Philadelphia, Jan. 9.—The friends of enator Quay scored a signal victory at the Republican primaries held here to day. Porter, had come out squarely in favor of Colonal Quay, and had declared his purpose to co-operate with the friends of the regular Republican organization in both the city and the state. When it is recalled that Scuator Porter was a full political partner of David Martin in what was known as the Martin-Porter combine, and shared with Martin an equal responsibility in the management of the organization which brought about the election of Warwield as mayor when Penrose was over thrown at the last hour, the sign!? cance of this desertion from the insurgent cause can be better appreciated. This has left Martin with little more than the Wannmaker bargain counter advertising controlled-newspapers, the Wanamaker contributions to the insurgent campaign fund, and the on tronage in the tax office, over which still officiates, as he is serving out his

ities, the capture of the Republican city campaign committee by the friends of Colonel Quay is the most significant outcome of today's primaries This has been Martin's stronghold for several years. Through control of this committee he has managed to overturn and reorganize wards and district which, upon a poular vote, would be overwhelmingly against his lieutenants residing therein. Of course, this made no difference, for no matter what the returns of the primaries were, the Martin men would be seated in the city committee, and their delegates to city and state conventions would be recog nized and the others would be pu upon the "sliding board," as the Mar in heelers designated the bouncing apparatus of the combine machine. But things will be different henceforth. Heretofore a Martin man, as treasurer of the Republican city committee, received all the campaign con tributions of the thousands of office holders employed in the various city departments, and these monies were distributed through Martin men in the various election precincts of the city

This gave an immense leverage to the Martin machine at the primary elections, as well as at the general elec-QUAY MAN FOR TREASURER. The treasurer of the new city comttee is to be Colonel Thomas J. Powers, who was appointed by Governor Stone to be banking commission er of Pennsylvania. Colonel Powers has co-operated politically with the

friends of Colonel Quay for the last 15 years. He was appointed naval officer of this port through Colonel Quay's influence during the Harrison administration. Friends of Colonel Quay will be elected to the Republican city committee from all but about half a dozen of

the 41 wards in this city. Next to the capture of the Republican city committee the most important result of the primaries, from a local point of view, is the election of mem 35c a yard for 65 inch Cream Table bers of both branches of councils, who will co-operate with the Ashbridge administration for the balance of the term of the present mayor. Hereto fore councils were dominated by the Cream Table Damasks, regular Martin-Porter combine, but now Martin is no longer a factor. of the cutcome of the election of dis-

trict national delegates. Philadelphia expects to have the naming of two of the eight delegates-at-large to the naional convention, and the leaders of the local organization have agreed upon James Elverson, publisher of the

Philade chia Inquirer, and former Sentor Charles A. Porter for delegates at-large. As the supporters of the state organization will tomorrow elect the delegates from all but two, and possibly one, of the 27 legislative dis tricts, to the Republican state convenion, the change in local political condiions will thus be quite pronounced.
