LOCAL AND MISCELLANEOUS.

Notice.

All persons knowing themselves indebted to me, will call and settle any time before March 1st next, after which my accounts will be collected according to law.

Notice.

The poor tax for this borough is now due. All said tax not paid on or before the 31st day of March next, will be collected according to law.

Notice.

We notice that they have a very small board depot at Hickory at present. We suppose the K. R. Co. will soon erect a suitable one.

Notice.

S. J. Setley, County Treasurer, departed for Pittsburgh, for a short visit, on Monday. We wish him a pleasant time, and a speedy return.

Notice.

Several elderly ladies, former residents of this place, have been since the dedication, visiting about here. A succession of tea-parties is the result.

Notice.

We notice B. Dobbs, of Philadelphia, in town this week. We are under obligations to him for a number of subscribers he has procured for us in Philadelphia.

Notice.

Hon. Wm. A. Wallace, Senate, and Hon. Jno. G. Hall, H. R., will please accept our thanks for State documents and papers received during the past week.

Notice.

The river is now in splendid condition to cross by the ferry boat, and as a consequence, we suppose that the bridge question will lie dormant until next winter.

Notice.

D. Hays is putting up a hot-bed in the vacant lot east of the Savings Bank. We suppose hereafter we shall not be under the necessity of sending off for tomato and cabbage plants, and such.

Notice.

John W. Stroup tells us that there was another "serape" in town the other night, but declined giving us particulars. We suppose he knows all about it, and those who feel curious in regard to it can ask him for information.

Notice.

Spring fever is expected to have a run in our place soon, if pleasant weather continues. Several persons are particularly liable to accumulate the epidemic, around here, and we seek for a sovereign balm.

Notice.

After our paper was issued last week, a letter was received from Rev. Elder, saying that he could not be present to preach last Sunday, but would be here on next Sunday, March 5th. He is an excellent preacher, and a good turnout is desired.

Accident.

On Tuesday of last week an accident occurred in our place, under the following circumstances: Alex. Henage, a painter living in town, being apprehensive of a raid upon his premises, had procured a revolver, and kept it in his bed, between the ticks, under his head. A little son of his noticed the weapon when Mrs. Henage was making up the bed, and after she had gone out of the room, the little boy, who is about four years old, possessed himself of the revolver, and he and his little sister, aged three, were playing with it. By some means the weapon was discharged, the ball entering the little girl's right leg, on the outside, near the thigh, struck the bone, and followed it around, about half way, and remained imbedded in the flesh. Drs. Winans and Hunter extracted the ball, and the little patient is doing well. We were shown the ball, which is conical in shape, and is badly battered. Persons who have children around cannot place their firearms too far out of their reach.

It is with a degree of pain that we are again compelled to chronicle the occurrence of a six-handed "ruction," which came off in our place on Saturday evening last. Blood, dust, hair, and teeth flew in every direction. One side got whipped while the other came off victorious. No arrests were made. We have known of several fights, and have given them to the shuddering public in doses of two or three an issue for some time, and have not heard of a single instance of any one having to pay for the privilege of punching other people's mugs. If our friends should hear of our face being "illustrated by cuts," they must not attribute it to any pugnacious tendency of our disposition, but remember that it is merely the custom of the time and place wherein we exist.

We went to Fagundas one day last week in company with a friend. We had a very tedious walk up the hill, no hacks being at the train, and our time being limited, we did not have much of a chance to pick up locals. We accumulated several subscribers, and a correspondent, who will favor us with a letter next week. We understand that the largest well there is on what is called the "Wilkins tract" on the territory which is the subject of litigation. An oil man informed us that the daily production there at present is about 1,600 barrels.

We were terribly shocked the other day, by four men, who, out of respect to their families we will not name, who walked into our office and not only paid up all arrearages, but each paid for their paper up to a year from next April. We immediately took a trip to Fagundas. Our feelings were so hilarious that we were afraid to stay in town for fear Sheriff Davis would come that little "cell" of his on us. We have recovered now, and are fully prepared to take a number of other subscriptions in advance without any undue excitement.

Our musical friends will do well to examine Peter's Musical Monthly, a magazine, published by Peters, the New York Music Publisher, three dollars a year. It is issued on the 15th of every month, and contains in each number thirty-six pages of the latest and best music, printed from full size music plates. Send thirty cents for a sample copy, and our word for it, you will never regret it. Address, J. L. Peters, 599 Broadway New York, P. O. Box, 5429.

Protracted meetings have been going on every evening since the dedication of the M. E. Church. We believe some have been converted, and hopes are entertained that a general revival of religion will take place here. The meetings will probably be continued throughout this week.

Now that spring is approaching and the mud becoming visible to the naked eye, we can discover about four rods of space in town which would be improved by a good plank walk. We have a good deal of sidewalk in town, but while we are at it we might as well make a clean thing of it.

We call attention to the new advertisement of Booth & Sargent, to be found in another column. We have been acquainted with both members of the firm for a number of years, and can conscientiously recommend them to our readers who wish anything in their line.

The old well near Hunter's mill, across the river from this place, is being tested, but with what indications we are unable to learn. We hear, however, that it is to be torpedoed, consequently, the operators cannot be getting as much as they want.

Court is in session this week.

As it is not a jury court it is not as well attended as our regular terms are. We notice a number of our subscribers in, and would give their names, only we are afraid we might miss some, which might be considered a slight.

Pittsburgh Female College.

The present term of the Pittsburgh Female College will close on Thursday, March 16th, and the spring term commence on the morning of the 21st. We have often commended the College to our readers, and can assure them that the institution was never more worthy their patronage than at the present. Every year has witnessed some substantial improvements. The buildings, one hundred and fifty-eight feet in length, are fitted up and furnished in good style, and carpeted throughout. The faculty has gradually increased until it now numbers twenty-two. There are four teachers of music, native teachers of French, German, and special teachers for the departments of drawing and painting, needlework, &c., in addition to a full corps of teachers in the literary department. As a result of these things the college offers advantages and facilities which but few institutions can give and at rates which prove that the Trustees are impelled by higher considerations than the hope of gain. Those having the management earnestly invite all persons interested to call and make themselves acquainted with the accommodations and facilities afforded, and to be present at the daily recitations and the examinations at the close of the term. Send to the President, Rev. I. C. Pershing D. D., for a catalogue.—Pittsburgh Gazette.

ADDRESS To the Nervous AND DEBILITATED.

WHOSE sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable; If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or frothy, or is itropy on setting? Or does it thick skum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, or life? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint?

Now, reader, self-abuse, venereal diseases, badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the general system so much as to produce almost every other disease—idiotcy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.

Helmbold's Extract Buchu, established upward of 19 years, prepared by H. T. HELMBOLD, Druggist, 594 Broadway, New York, and 104 South 10th Street, Philadelphia, Pa. Price—\$1.25 per bottle or 6 bottles for \$6.50, delivered to any address. Sold by all Druggists everywhere.

NONE ARE GENUINE UNLESS DONE UP IN STEEL ENGRAVED Wrapper, fac-simile of my Chemical Warfare, and signed H. T. HELMBOLD. 38-1 v
