

This number begins the fourth volume of this paper. We have no superfluous ink to waste on complimenting ourselves or our readers on the event, but are content to leave the judgement of whether the REPUBLICAN has been a success or not, with our subscribers. If a welcome visitor it will probably be welcomed for years to come; if not, it will continue to bore the people of Forest county, at least as long as we shall continue to have an existence, which we hope will be for some years to come. We feel encouraged to proceed, and shall do so, hoping that it will be read with as much interest as our labor on it deserves. Wishing our readers a prosperous year, as we expect to have, we go to press.

The Crawford County system of making nominations has been adopted by the Republican Executive Committee of Pittsburgh, and candidates for city officers will be chosen under the system.

Some of the old editors of the country, regular old fogies, who are near sighted, are trying to make the ladies believe that wearing low-necked dresses produces sore throat. It's all a humbug, gotten up by those old fogies who can't see.—Ed.

We are not near sighted, nor yet so old that we can't see, but we can see enough of a lady if she wears dresses that come clear up and fasten close around the throat. If the ladies can brave the biting frosts and cutting winds of winter, with the neck and shoulders entirely bare, why, they're tough, that's all we have to say.

We take the following from the Rising Sun, published at Emletton: On Saturday night last the Drug Store of J. Grosser, also used as an Express Office, was entered by burglars who succeeded in extracting \$25 from an express package. The building was entered from the front door by means of a false skeleton key. No arrests have been made but we think that it would be a great deal more safe for one or two individuals not to be caught in the vicinity when anything of the kind happens after this, if they should be lucky enough to miss an arrest this time.

Rev. Virtue has so far recovered as to be able to be about, but we have not yet seen him on the street.

There are now in course of erection in this borough several dwelling houses and stores. There is room for improvement.

The following from the Warren Mail:

Henry D. Grunder, one of the early German settlers in this county, died at the residence of his son, John Grunder, in Pleasant township, on the 20th of March, aged 75 years. He was a native of Bavaria. In 1817 he came to this country landing at Philadelphia. In 1832 he removed to this place, where he was well known and highly respected for his earnestness, honesty and sincere piety. A good man has gone to his reward.

We hear that the First National Bank of Warren proposes to erect a new bank building the coming season in connection with the new brick building to be built by Mr. Burgess, directly opposite our office. Then plan is to make it a fine structure, with a secure vault, fine finish, and all the modern improvements and safeguards for that kind of business. This institution needs such a building and we hope the plan may be fully carried out.

The Charity Concert last Wednesday evening was a gratifying success. A large audience assembled and seemed pleased with the playing and singing under the direction of Held. The singing by the Sengerbund, Misses Stella Mann and Anna Menke, was loudly enjoyed and especially complimented.

We clip the following from the Titusville Herald:

PITHOLE AND VICINITY.—Pithole now promises to be the grand centre of attraction for oil operators the coming summer, and what with the completion of the many wells now going down in that vicinity, and the extension of the Pithole Valley railroad to Shamburg, Pleasantville, Enterprise and Titusville, we may expect the old "oil dorado" to blossom like a monthly rose, if not so finely perfumed.

The Rooker farm, lying to the southeast of the former site of Prather City, was sold a few days since for \$105,000 to Messrs. Phillips Bros., and the bluffs are fairly bristling with derricks already up or being constructed. The sand rock in this locality is fully as thick as that of the "flats" which were so productive a few years since. This farm contains 90 acres.

The Haskell well No. 1 is doing about 80 barrels daily yet, while Haskell No. 2, struck a few days and pumping at the rate of about 30 barrels daily, started up yesterday and is now doing 100 barrels daily.

There are now three of the nicest producing wells in the region in the vicinity of Pithole and more coming. About four o'clock yesterday after-

noon, a youth of fourteen years named John Myers, entered Mr. C. W. Mead's jewelry store, 31 Spring street, for the purpose of obtaining a watch worth about \$8, which he had left there for repairs. He refused to pay for repair the watch and it was consequently returned to the case. Myers hung about the store, and managed while no one was looking to take a gold watch valued at \$65 from the counter and put it in his boot. Mr. Mead missed the watch almost immediately, and upon searching the youth the watch was found on his person. He was taken before Justice Clark and committed.

That bright star to be seen in the west every clear evening shortly after sunset is Jupiter. It rises about three points above the tall barn on Kerr's hill, and sets two degrees north of the horizon attached to the same. Venus is slashing around somewhere in the cerulean with "Orion the Gold Bearer," (by Sylvanus Cobb), and Mars is making the "Great Bear" dust around the North pole. Prof. Hendrickson of Dunbar College, has recently discovered that the inner ring of Saturn has disappeared, and the bottom of the Dipper has also dropped out.

