More Praise for Miss Ida Musselman.

A celebrated writer has said: "There are two kinds of artists in the world those that work because the spirit is in them, and they cannot be silent if they would, and those that speak from a conscientious desire to make apparent to others the beauty that has awakened their own admiration." Miss Ida M. Musselman, whose artistic

work has been known locally for several years, belongs to the latter class. Miss Musselman, a modest country girl, with the true artistic feeling or inspiration, at an early age set about to gain recognition in the Metropolis, which is easily the art centre of America. That Dr. W. P. Shaw, of Berlin, described she has succeeded is due entirely to heown persistent and well-directed efforts, as well as the merit of her work, a complimentary notice of which, appearing in depression, without pulse and unable to the New York Times' Review of the ALLS, move a muscle of his face.
