

The Forest Republican.

TUESDAY MORNING, APRIL 11.

BOROUGH OFFICERS.

Burgess—H. H. MAY. Councilmen—Jacob Shriver, J. R. Stroup, W. W. Dimond, S. H. Haslet, J. Winans, Justices of the Peace—W. P. Merrell, D. N. Knox.

FOREST COUNTY OFFICERS.

President Judge—JAMES CAMPBELL. Associate Judges—J. A. PROFFER, ANTHONY COOK. Sheriff—E. L. DAVIS. District Attorney—W. W. MASON.

O. C. & A. R. R. TIME TABLE.

Table with columns for GOING NORTH and GOING SOUTH, listing arrival and departure times for various stations.

LOCAL AND MISCELLANEOUS.

P. D. Thomas cut two of the fingers of his right hand very badly in a cutting box last week.

The roads now are in excellent condition about here and probably will be until the next rain.

Mrs. J. W. Stroup, whom we chronicled as being quite ill, two weeks ago is now getting along finely.

Mary Jane Chartus poisoned herself with morphine on Thursday evening last, cause jealousy. She was a prostitute, and aged 24 years.

Miss Sue May, the Misses Hunter, and Bessie May started back to the Beaver Seminary yesterday. Miss Clara Hunter graduates this term.

A few timber rafts passed out of the creek last week, but the river is too low for a good run down, at present. Lumbermen are praying for a rise.

Some of our youngsters evidently mistook yesterday for the 4th of July, as they were firing pistols for quite a time without any visible irritation.

J. R. Stroup has been trimming the apple trees of some of our people this week and part of last. He seems to understand his business in that direction.

Buller has at length got his new cement market almost completed, and we expect sometime to have meat in such quantities that we will have to eat about four times a day.

W. W. Dimond gave us a rocking chair last Sunday. We commenced to rock, and the chair "gin out." It was a stout looking chair, and we don't believe it has had fair play.

Thus far we have had the quietest spring and the most orderly rafting season that we remember of. We heard of very little drunkenness, and no fights. It must be that the Millennium is approaching.

Tanning business is so good now as to make it quite difficult to obtain a team, except you speak for it a day or two beforehand. Plowing, hauling goods and lumber, &c., has not been as general for some time.

Snakes have been killed this spring, and we suppose the rattles of the poisonous ones will soon be brought in. These rattles will be fashionable for cardpans in this section during the coming summer.

Gardening is brisk just at present. Everyone having a piece of ground the size of two graves or larger, is tilling it preparatory to planting. At present writing the weather looks very favorable for good crops.

A committee has been appointed by the M. E. Church to raise money for missionary purposes. If our citizens have not all been called upon before this time they will probably be interviewed during this week.

The Grove & Wolcott well on the Sowers Farm, was down 600 feet on Saturday evening last, and was still going down rapidly. We will soon know whether this territory is to be a success, as far as one well can test it.

Several of our exchanges having been blowing about some large hens eggs that they have been looking at this spring. We were shown an egg by J. Wenk, which was 7 1/2 inches in circumference one way, and 9 inches the other. It was a goose egg.

J. G. Dale, S. J. Wolcott, Dr. Hunter and others of our citizens are preparing to give their residences a fresh coat of paint during this week. The example will probably be followed by several more of our property owners.

The school exhibition, held at Forest Hall on Friday evening of last week is said to have been a perfect success. We were unable to be present ourself, but had our reporter there, and of course are prepared to tell all about it. There was not a failure in the whole exhibition, and to go through the whole programme would occupy too much of our space, and probably exhaust all our adjectives. The performances that were best appreciated were, the Charade, "Champagne," The School, Prof. Weber's song, "Jhon Schmidt," J. P. Siggins song, "Dear-est May," The paper by Prof. A. C. Porter, entitled "The Morning Star" and the instrumental music. All the performances were good and well received, but the ones spoken of above, we hear talked of the most, and therefore conclude they were the best. "The Morning Star," contained several good hints at the young folks of our town, and we suppose we may congratulate ourself that it is not to be issued regularly, or it might interfere somewhat our circulation. The receipts almost paid the expenses attendant upon the performance, but as the admission fee was very small, that is saying a good deal for the size of the audience. We hope to see similar exhibitions hereafter.