The report that Chief of Police Rouse makes each prisoner take a solemn oath not to break out of the city lock-up, when he locks him in, is false. There is also no truth in the assertion that they take the boots off from the law breakers, so that they cannot kick the walls out of the cells.

There was an "affair of honor" at McClintockville the other day. The seconds were on the ground, but the principals failed to come to time, and the duel fell through.

Twenty-three new wells are going down on the McGuire farm, Church Run. Some of them will be ready for testing in a few days. The indications are good.

We take the following from the Greenville Argus:

A man by the name of David Bates, living on Curtis Hill, in Sharon, was seen drop on the pavement in front of Dr. Barber's office about twelve o'clock on the 24th ult. He was immediately carried into the office, but was dead before anything could be done for him. He is supposed to have died from heart disease.

William Jackson, of Worth-twp., this county, has a cat, which a few days ago attacked and actually killed two sheep belonging to William Smith, and wounded a third. This is the first time we ever heard of a domesticated cat killing sheep.

About two o'clock Saturday afternoon a young man named Oliver McCounell fell from a coal train running from the Bethel Coal Banks to Middlesex, and was fatally injured. Several loaded cars passed over him cutting both his legs entirely off, one above and the other below the knee. His head and other portions of his body were badly mangled. He died at four o'clock.

On Monday of last week, a little boy named David Horton, aged ten years, a grandson of Mr. Levi Slater, formerly of Albion, Erie Co., while with Mr. Slater in Briggs & Lane's car factory, at Irwinsburg, Warren county, backed up against a circular saw, cutting him almost in two, and causing instant death.

We clip the following from the Petroleum Centre Record:

A despatch received Tuesday morning from Pithole says the Haskell & Rhodes well No. 2, Rooker farm, has increased its production to 160 barrels daily. It had been doing between fifty and sixty barrels.

On complaint of a woman that he had insulted her, Mr. J. B. Fetterer, of Roseville, was ejected from the 3:30 train going north, at this place, yesterday afternoon, by the conductor and brakeman, and hauled, in a rather rough manner, his coat being torn completely off his back. While we are not prepared to speak of the truth of the case, so far as the alleged insult is concerned, from a long acquaintance with Mr. Fetterer, we do not believe him capable of descending so low as to offer an insult to any one, much less a lady. The affair will probably end in a lawsuit.

From Mr. Owen Gaffney, we learn that his liquor store, Washington street, was broken into about half-past 11 o'clock last night. The thieves entered the building by breaking in the back door. On getting in they broke the lock of the desk containing the money drawer, but failed to secure the anticipated pile of greenbacks, as Mr. Gaffney had removed his money the night before. The rascals then left, taking with them four boxes of valuable cigars. This morning the cigars were found in the possession of J. R. Taylor and "Slip" Lewis, hailing from Buffalo, N. Y., and restored to the owner. The two men immediately left for parts unknown. Such are the facts of the robbery as we learn them from Mr. Gaffney.

Mr. Wm. Gaily, an unfortunate man who was caught in the sand rope coil, while at work on the Columbia farm, on Friday last, is slowly recovering. His leg was broken in three places, once at the ankle, and twice a short distance above that. Had he been caught in the cable he would have been instantly killed.—Veauquo Citizen.

It is reported that the Harpers have suffered to the extent of \$40,000 for Nast's caricatures of the pope—all school books they publish having been taken off the list used in the New York public schools.

—We take the following from the Corry Republican:

James M. Bunn, Esq., special D. G. W. T., Thursday instituted a Temple of Honor in this City. The organization is called Corry Temple No. 35. The time of meeting has been fixed on Tuesday evenings, and the place Good Templars Hall for the present. The present officers are, E. G. Manly, W. C. T., I. B. Potter, P. W. C. T., R. L. Lunt, W. V. T., Rev. J. Leslie, W. Chaplain, N. P. Kilburn, W. R. A. M. Martia, W. F. R., M. Cameron, W. T., J. T. Aughenbaugh, W. U.

The Temple starts out under good auspices and the indications are that it will wield a power for the temperance cause.

The alarm of fire was given at about 9 o'clock on Saturday night. The cause was the burning of a frame barn on Centre street, near Hare Creek. The barn was the property of W. B. Lowe, of Watsburg, and was entirely consumed. Loss, about three hundred dollars—no insurance. Some seventy-five dollars worth of door and blinds, stored in the loft, were also burned. The fire companies were promptly on hand with their apparatus, but the flames enveloped the entire building almost instantly, and had its own way. The fire was unquestionably the work of an incendiary, and the cause that prompted the firing of the building doubtless pure cupidness. There is a clue to the perpetrator that may lead to his detection, and in case he is discovered we trust the full panoply of the law will be meted out to him.

