

On Monday began the year in which William McKinley will for a second time be elected President of these United States.

It was a white Christmas, with a golden tinge of prosperity, the forerunner of a year promising busy times and generous returns.

SENATOR JONES, of Arkansas, wants the Republican party that it will have to face its record on the gold standard. The Republicans intend to do that very thing, and to do it on a program.

THE ATKINSON anti-expansionists in Boston will have another year in which to look back and ponder on how foolish they were in 1899. They certainly made large pale-gray jacks of themselves.

GENERAL WOOD thinks that the Cubans may be ready for self-government within two years. Some of the agitators are disappointed because the General failed to fix the period at two weeks.

GENERAL LAWTON'S countrymen have promptly given a token of sympathy for his family that goes deeper than words, and will stand as the first and most important tribute to his brilliant services.

AGRICULTURE'S newspaper organ is reported to have been revived somewhere in a mountain cave. It must have received a fresh supply of American capital exchanges to encourage another trial and supply matter to fill up with.

The dead of the Maine have reached a resting place on American soil, which is well, in view of the uncertain future of Cuba, and the intense desire of Cuban agitators to add another to the list of revolutionary Spanish-American republics.

INVESTIGATION proves that the so-called tobacco ballot in Kentucky were not printed on these paper, and that they were used in a large number of Democratic counties. The Goebelites clutched at any flimsy pretext to beat the voters.

A MISSISSIPPI paper says the county banks are filled with farmers' deposits. Good crops and good political results are a strong team for prosperity on the farms, and many people have discovered since 1896 that the right stamp of politics is indispensable to round out other blessings.

IT is intimated that the census of Cuba will show a larger population than the island than was expected. Estimates from careful authorities on the ground put the number of inhabitants at about 1,500,000, which is 200,000 or 300,000 more than has been commonly supposed. Another fact which will cause general surprise is that the proportion of negroes in the island is found to be much smaller than has been imagined. The ratio, it is now believed, will be found much below that in Mississippi, South Carolina and Louisiana. The race problem in Cuba, it is clear, will never be as serious as many people have anticipated.

LAST week Judges Brown and Mestreat drew lots for seniority of commission as Judges of the Supreme Court, and Judge Brown drew the senior commission. This is the third time that the lot has been cast for seniority on the bench of the Supreme Court. It first occurred in 1874, when Paxson and Woodward were elected, and the senior fell to Paxson, the Republican Judge. Next, in 1888, Judge McCollum and Mitchell drew lots, and Judge McCollum, the Democrat, won. In the case of Judges Brown and Mestreat, the Republican won, the seniority appearing to alternate between the political parties.

THE HERALD acknowledges the receipt of a communication from a valued subscriber of forty years' standing, who seems to think that the grand old Republican party is going to the demerolion bow-wows because paid agents of a newspaper have discovered that a ballot-box was stuffed at the recent election in the city of Philadelphia.

The Herald also does not condone offenses against the ballot and that every sounder who has polluted, or who attempts to pollute the ballot, will speedily be detected and severely punished, but at the same time we are not blind to the fact that the system complained of in Philadelphia was built up under the regime of a discredited political boss, who now poses as one of the leaders of the select coterie of millionaires and politicians who are engaged in the work of destroying the Republican organization of Pennsylvania.

IN adopting the modern methods of warfare, the British are beginning to look alive, and have already caught up with Spain on one point. Judge General has decided to work the "reconcentrado" business on non-combatants.

He has issued an order requiring all males over twelve years old, living within a radius of twelve miles of a British camp, north of St. Petersburg, and outside of towns or villages, to either get beyond that radius, or form camps near the British camp, and there remain until further notice, under pain of arrest. To the Boers in such camp it is to be "hog, hog, or die," as they will be required to provide for themselves. It will be interesting to observe how effectively this order can be enforced. Should the British prove as successful as the Spaniards were in Cuba, they may reduce the number of non-combatants, through starvation, much more largely than they have been able to diminish the number of fighting Boers by the bullet.

