Table with columns for Depart, Arrive, Depart, Arrive for various routes and times.

LOCAL AND MISCELLANEOUS.

Mrs. S. S. Hulings has our thanks for a beautiful bouquet sent to our office on Monday.

A. B. Hill has closed out his blacksmith business here, and is working up at Hickory.

Judge Dale and A. H. Steele have been to New York for about a week on business connected with the Pithole Valley Railway.

Grove & Welcott are going to put their well on the Sowers Farm, down one hundred and forty feet further, and expect to find lots of oil.

J. W. Stroup has finished the job raising Capt. Knox's grounds about his residence, with earth taken from cellar beneath said house.

Thras Savage has taken a mill on a branch of the Big Coon, which will probably keep him in business for some years to come.

G. W. Dithridge contemplates moving his family to town, and we believe he will occupy the Shreve house on the other side of the creek.

J. N. Teitworth has built a new fence around his premises lately, which lends to the enchantment to the view.

We were mistaken last week in saying that Mr. Sawyer had the job of fixing up the store under the Good Templar's Hall. Mr. Jas. Hulings did the work.

Butlers' Meat Shop is not running. It stands there on the corner like a Roman Sentinel, grave and silent and dispenses no meat to the hungry of our place.

We notice in a report of the Decoration of Soldiers' Graves, at Union Mills, Erie Co., Rev. A. J. Merchant, formerly stationed here, delivered the oration.

We find the following in the court proceedings of Venango county: 'J. J. Fisher vs. W. J. Roberts, et al. Summons of ejectment. Tried, and verdict for defendant.' Both parties live here, and we believe the property under dispute is the building now occupied by Mr. Fisher as a store building.

W. C. Plummer, Esq., formerly editor of the Titusville Star, recently assumed the editorial management of the Titusville Courier. Those of our readers who were here a year ago, on Decoration Day, will remember that Mr. Plummer delivered the oration on that occasion, which was said to have been a master effort. We wish him success.

Information Wanted.—On Thursday, May 4th, Charles VanDresar of Concord, an inmate of Dansvill Water Cure establishment; where he was under treatment for mental derangement, left there and has not been heard of since. He is a middle aged man, about 5 feet 9 inches in height and slightly deformed. Any information of his whereabouts will be thankfully received by his sister, Miss Kate VanDresar, Corry, Pa.

A new school house is to be put up immediately, on the site of the one which was burned down last spring, up the river, in Hickory township. Work, we understand commenced yesterday, and we are told that this house will be insured, and in case it is burned down the loss will not again fall so heavily on the community. No arrests have ever been made on account of the other house, notwithstanding the fact that all whom we have talked with from that section, agree that the fire must have been the work of an incendiary.

ACCIDENT ON STEWART'S RUN.—A workman named Brown, employed on Jeff. Kendall's well, on Stewart's Run, caught his foot in the bull wheel last Friday and badly fractured the bones of his leg. Yesterday the foot was amputated to save the man's life. He is still in a precarious condition.—Titusville Herald.

The above is the same case which we noticed last week, and we kept ourself posted in regard to the condition of the limb by inquiring, from time to time of Dr. Winans, who had charge of the case; consequently, as the reports had been favorable to the saving of the limb, we were astonished to learn that amputation had been performed. Two physicians from Titusville, performed the operation, and it seems that they had not been sent for. The case was in Dr. Winans' hands, and in case amputation became necessary, he was to send for one of the Titusville Doctors, the same who had assisted him in reducing the fracture, to help with the operation. He arrived at the house where the patient is, just after the Titusville practitioners had left, and while the patient was still under the influence of chloroform. They seemed to be in a hurry to get away before Dr. Winans arrived, and just accomplished the feat. Dr. Winans made inquiries, and examined the limb, but could hear of, or see no signs of mortification or unusual swelling. Add to this that the surgeons had not been sent for, and had no interest in the case, and the appearances are decidedly against them. Dr. Winans says that the limb might, eventually, have had to come off, and it might have been saved. At all events, the amputation was premature, and has a blood-thirsty aspect about it that is not relished in these times of peace.

We mentioned last week, that J. N. Teitworth had purchased an interest in the Sowers well. We have since heard that the other party backed out and there was no sale.

Treasurer Setley is busy canvassing the county and giving the citizens thereof a chance to pay their taxes, he is to-day, (Tuesday), at Allender School House, in Harmony Township.

Charles Hinton is piling up oil barrels in front of his cooper shop at the lower end of town, at a great rate. He informs us that sale for them is quite slow now, on account of so much oil being shipped in bulk.

The Winner well, of which we spoke last week, commenced to test, and met with an accident—something occurring to disarrange their tubing, consequently the test has not yet been applied.

It is mournful to contemplate the mouth of the Tionesta chuck full of rafts, with not enough water to float more than half of them. We may still have a June flood, although the lumbermen are rather despondent.

M. Henry, Esq., rode to Hemlock the other day with his linen coat on, to see if he couldn't bring on a rain, but he couldn't fetch it. He says he never knew the experiment to fail before.

The property at the mouth of little Tionesta is under litigation at present, and Mr. Reck will not begin operations there until the difficulty is settled. Frank Reck has gone up to Red Brush, we believe to work on a saw mill.

J. B. Agnew has sold out his store to Mr. Davis, of Tylersburg, Mr. Davis will continue the business in the same place. The Prothonotary found the business of his office pressing too heavily upon him, and so disposed of his outside business.