A little after twelve Tuesday night, the alarm of fire was given. A dwelling house, on the south side of Smith street, owned by Philip Megher, was discovered to be on fire. The building was a two story one with a wing and was entirely consumed. The house had been vacant for about ten days, and the fire, from all appearances, was the work of an incendiary. The value of the building was about \$800—insured with Hollister Davis & Co., in the Aetna for \$500. The Hook and Ladder apparatus and one of the hose carts reached the fire, but as there was no opportunity for saving anything, the engine was not brought to the ground.

Oil News.

Intense excitement is raging concerning oil lands in Cranberry township, nearly opposite Reno. Three wells are about completed in that vicinity, and the prospect that they will prove large producing wells is very flattering.

One of these wells, on the John Milton farm, owned by McDonald, Hefferman Findley and Simon, of Oil City, is now being tested. This well, known as the "Mollie well," was drilled by Peter Nolan, an experienced operator, and is 907 feet deep, with thirty feet of sand equal in quality to any found in the oil region. The company owning the well have a lease of thirty acres, all of which they propose developing at once.

This well is southeast from Reno, near the Bredin and Milton wells, and has a heavier sand rock and on the belief that the territory still further east would prove more productive, some parties, on Tuesday, leased twenty acres adjoining the leases on which the well is located, paying therefor one half the oil and \$20 bonus per acre.

A large amount of land has been purchased and leased in this vicinity, and Messrs. McMullen, Patterson and Dickey, of Petroleum Centre, and Messrs. Irwin & Baum, of Franklin, are the largest holders.

The prospects are very flattering that this territory will prove productive.

A well owned by West, Forley and others, located on the Baum tract, Patchell Run, commenced pumping last Friday, and is yielding 20 barrels per day, heavy oil.

The Rooker farm, lying to the southeast of the former site of Prather City, near Pithole, was sold a few days since for \$105,000, to the Phillips Bros., and the bluffs are fairly bristling with derricks already up or being constructed. The sand rock in this locality is fully as thick as that of the flats which were so productive a few years since. This farm contains ninety acres.

James well, No. 2, one of the largest flowing wells on Armstrong Run took fire on Saturday morning and burned till ten o'clock. The fire extended to Mildren Reserve well, consuming eleven tanks, of 6,000 barrels capacity. Mildren well was flowing 200 barrels; the loss of oil cannot be estimated at present.

Well No. 2, Phillips Bros. Lease, Rooker farm, Pithole, commenced to pump oil at midnight Saturday starting off at the rate of fifteen barrels per day, with prospects of increasing. Entire depth of well 890 feet; fourth sand about sixteen feet deeper, and of excellent quality; the well has a large supply of gas. No. 1 same lease, holds on at about eighty barrels per day.

A well on the McMullen farm, Scrubgrass, owned by Buchanan & Young, commenced pumping on Saturday last, and is pronounced a sixty barrel well.—Veauquo Citizen.

In Towanda, in this State, one Ward invited his friend Shadr to dine with him, and then did gently chide him with a revolver. He is not expected to find his reward in Heaven.

A gentlemanly and urbane citizen of Cedar Rapids, while chastising his wife with an ax, was shot by a neighbor attracted by her cries of "murder." Some folks are always interfering.

—We clip the following items from the Tidouote Journal:

On Wednesday afternoon last a lively row occurred on Depot street, resulting in bloody noses and sore heads. The participants in the scrimmage were promptly arrested by Officer Webb, and taken before Justice Morrison, who dealt with them according to the statute in such cases made and provided. A woman was the main cause of the "unpleasantness," and whisky was the moving power.

On Monday last, in the bar-room of the Empire House, a man, while playing with a knife, accidentally stabbed himself in the leg, inflicting quite a serious injury. Dr. Bolard was promptly in attendance.

What a Traveler Thinks of the Erie Road.

To the Editor of the Sun: Sir: The simple justice which ever characterizes your straightforward paper is not more apparent in anything than in its references to matters concerning the Erie Road. Having passed over a portion of its length recently, I took particular care to notice the manner in which officials and employees discharged their duty, the condition of track and rolling stock, system of night signals, running regulations, &c., and I can only say, that all that human care and foresight can accomplish to attain absolute safety, is done. I had no predilections for the road or any of its officers; but I must say I was charmed, and cannot now wonder that, with its broad gauge, quick time, smooth track, and elegant coaches, it is rapidly becoming the favorite line, as the increased facilities required for passenger traffic plainly show. It is time that falsehood and misrepresentation should be rebuked, and the truth known. Let the people know where their wishes are consulted, and they will not be long in showing their appreciation of it. LEVER.
