WAR IN SHIPPENVILLE. - A a correspondent writing us from Shippen-ville, under date of April 27th, says:

We had a big excitement in our quiet village this morning. Joseph Kiser, collector of school tax, demanded the amount assessed from Mrs. Knoko, which she persistently refused to pay, although able to do so. The collector then took two able bodied men and went to the barn of the recusant taxpayer, to take a cow. Then the fun commenced. The doors were locked and the old lady inside prepared to protect her property. The officer and his posse, after viewing the situation; commenced tearing off boards to get the cow out. This aroused the ire of the female warrior and she contmenced to attack the invaders. Clubs, stones, and pitchforks were into requisition, and the battle raged fearfully for haif an hour, when the assailing party, from force of numbers, succeeded in storming the fortress, and driving off the cow. How high is this for Shippenville ?- Clarion Democrat.

The Mendville Republican says : The celebration of the adoption of the Fifteenth Amendment, to take place in this city, May 10th, will most likely bb the largest affair of the kind ever this section of the State. Large delegations will be in attendance from Franklin, Oil City, Titusville, Corry, Erie and Warren, Pennsylvania Jamestown and Olean, New York Youngstown, Warren and Ravenna, Onio; and many from all the smaller towns in Northwestern Pennsylvania.

thusly, of the failure of the passage of

a bill for a new county with Titusville as the county seat: Our Harrisburgh correspondent ves-

terday informed us that the new county bill was "a dead issue" for the present session. This does not lessen our or expectation that the disappointment is only temporary, and that the Legislature will yet concede the justice of our demand that the people of Crawford county shall have the privilege of passing upon the merits of the question at the ballot-box. It may be long deferred, but the time must certainly come. And what the Legislature will require is not the argument of dollars and cents, but the evidence of necessity. Probably less than a dozen members of that body have ever visited Titusville and the oil region, and have no adequate conception of its commercial resources and importance. Let the next Legislature be be brought out
