O. C. & A. R. R. TIME TABLE.

Table with columns for GOING NORTH and GOING SOUTH, listing arrival and departure times for various stations.

LOCAL AND MISCELLANEOUS.

—Presbyterian services will be held at the Presbyterian Church on Sunday the 2d of July, Rev. Virtue filling the pulpit.

—By some accident, the nature of which we did not learn, Eddie Fisher, son of J. J. Fisher, got the end of one of his fingers cut off one day last week.

—S. J. Wolcott, Esq., informs us that the drilling on the Sowers Farm well is progressing finely, and they either expect to find oil or the centre of gravity.

—J. A. Proper raised the frame of a large barn on his farm on Dutch Hill, on Saturday last. Several of the muscled men of Tionesta assisted in the raising.

—S. H. Haslet tells us that he does not propose to finish his dwelling on the hill this summer, but will put on the finishing touches about a year from next fall.

—Judge Dale, J. G. Dale and A. H. Steele, start for Pittsburgh this evening to attend a meeting of the Directors of the Pithole Valley Railway Company.

—Dr. Winans and P. Monroe Clark, of this place, represented Tionesta Lodge No. 477, I. O. G. T., in the Grand Lodge of the State, held at Erie last week.

—M. W. Tate and W. R. Dunn, go to Pittsburgh this evening to attend the Grand Temple of the Temple of Honor of Pa. They are delegates from Tionesta Temple No. 108.

—We witnessed the burning of Williams Bors' Refinery, at Miller Farm, on Friday last. It was a terrific sight; much the fiercest fire we have ever seen. The loss was about \$7,000. Insured for \$3,000.

—A. B. Kelly is excavating for the purpose of laying a foundation for a new house, which he proposes to build on Elm St., nearly opposite H. H. May's. We expect to see a pretty nice residence, when he gets it completed.

—On the 13th inst., Jno. Shriver, of Newmansville, died from the effects of a cancer on his face. He was a son of Jacob Shriver of this place, and well known throughout the county. He leaves a wife and three children to mourn his loss.

—J. P. Siggins Esq., our late County Treasurer has moved to Parker's Landing, and is to go into the Oil Business with Capt. Grace. We understand that the Captain has lately been making good strikes, and we hope Pat. may be as fortunate.

—Mrs. S. S. Halings is preparing to raise the addition to her house to two stories, the present shape not being roomy enough to accommodate her boarders. She will commence work as soon as she can get the lumber down the creek from the mills.

—We understand that Stephenson's well on the Jamieson place has proved a failure, as has also that of Dr. Winner, on Jamieson Run. Mr. Stephenson is going to put down another well on Ross Run, the Company owning the property believing that it has not been thoroughly tested.

—Judge Means of Brookville is at present in our town, on business, we believe. Capt. Steck, Register and Recorder of Jefferson is with him. They arrived on Saturday. We also notice Geo. Jenks, Esq., of the firm of Jenks, Jenks & Clark, of Brookville, in town.

—The Fourth of July will not be celebrated in Tionesta. On the German Eminence, the annual jubilee takes place at the house of Mr. Towser. All our celebrators go there on the fourth, and are always amply repaid. Franklin celebrates in huge shape, with military companies of infantry and cavalry, brass bands, fire companies, and a big speech from Col. Forney of Phila. Titusville also celebrates with flourish of trumpets, fireworks, processions &c. Meadville talks of celebrating, but we are not sure whether they mean business or not. Conneautville celebrates with processions, speeches, fanatics, toasts and responses, fireworks, and dance in the evening. Calls for celebrations are general, and the people seem more disposed to remember the 90th anniversary of the Declaration of Independence, than they have been for some years. Perhaps the celebrations will have the same effects that the battles used to, and will bring us a large flood. We hope so.

—We are under obligations to Thos. M. King, Assistant Supt. of the A. V. R. R., for favors during the past week.

—According to notice given, we are to have a new jeweller in town soon. His name is Morris, at Brady's Bend his father's son was wont to fix up watches, clocks, jewelry &c. He comes to Tionesta for a larger and more cash business.

—A couple of men from Waterford, Erie Co., have been in town during the past week, putting up cave spouting for a good many houses, and places of business here. We are happy to state that our office stairs are now protected by a lot of eaves which shed the water off us nicely.

—M. Henry came near getting his knowledge-box smashed one day last week. He was riding through the woods, when the top of a tree blew off, and came down right beside him. It knocked his hat off and tore a large hole through it. We're glad the hole wasn't through his head.

—An accident happened at Cobham, a station between Irvinston and Tidouite, on Saturday last, by which two men lost their lives. They were working in a gravel bed, when the bank caved in on them, killing one instantly, and injuring the other so he has since died. They were natives of Sweden.

—D. W. Clark, has moved into the house formerly owned and occupied by W. W. Dimond, who goes to Mayville soon, to catch pike in Chautauque Lake. Mrs. McKay has purchased Clark's house, and with J. B. Agnew's family occupies it at present. Mr. Agnew proposes building a house in town next summer.

—All candidates for nomination for County offices should announce their names in next week's paper, without fail, in order to be legally presented to the people according to the Crawford County System. We speak of this because we don't intend to get out any paper on the 10th of July, as that is our regular vacation. With next week's paper, only three will be issued before the Republican Primary elections.

