LOCAL AND MISCELLANEOUS.

Form what we can hear of the condition of Mrs. Winans, who was removed to Waterloo about three weeks since, she is not improving any, but rather failing.

A Mr. Bates, an artist of Philadelphia has been sketching the Lacytown Mills, and intends to make a large picture of it, for Mr. Lacy, who brought him on for that purpose.

Two bovines of the masculine gender have had a series of bull-fights on our streets during the past week. It looks much better than to see two brutes bearing the human form, bruising and pamelling each other.

We wish to call the attention of our readers to the correspondence on our second page, "From Dixie to the Keystone." It was written for this paper by a Southern lady, who promises us "more anon."

A man named Gross, a tailor, at Tidouite, who was arrested recently as the murderer of Wisner, was taken to Titusville and the evidence amounting to nothing, he was discharged. A great many have been arrested and discharged on the same charge. We hope the next arrest will be that of the real murderer.

According to the Erie Dispatch of the 26th, a man named Lowe made an assault on a Mr. Hill, proprietor of the United States Hotel, of Erie, with an engine link, dealing him a severe blow on the shoulder. Hill drew a revolver and shot five times at Lowe, and hit him once in the foot. Lowe was arrested.

Sunday last was showery. The faces of lumbermen beamed like headlights of a locomotive. But alas! the skies cleared up; the rain ceased; the visages of the aforesaid lumbermen fell to zero, and the flood is not yet. If faithful watching, waiting and longing will avail anything, we may look for a rise soon.

P. S. It is raining like blazes, to-day, and the countenances of the lumbermen are brightening up.

Saturday afternoon the pleasant countenances of our friends F. W. Hays and Mel. Haldeman of Oil City beamed in upon us. We entertained them over Sunday, trusting that we might be one of the lucky ones who have "entertained angels unawares."

Mr. Hays is a limb of the law, and is building up a good practice in Oil City. Mr. Haldeman, is connected with Empire Freight Line, is a rowler, a base-ballist, a sketchist, and a dabbler in oil. They left in good shape on Monday morning.

M. E. Conference meets in Meadville to-morrow. Then will there be much anxiety felt, if not expressed, among the clerical brethren, about the high-salaried positions. We don't intend to insinuate that the preachers of the Erie Conference, are, as a class, mercenary, but we wouldn't prefer a snap for a man who wouldn't prefer a good living and an easy charge to a meagre salary and rough usage.

According to reports we shall have Brother Burton here another year, and we must say we might get many a worse man.

Thursday last two gentlemen from Clearfield were in town hunting after a couple of stolen horses. About 1 o'clock Thursday morning Mr. Grubbs, living at the lower end of town, heard two horses pass his house very rapidly, and a few minutes later Mr. Scott, the ferryman, heard two horses fording the river just below the ferry. From the manner in which they rode into the water we should judge, whoever was riding them, was in great haste, and that they were familiar with the fording at this place. It is hardly possible that we have any one in our community engaged in this business, but from the fact that so many horses are being stolen in our vicinity, it behooves every good citizen to be on the lookout.