On Thursday evening of last week, our town was thrown into a state of violent excitement by a report that a man called "Whiskey," living on Judge Propper's farm, on Dutch Hill, one mile from town, had killed his baby, and severely stabbed his wife. As he had been in the habit of beating his wife when he was under the influence of liquor, and was under said influence whenever he could raise the liquor, the story was generally credited. We saw the woman and child the same evening; the child was unhurt, and the women was scratched about the neck and hands and had evidently been pretty severely choked. So the murder and stabbing business faded from our view, and left us to think what a pity it was that the originator of the report, was not known to some of our sensational dailies. Certainly his talents are not properly appreciated about here.

On Friday evening last our Coroner was called out in a hurry by the report that a drowned man was lying at, or near the head of Dustin's Island, in the river. The Dr. loaded himself in a skiff and proceeded to the island, when instead of a drowned man, the object that caused the excitement was found to be a cow's paunch. The Dr. returned to town, a sadder and, on account of his discovery, a wiser man. He says he has seen men who sported a good deal of paunch, but he never saw one, drowned or otherwise that was all paunch.

H. L. Hogan, is to leave our county and settle in Titusville, where he will open a livery stable for the accommodation of the public. We feel like recommending him to Titusville people, and will warrant them that they will find him all right. Mr. Hogan will have a venue of all his personal property on Thursday of this week, at his residence on Allender Run, Harmony Township. This will be a good opportunity for some of our farmers to "stock up."

We see croquet is being patronized some in this section. The juvenile play it principally, as yet. It will soon be time for the older ones to take a hand. And this reminds us, that no efforts have been made this year to get up a Base Ball Club. Now as an organization of this kind is supposed to be necessary to the peace and good will toward men, of a village, we hope soon to see a move in this direction.

A paper can be seen and signed by ablebodied men, at Capt. Knox's Store, for the purpose of organizing a Militia Company under the State laws. We notice quite a number of volunteers on the list, and suppose the company is a sure thing. The pay by the State is \$12 per year, and the Soldiers pay no Militia tax. Those who wish to join had better do it soon, as the company will soon be full.

We hear of parties meandering along our streams, but have but one ocular demonstration of their success. The weather is very favorable for fishers, and if the fish don't bite it is their own fault. Our Jake has caught the biggest string we have heard of this year, consisting of sixty pretty fair-sized trout. If any one catches a big string let us hear of it.

Hilbrunner & Co., have got on their tailor from Philadelphia, and their tailoring business is very brisk, and will probably keep the man very busy during the season. He is said to be one of the best cutters in the State. We advise all our readers who are in need of any thing in the clothing line to try Hilbrunners. They will fit you or die in the attempt.

Anybody wanting a fine Chromo, equal to an Oil painting, can have one by getting 16 subscribers for the illustrated newspaper called the "People's Weekly." The subscription price is 50 cents a year. Samples of the paper and the Premium Chromo can be seen at our office.

R. C. Stephenson and the Fleming Boys, are putting up a rig on Jamison Hill, and calculate to be ready to commence work about Thursday of this week. This territory is supposed to contain oil in large quantities and only needs development.

Judge Coon favored us with a call Thursday last, and as is generally the case when he calls, left some money with us. Our creditors needn't congratulate themselves on this event, however, as we have got rid of the currency long ago.

Communication.

ED. FOREST REPUBLICAN:—Our friends met on Tuesday evening 4th inst., at the Good Templar's Hall, in this place, and after spending the time very pleasantly, and enjoying a very excellent supper of their own providing, departed, leaving us the richer by \$85. There has been some talk about the Stewards charging the same on my salary, but let me here remark that no Steward has ever suggested the like to me. The suggestion was my own, and I submit to the wish of my friends in this matter.

