LOCAL AND MISCELLANEOUS.

-Wm. A. Greaves, of Rochester, N. Y., who spent some time here a few years ago, is in town on a visit to his friends.

-W. J. Roberts has put a new front in the store house south of his residence. Whether he intends to use it himself or to rent it we have not been informed.

-Two or three wagon loads of "pickers,"have gone out into the country to camp out and pick blackberries. house by breaking a window, and got They will have "gobs" of fun, and will probably bag a few blackberries and lots of rattlesnakes.

-A base ball match is contemplated between the employees of the Democrat and Journal combined and those tors has been found. If ever any one of the Republican office, in Meadville. is caught stealing in this section, we Col. Reisinger says he is whittling out | wouldn't give five mills on the dollar paddles to stop the balls with.

-Wm. Dusenbury, of Newtown, was poisoned in some way or other, while working in the bay-field last week. His right hand and arm are badly swol- like to hear oftener from the old part len and inflamed. He has gone to his of the county. We should like to acrecuperation.

-The Culver well, a little this side of West Hickory, is now producing about two barrels and a half per day. Another well is being put down about one-half mile this side of Culver's. Jamison & Manross have the contract able before many weeks to present our of putting down the well.

-Rattlesnakes of various dimensions have been killed at different times during the past week or two, by divers individuals. We have heard of several being killed that measured a yard and a quarter in length, and having ten to twelve rattles with them,

-Forest Brass Band, or most of it, is practicing almost constantly. If the boys don't make good players, it will not be for want of application. They play two or three tunes right well, and have already a fifty dollar engagement on hands.

-The weather is warm, and there is no money to be made by denying it. Some take whiskey and water, some whiskey straight; and others water with ice, as antidotes against the heat. We take ours in Soda Water, which can be quaffed in all its purity, at the store of Knox & Co.

-We remarked a week or two ago that we had heard no expression as to whether Mr. Burton was to be called back to this place another year or not. party or other has relieved our friend quainted with the school or teachers. We have since heard that by reason of Seldon Whitman, of two horses. This but judge from very complimentary nowishes expressed by every member of is a hard blow to Mr. Whitman, as he tices we see in Pittsburgh papers, that highest price in goods or cash will be the M. -A lively fight is going on in Titusville over the City Auditorship, both candidates being Republicans. The Herald supports M. Thomas M. Smith, and the Courier supports R. D. Fletcher. The papers are full of it. much of such work.

-Some person who appeared to be anxious to attend camp-meeting, borrowed a horse of Jacob Hood's on Thursday night last week, while Mr. Hood was asleep, and rode it out near Newmanville. Mr. Hood was worked up a little about it, thinking his horse had been stolen, but it was brought in on Friday safe and sound. This kind transmiss.

-A new way of gambling has appeared in our midst, and of all odd ways of filling your pockets or busting your finances, it is the oddest. A chap goes home and washes his feet, clean. He then comes down town, mingles with a crowd, and shortly begins to fold up the end of his nose. Some one notices him at it, and propounds the conundrum: "Why that heavenward tendency of the nasal organ?" The nose twister answers that he smells feet. He is then told that it is probably the effluvia from his ewn worm-killers that strikes his proboscis, whereupon the party of the first part offers to bet the cigars, soda water, or whatever else happens to be for sale, that he has the cleanest feet of the two. The other takes the bet. Umpires and smellers are appointed, and feet stripped. The party of the second part is always beaten, because first party has washed his feet the recently-est. Is there any other nice little game that can he made to pay cigars and drink for those who are indisposed to buy their own? Fetch 'em on, and we'll air 'em.

-On Monday evening, a week ago after our paper was made up, and partly pressed off, the following occurred, and we consequently did not get it in last week's paper:

Some time during the night some thieves gobbled several shirts off the clothes-line of C. D. Mabie; entered the cellar of Wm. P. Neill, and eat up several pies, leaving the plates, took away several loaves of bread and some "garden truck;" from thence they went across to the depot, entered the freight away with 500 "toby" cigars. There were a number of higher priced ones in the the room, but the thieves evidently had no light, and were probably in a hurry. No clue to the perpetrafor his carcass.

THE REASON WHY .- The immediate cause of premature fading or blauching of the hair is an obstruction of the oil vessels which afford the coloring matter. The remote causes may be general ill health, trouble of mind, etc. Hence, in order to restore its naturcolor and beauty the oil vessels must be restored to their normal condition. It is on this principle that Nature's Hair Restorative is compunded, and it has proved a complete success, wherever faithfully applied. It is not a poisonous dye, consequently the effort is gradual, and in severe cases two or three bottles are necessary to produce the desired result. See advertisement. 18-2t

## ADDRESS

To the Nerveous

DEBILITATED.

WHOSE sufferings have been protractcases require prompt treatment to render existence desirable:

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your goneral health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce paloltation of the heart? Does your liver, or trinary organs, or your kidneys, frequenty get out of order? Is your urine someimes thick, milky or flocky, or is it ropy on settling? Or does a thick skum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dispepsia? Are your bowels constipated? Do you have spells of frainting, or rushes of blood te the head? Is your memory impared? Is your mind constantly dwelling on this subject? Doyou feel dull, listless, moping, tired of company, or lite? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or rostless? is the lustre of your eye as brilliant? The bloom on your cheek as bright? De you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in youself? Are your spirits dull and flag. ging, given to fits of melancholy? If se, do not lay it to your liver or dyspepsis. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to despepsia or liver-complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they arealways polite and pleasant in the company of ladies, and look you and them right in the face none of your downesst looks or any meanness about them. I do nat mean tnose who keep the organs inflated by running to excess. Those will not only ruin their constitutions, bu they do business with or fer.

How many men, frem badly eurod discases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the geneal system so much as to produce almost every other disease-ldiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doctored for all but the right one.

Diseases of these organs require the use f a Diuretic, HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretie, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organe Weakness, Female Complaints, General Debity, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.