Commissioners Refuse to Recognize a Clerk Elected by Their Predecessors.

MEMPHIS, Jan. 1.—The re-election of Charles F. Adams as Commissioner of the State of Tennessee for another term of three years, as the final act of the outgoing Commissioners, was taken up as a matter of contest by the new board members in to-day. The new Commissioners' first act was to elect William F. Phillips president of the board, and then they decided not to recognize Adams.

It is not likely the old board members will make much head over the turning down of their man, and if Adams wants the position he will first have to get the question in the course.

EXPECTS A VOTE ON QUAY.

Senator Ferrero Looks for it in Two Weeks.

WASHINGTON, D. C., Jan. 7.—Senator Ferrero said tonight he expected a vote on the Quay case in the Senate by the 15th of January. Of course, he expects the result will be favorable to Colonel Quay, although he does not give out the name of Senator Ferrero as a source of information. He says that a majority vote will be necessary to bring his expectations to realization.

He looks for a report on the case from the Committee on Privileges and Elections on Monday. He believes the discussion in the Senate will not be protracted. He concludes that it is probable the committee's report will be unfavorable to Colonel Quay, but "does not think this will have much, if any, effect on the Senator, whose findings of fact have less weight than they do in the House."

Colonel Quay is expected to return to Washington to-morrow from Pittsburg, where he has been in charge of the "The Best is the Cheapest."

WASHINGTON, Dec. 28.—The remains of the 143 victims of the Maine disaster brought from Havana by the battleship Texas were buried to-day with full military honors upon a knoll in Arlington cemetery. The exercises were in charge of Capt. Sigbee, now of the Texas, who was captain of the Maine on that fateful night when his ship was blown up in Havana harbor, two years ago. Admiral Dewey, Maj. Gen. Miles and his staff, and many other officers of the army and navy were present. Several troops of cavalry, a battalion of marines, and a detachment of sailors were drawn up about the knoll, which was the scene of the funeral services.

Despite the cold over 1,000 spectators witnessed the ceremonies. Simple Protestant and Roman Catholic funeral services were conducted by Chaplain Clark, of the naval academy, and Father Chadwick, chaplain of the Maine. A detachment of marines fired a salute for the dead and a bugler sounded "Taps." The ceremony lasted barely 20 minutes.

Among the sailors of the Texas present were Jeremiah Sibley, who had a miraculous escape on the night of the explosion, being blown out of the smoke hole. He was introduced to the president by Capt. Sigbee.

To Europe in Three Days.

NEW YORK, Dec. 28.—James Gresham, of Wall Street, has found a way to demonstrate the commercial value of his corkswear boat for which is anticipated a speed of 50 miles per hour. A syndicate of New York capitalists has agreed to furnish Gresham with the necessary capital on his plan with the understanding that if it demonstrates its ability to approximate the speed which the models have reached, the syndicate will furnish sufficient capital to build a boat. The inventor promises that his craft will cross the Atlantic in less than three days.

The vessel, the construction of which was arranged for at the Newport News ship yards, is an intended for passenger service not only for the convenience of mail and fast freight and for use at life saving stations. The boat is cylindrical in shape with a serpentine flange like a corkswear from bow to stern, and the outer shell revolves through the water, while the inner compartment maintains its equilibrium.

Four Burned to Death.

MILTON, W. Va., January 1.—Two miles west of here, in Cabell county, the country home of William Ellis was burned at the foot of the morning. Ellis had two children, boys, aged 8 and 12 years, were all burned to death.

The only member of the family who escaped death was a 15-year-old boy, who was awakened at the sound of a fire alarm and ran into the house, jumping from an upstairs window. The little fellow then ran a mile through the snow, clad only in his night clothes, to give the alarm to his neighbors. His body was badly burned.

Many of the neighbors hurried to the scene, but the house was in smoking ruins, and a search brought to light the remains of the family. The bodies had only been smothered to death and died in their beds.