—The dreary drouth which has dried up our grass and oats, was dissipated on Saturday evening last by a decided drizzle, which dripped drooled and dropped during the deathly darkness of the night. Vegetation was invigorated, but the floods came not, neither a rise. Lumbermen predict a rise on the 4th prox. If they get it, Independence Day will be celebrated to a great extent on the Tionesta Creek and Allegheny River.

—On Friday evening last, about 11 o'clock, a man was picked up on the P. & E. R. R. at Irvinston, who had been run over and killed by a train which had been standing there for some time before it started off. The body was recognized by men on the O. C. & A. R. R., and was found to be that of John Wood, an Irishman, who had been employed on the Gravel Train. He was known to have been intoxicated at the time. It is supposed that he was trying to crawl under the train, and was knocked down and run over. His body was taken to Union, and interred on Sunday.

—Nature's Hair Restorative excels everything. No dirt, no sediment, no poison! Perfectly reliable. It does the work most effectually. A treatise giving full particulars sent postage free upon application to Procter Bros., Gloucester, Mass., sole agents. See advertisement. 12 24

—Having sold out my business, and being about to leave the place, I respectfully request all indebted to me to call and settle at once, and oblige.

W. W. DIMOND.

Letter from Utah. The following we extract from a letter received by D. W. Clark from his cousin, H. G. Clark. As it contains matter of interest to all, we publish it for the information of our readers: OGDEN CITY, UTAH, June 31, '71.

You thought when I was at Omaha that I was near the jumping off place, if you really thought so, what do you think now, we are (that is some of us) in the silver mines of Utah, 60 miles southeast of the grand Mormon city of the desert, Salt Lake City. My wife, boy and brother are here, we are in the grocery and mining business, are now working two mines which promise well. There are some of the best silver mines here that are known in the world and others being found daily. A great many come here and make their stake and leave in a short time, while others dig for months without even a sign or prospect, and so it goes. I suppose it is some like the oil business but with this difference, you have a lead to follow in this business. Trade is dull owing to there being no stamp mills in operation here. We now have two smelters and one arastra running; and three stamp mills one arastra, one concentrator and two smelters now building; when these get under way we look for lively times and more men for breakfast. This is a healthy location as but one man has died since I came, (Feb 1st) and he was shot. We have sixteen saloons, three hotels, six stores, two breweries, three blacksmith shops, three assay offices, one hurdy house and three other houses, which I think makes quite a start for a town. The climate here in the mountains is quite fluctuating; for instance we have had quite hot weather and a few days since we had six inches of snow, and to-day it is quite cool again. They have been selling garden tash from the valleys for over a month.

50,000 lbs Wool Wanted, At Hilbrunner & Co.'s, for which the highest price in goods or cash will be paid. They have just received the agency for an Eastern House, and want all the wool they can possibly get. Take your wool there and get good prices.

A. H. STEELE, Cashier Tionesta Savings Bank, has been appointed agent for the celebrated "Imman Line Ocean Steamers," at this place. Any person desirous of going to Europe or bringing friends to this country, will do well to call on Mr. Steele, who will furnish them with all the information required.

To Nebraska, California, and Kansas, and the B. & M. R. R. Lands. The "Burlington Route," so called, lies, right in the path of the Star of Empire. It runs almost immediately in the center of the great westward movement of emigration. Crossing Illinois and Iowa, it strikes the Mississippi river at three points. These three points are the gateways into three great sections of the trans-Missouri region. The Northern gate is Omaha, where the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer. The middle gate is Plattsmouth, which opens upon the south half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agriculture and grazing. Just here are the E. & M. Railroad lands, concerning which Geo. S. Harris, the land officer at Burlington, Iowa, can give you all information, and in the heart of them is Lincoln, the State Capital and present terminus of the road. The Southern gate leads to Kansas, by connections with the St. Joe Road at Hamburg, running direct to St. Joe and Kansas City. The trains of the Burlington run smoothly and safely, and make all connections. It runs the best of coaches, Pullman Palace and Pullman Dining cars, and should you take the journey for the journey's sake alone, you will be repaid; or take it to find a home or a farm, and you cannot find either better than among the B. & M. lands, where you can buy on ten years' credit, and at a low price.

CARPENTERS, Blacksmiths, Saw mill men, Oil men, and other citizens of Forest county, who are in want of anything in the Hardware line, should go to Andrews & Co., Tidouite. They have the largest stock in this section of the country. They are making and repairing all kinds of Machinery and Saw mill castings at short notice 4-tf.

JURUBEBA. Is a South American plant that has been used for many years by the medical faculty of those countries with wonderful efficacy, and is a Sure and Perfect Remedy for all Diseases of the Liver and Spleen, Enlargement or Obstruction of Intestines, Urinary, Uterine, or Abdominal Organs, Poverty or want of Blood, Intermittent Fevers, Rheumatism, Fevers, Inflammation of the Liver, Dropsy, Stagnant Circulation of the Blood, Abscesses, Tumors, Jaundice, Scrophulous, Dyspepsia, Ague and Fever, or their Concomitants.

Dr. Wells' Extract of JURUBEBA is a most perfect alternative, and is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints.

Dr. Wells' Extract of Jurubeba is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system.

It is NOT A PHYSIC.—It is not what is popularly called a BITTERS, nor is it intended as such; but is simply a powerful alterative, giving tone, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments.

BUCKEYE MOWER & REAPER, Improved for 1871.

How many men, from badly cured diseases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the general system so much as to produce almost every other disease—Idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

This Machine has never competed at any National or State Fair, or great trial, without having received the First Premium, and has been awarded a greater number of Medals than any other machine now before the public.
