resemble the Bourbons in that they never learn.

THE people who were charging the Administration with a terrible loss of life during the recent war are saying nothing more on that subject now that they have an opportunity to compare our losses with those of Great Britain in her campaign in progress now in Africa, where she have lost far less in action in a month have been greater than those of our entire army in all the war with Spain.

ARE not the members of the "McKinley League" a little slow about rallying? Surely they have cause for jubilation. Their platform as proclaimed at their celebrated "Compare Notes" meeting has been enthusiastically greeted by the people. "A State Treasurer who owes himself" has been triumphantly elected despite the efforts of the insurgents to defeat him, and all Republicans worthy of the name are for "McKinley, Protection, Sound Money."

It is announced through the insurgent press of the State that half a million dollars have already been raised to be used as an "educational fund" in the campaign they propose to make against the regular Republicans next year. This is sweet music to the ear of the heeler and the rouser. The man with the bag will be an insurgent, and will have a half million dollars to pay out in the interest of purer politics and reform, and the heeler and the rouser will eagerly look for his share of the swag.

It is said that when the next Republican National Convention convenes, Senator Hanna will retire from the Chairmanship of the National Committee, and that his successor will probably be Senator Penrose. While the members of the Committee are supposed to elect the Chairman, it is customary to allow the presidential candidate to cast the deciding vote, and by this custom President McKinley will have this done. The President likes Penrose, who is admittedly one of the shrewdest and most capable politicians in public life, the ideal of the practical politician, and it is not believed that he will have any objections to his selection as Chairman of the Committee.

THE Republican members of the last Pennsylvania Legislature who bolted the caucus and refused to support Senator Quay are preparing a protest to present to the United States Senate a joint seating him on the Governor's appointment, says the Unknown News-Standard. One of the "insurgents" who refused to sign this protest when visited recently by Arch Mitchell of Pittsburg, is S. A. Kendall, of Somerset, who says that since the Legislature adjourned his county has expressed itself at the primaries as favorable to Quay, and that if there is an extra session he will vote for him. Ward R. Biles, of Delaware, is another member who refused to sign the protest. Gen. W. H. Koonz, of Somerset, signed it.

MAJ. JOHN A. LOGAN'S death while leading his battalion in action ends the direct male line of a heroic family. General Logan went through a storm of shot and shell for years, but survived to serve his country in civil life. His horse was shot under him at Fort Henry and he was severely wounded at Fort Donelson. He always led his men, and no one who saw him in battle can forget the spectacle. Major Logan has fallen his first fight in the Philippines. The supreme sacrifice of the patriot has come to him, and the sympathy of the country goes forth to his family and to his distinguished mother.

The name of Logan, father and son, will have a prominent place in the history of American valor, who has never yet failed to carry the flag where his country asked him to plant it.

Franklin's Foresight.

Benjamin Franklin, who died in 1790, bequeathed \$5,000 each to Boston and Philadelphia, with directions that the money, in charge of a board of trustees, should be paid at interest for 100 years, public purposes, which he defined in a general way. The Boston fund now amounts to \$750,000, and the trustees propose to erect on a leading street a building to combine the advantages of a library, a reading room, a museum, and a place for the poor.

The Philadelphia fund now amounts to \$750,000, and the trustees propose to erect on a leading street a building to combine the advantages of a library, a reading room, a museum, and a place for the poor.

"The Best is the Cheapest."

Experience teaches that good clothes wear longest, good food gives best nutrition, and a good medicine that cures disease is naturally the best and cheapest. Hood's Sarsaparilla is the best medicine money can buy, because it cures when all others fail.

Poor Health—"Had poor health for years, pains in shoulders, back and hips, with constant headache, nervousness and no appetite. Used Hood's Sarsaparilla, gained strength and can work hard all day; eat heartily and sleep well. I took it because it helped my husband to whom it gave strength