All donors have our warmest thanks. S. S. BURTON.

Public Sale.

Having decided to quit the livery business, I will expose to public sale, on TUESDAY, MAY 2d, my immense stock of Horses, Wagons, Sleds, Buggies, Sleighs, Harness, Saddles, Bridles, &c., at my stables, in Tionesta Boro. Will be sold on time with approved security, or for cash, if the buyer has more than he needs. This is a rare chance for any one wishing to go into the livery business, and Tionesta a good point. Be on hand on the 2d of May, and secure good bargains.

D. HAYS.

To Nebraska, California, and Kansas, and the B. & M. R. R. Lands.

The "Burlington Route," so called, lies, right in the path of the Star of Empire. It runs almost immediately in the center of the great westward movement of emigration. Crossing Illinois and Iowa, it strikes the Missouri river at three points.

These three points are the gateways into three great sections of the trans-Missouri region. The Northern gate is Omaha, where the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer.

The middle gate is Plattsmouth, which opens upon the south half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agriculture and grazing. Just here are the B. & M. Railroad lands, concerning which Geo. S. Harris, the land officer at Burlington, Iowa, can give you all information, and in the heart of them is Lincoln, the State Capital and present terminus of the road.

The Southern gate leads to Kansas, by connections with the St. Joe Road at Hamburg, running direct to St. Joe and Kansas City.

The trains of the Burlington run smoothly and safely, and make all connections. It runs the best of coaches, Pullman Palace and Pullman Dining cars, and should you take the journey for the journey's sake alone, you will be repaid; or take it to find a home or a farm, and you cannot find either better than among the B. & M. lands, where you can buy on ten years' credit, and at a low price.

CARPENTERS, Blacksmiths, Saw mill men, Oil men, and other citizens of Forest county, who are in want of anything in the Hardware line, should go to Andrews & Co., Tidioute. They have the largest stock in this section of the country. They are making and repairing all kinds of Machinery and Saw mill castings at short notice 4-4f.

A. H. STEELE, Cashier Tionesta Savings Bank, has been appointed agent for the celebrated "Inman Line Ocean Steamers," at this place. Any person desirous of going to Europe or bringing friends to this country, will do well to call on Mr. Steele, who will furnish them with all the information required.

M. P. Jenks, Jeweller, Meadville, Pa., is selling Watches, Jewelry, Chains, Diamonds, &c., at 20 per cent. below marked prices. Several of our citizens have patronized him, and find him "square." Give him a call. His establishment is on the corner of Water and Chestnut Sts., in Cullum block.

Newspaper Laws. We would call the special attention of Post Masters and subscribers to the FOREST REPUBLICAN to the following synopsis of the Newspaper laws:

1. A Postmaster is required to give notice by letter, (returning a paper does not answer the law), when a subscriber does not take his paper out of the office, and state the reason for its not being taken.—Neglecting to do so makes the Postmaster responsible to the publisher for the payment.

2. Any person who takes a paper from the Post office, whether directed to his name or another, or whether he has subscribed or not, is responsible for the paper.

3. If a person orders his paper discontinued, he must pay all arrearages, or the publisher may continue to send it until payment is made, and collect.

4. If the subscriber orders his paper to be stopped at a certain time, and the publisher continues to send, the subscriber is bound to pay for it if he takes it out of the Post Office. The law proceeds upon the ground that a man must pay for what he uses.

The courts have decided that refusing to take newspapers and periodicals from the post office, or removing and leaving them uncollected, is prima facie evidence of intentional fraud.

ADDRESS To the Nervous AND DEBILITATED.

WHOSE sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable;

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or floccy, or is itropy on setting? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, or life? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, or nervousness, or palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the general system so much as to produce almost every other disease—idiotcy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMOLD'S FLUID EXTRACT BUCHI is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.