The following is the ticket naumanted by the Republican Primary Election of Crawford county, on the 2d inst:

For Representatives, Dr. J. H. Gray, W. B. Gleason; For Treasurer, L. H. Metcalf; for Commissioner, Titus Ridgway; for Auditor, D. D. Williams.

The sums subscribed to the M. E. Church in Tionesta, Pa., at the day of Dedication, full due the 15th day of June, inst. Those who have not already paid can get receipts in full by calling on the Treasurer, Miles W. Tato.

The first races of the Driving Park, of Titusville took place last week, and passed off to the satisfaction of everybody, especially those who won the purses. The foot race which we mentioned last week, came off and the man made a mile in five minutes and thirteen seconds, but during the best half of the race was assisted by banging on behind a buck-board, which his brother drove. The judges refused to decide the case, and Wilkes Spirit and other sporting papers were written to for decisions in regard to it.

On Saturday the 5th inst., the Rev. N. Mignault, Catholic Priest of Titusville, committed an aggravated assault on his niece, Miss Ida Menard. She wanted to go to Canada to visit her mother; the Priest did not want her to go; she attempted to slip away and leave the priest in the lurch. He missed her and searched and found her in a neighbor's house under a bed. He dragged her out by the hair, knocked her down with his cane, and broke the cane, a heavy one, beating her. He was arrested, but the niece refused to prosecute, and the Rev. Father was discharged. An investigation of his conduct was had, which cleared him of all blame in the matter. The Herald accused the investigating committee of being personal friends of the Priest, and asked that a fair investigation be had. This was granted, and five members were chosen by the Priest and five by the Herald men. The investigation was to have taken place on Friday last, and the Herald promised to give a full report of the findings of the committee, but we have looked in vain in Saturday's paper for any mention of the affair. We had been watching the cause with interest, and cannot account for the Herald's silence in matter.

Bowman's store, at Hickory, was broken into, on Friday night a week ago, and fifty dollars in money, and a lot of goods, consisting of neckties, lace, summer shawls, shirts, clothing, boots &c., were taken. The thieves went in at a cellar window, removing the grating, went up the stairs, cut a hole through the door into the store, turned the key, and proceeded to go through the store. Some tracks were seen about the store next morning, but no other clue, as to who the perpetrators were, appeared. No arrests have been made.

We this week give place to a correspondence from Clarington, which reached us just too late for last week's issue. The mail arrangements between the old and the new part of this county are very imperfect, a week being required in almost all cases to get mail matter through either way. Could there be some improvement made in the route it would be productive of business between the two portions of the county, which is not now transacted by reason of the difficulties experienced in communicating.

On Tuesday evening last we were visited by a rather refreshing shower, which, however, did very little good, as there was not enough of it. We fear a drouth. We are informed that grass and oats are a failure in this county now, on account of the dry weather, and other crops will follow if we do not soon get rain in good quantities.

P. S.—We wrote the above on Saturday. A fine shower came on Sunday afternoon.

While going to Titusville on Wednesday last, W. W. Dimond, who had his horse hitched with Mable's pony, to a light buck board, got spilled on, and run over, but not hurt. H. W. Roberts who was trying to catch the pony, got a slight rap on the left leg, which made him walk business for a day or two. He is now using his gait regularly.

On Tuesday and Wednesday of last week, three men started from Minister, and cleared the stones out of the road to this place. At Newtown, Wheeler & Dusenbury cleared the hill, and the new road at Ross Run was tolerably clear, but the rest of the way there was some pretty lively grubbing necessary.

One day last week Mrs. Knox baked up a large crock full of cookies, and set them in the pantry for future use. The some night some one raised the window of the pantry, and stole all the cookies, leaving the crock. The light-fingered individual was evidently hungry, and Mrs. Knox thinks he must have had a big mouth for cookies.

Notice.—Having sold out my business, and being about to leave the place, I respectfully request all indebted to me to call and settle at once, and oblige. W. W. DIMOND.

To Nebraska, California, and Kansas, and the B. & M. R. R. Lands.

The "Burlington Route," so called, lies, right in the path of the Star of Empire. It runs almost immediately in the center of the great westward movement of emigration. Crossing Illinois and Iowa, it strikes the Missouri river at three points.

These three points are the gateways into three great sections of the trans-Missouri region.

The Northern gate is Omaha, where the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer.

The middle gate is Plattsmouth, which opens upon the south half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agriculture and grazing. Just here are the B. & M. Railroad lands, concerning which Geo. S. Harris, the land officer at Burlington, Iowa, can give you all information, and in the heart of them is Lincoln, the State Capital and present terminus of the road.

The Southern gate leads to Kansas, by connections with the St. Joe Road at Hamburg, running direct to St. Joe and Kansas City.

The trains of the Burlington run smoothly and safely, and make all connections. It runs the best of coaches, Pullman Palace and Pullman Dining cars, and should you take the journey for the journey's sake alone, you will be repaid; or take it to find a home or a farm, and you cannot find either better than among the B. & M. lands, where you can buy on ten years' credit, and at a low price.

ADDRESS

To the Nervous AND DEBILITATED. WHOSE sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable;

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or frothy, or is it ropy on setting? Or does a thick skum rise to the top? Or is asinndament at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, or life? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken, or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have your restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid that they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflamed by running to excess. Those will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the general system so much as to produce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every