Nearer Killing than Going.

NEW CASTLE, Pa., Dec. 31.—Mrs. John Mrozek, of West Reynolds, is lying in a serious condition as the result of an attack of one of her lungs, which she has of a sprained ankle. Mrs. Mrozek and her husband are Austrians and keep 14 boarders. Several days ago she sprained her ankle and had to go to bed. One of the boarders who professed to know something about "doctoring" said that the smoke of gunpowder would cure the sprain. He placed three-fourths of a pound of powder on a pan near the bed and asked Mrs. Mrozek to put her ankle over it. Before applying the powder, he called in the whole 14 boarders to witness the cure. They formed a circle around the pan and the match was applied. Instantly there was an explosion, and the boarders fled in confusion. Mrs. Mrozek was saved from being burned alive.

All tried out—no good didn't use him up.

Now he comes home with an aching back, and he has already caught up with Spain on one point. Judge General has decided to work the "reconcentrado" business on non-combatants.

He has issued an order requiring all males over twelve years old, living within a radius of twelve miles of a British camp, north of St. Petersburg, and outside of towns or villages, to either get beyond that radius, or form camps near the British camp, and there remain until further notice, under pain of arrest. To the Boers in such camp it is to be "hog, hog, or die," as they will be required to provide for themselves. It will be interesting to observe how effectively this order can be enforced. Should the British prove as successful as the Spaniards were in Cuba, they may reduce the number of non-combatants, through starvation, much more largely than they have been able to diminish the number of fighting Boers by the bullet.

It is not likely the old board members will make much head over the turning down of their man, and if Adams wants the position he will first have to get the question in the course.

MORE INSURGENT

SCANDALOUS UPS AND DOWNS

David Martin's Stronghold, the Tax Office, Now Under Fire.

ANTI-QUAY MAN INVOLVED.

Timely Comment Upon Attempts to Make Fractional Capital Out of Election Cases in the Quaker City.

Philadelphia, Jan. 2.—The old adage about people living in glass houses comes to mind in the latest scandal that is attached to what is known as the insurgent outfit in Pennsylvania politics.

Now the Martin camp in this city is invaded and there is a popular clamor for an investigation of the tax office, which has been for years a political stronghold of David Martin, the now chairman of the executive committee of the insurgent organization, which is fighting the leaders of the regular Republican organization. While the tax office is under fire, the other members of the same stripe have been maligning Colonel Quay, Governor Stone and other mainstays of the Republican party, and their attacks have been so successful that they have been able to get out of the tax office and their respective jobs to themselves and their respective families.

They said my trouble was caused from weakness and was nothing to worry about. I felt tired all the time; had no ambition. I was growing worse all the time until I began the use of Lydia E. Pinkham's Vegetable Compound. I was troubled with flowing spells which made me very weak. I had two of the best doctors, but they did not seem to help me.

Mrs. Pinkham's Letter to Every Wife and Mother.

(LETTER TO MRS. PINKHAM NO. 14,543)

"I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound with great results. I had been married four years and had two children. I was all run down, had falling of womb with all its distressing symptoms. I had doctored with a good physician, but derived very little good from his treatment. After taking a few bottles of your medicine, I was able to do my work and nurse my seven-months-old babe. I recommend your medicine to every wife and mother. Had I time, I could write much more in its praise. I did you God's speed in your good work."—Mrs. L. A. MOURA, WELLS, PITTSBURG, O., Pa.

"DEAR MRS. PINKHAM—When I commenced the use of your remedies I was very weak and nervous. I was troubled with flowing spells which made me very weak. I had two of the best doctors, but they did not seem to help me.

"I said my trouble was caused from weakness and was nothing to worry about. I felt tired all the time; had no ambition. I was growing worse all the time until I began the use of Lydia E. Pinkham's Vegetable Compound. I was troubled with flowing spells which made me very weak. I had two of the best doctors, but they did not seem to help me.