Since the above was in type we have the pleasure to announce the capture of the horses and one of thieves. Our informant and the owner, Daniel Rikard, followed the thieves over the river here, and then, for a time could get no further trace of them. They took a hunt all over the oil region hoping to get wind of the thieves. At length they went to Tidouite and got the aid of a detective there. They came to a barn about one and a half miles south of Pine Grove, belonging to a man named Barber, on Friday evening, where they heard some men talking and horses tramping. They listened, believing they were on the right track, and in a few moments the horses came out, a man astride of each, and broke into a dead run in the direction of Youngsville. Mr. Rikard fired three shots from his revolver, but they did not seem to have taken effect, more than causing both thieves to lose their hats, as they rode on and soon left their pursuers out of sight. The detective then left them and went back to Tidouite, but the other two men followed on all night, although it was very dark, and they had to guess the way. They came up to the thieves about six miles south of Sugar Grove, having heard of them in Youngsville, where they purchased hats. They rushed in on them as they were taking breakfast, and the thieves rushed out the back door of the house and broke for the woods. One of them escaped, and the other was caught. They took the horses and man to Tidouite. After arriving there it was discovered the captured chap had been shot through the thigh, but had no bones broken. This was the reason they came up to him when he was running for the woods. He gave his name as James Bird, and said his companion was hurt much worse than he was. The horses were sold by the owner, Mr. Rikard for \$500. A party was to start for Barber's on Sunday to search the premises, those who captured the horses and thieves believing that there was a cave under the barn, and that the horses were hidden there. The country about Tidouite is aroused, and we should not be surprised if the whole gang of horse thieves who have been so troublesome for some time past, were captured.

R. R. Roberts, formerly stationed at this place in the capacity of Pastor of the M. E. Church, and who has for upwards of a year past been in town more or less, and who has been interested in the oil business about here, was brought up before the M. E. Church last week on charge of violating the 7th Commandment of God. The testimony was taken; that of R. C. Stephenson being the most conclusive of any offered, he averring that he saw Mr. Roberts in the act. The testimony as given in, will come before the Conference in Meadville some time this week. Mr. Stephenson was arrested at the instance of James Lewis, and put under bonds of \$2,000 for an appearance at court to answer the charge. The bail was afterward cut down to \$300 by Judge Proper. This is the worst story that we have had to publish since we have taken charge of the REPUBLICAN, and we hope we will not have any occasion to publish similar ones.

We have received a rather lengthy communication from some unknown correspondent at Clarington. On account of the fact that no name is given by which we may know who the author is, and furthermore that the skill of our correspondent, "Sigma" in pitching quarts is reflected upon, we must decline to publish the communication. We had supposed that by this time correspondents all over christendom even unto New Jersey knew that it was absolutely necessary that the editors should know who the writer of letters for publication are, not that others may know, but to be sure that they come from responsible parties. Next time please give us your "sig."

Messrs. Wolcott, McGill and Albert Grove left for the Sandy Oil fields yesterday. They all have a hand in there.

Fort Pitt Communication.

ED. REPUBLICAN:—According to promise I again write you the current items of the week, occurring at our mill.

On Monday last Mr. Wm. Haslett entered the store of the Superior Lumber Co. with a loaded rifle, which he was about to exhibit to one of the men present, when, from some unaccountable cause it went off, the ball grazing Mr. Geo. Richard's face, and imbedded itself in the wall a few feet behind him.

On Friday our mill cut the largest amount of lumber ever cut at this place: in seven hours "she" cut 31,500 feet of Pine and 24,000 lath. At the end of this time the mill was obliged to shut down on account of the blocking up of the platform, as the lumber could not be removed fast enough. Oursawyer, Mr. S. Van Steinberg, is confident that he can cut twice the above if he has a fair trial.

About 10 P. M. on Friday Mr. M. Douvont discovered fire in the woods a short distance from the mill. He immediately gave the alarm, and with the assistance of the mill and woods crew, succeeded, after several hours hard labor, in subduing the flames. Praise should be given to the men for the prompt and energetic manner in which they answered the alarm whistle. Cause of fire unknown. Messrs. Emery & Freeman, have every facility for subduing fire should one occur. They have racks of fire-buckets and axes placed in different parts of the mill, and have one man whose duty it is to keep the fire apparatus in order, and look out for fires. We think this a very good idea, and one that should be carried out at every mill in this section of the country.

Squire Howe, an employee of Messrs. E. & F., whilst engaged in peeling logs attempted to jump from one side of a newly peeled log to the other, made a misstep, falling upon his axe, severely cutting himself in the left arm, and ribs; with a little care, and attention he will soon be able to resume his duties again.

I cannot close my letter without mentioning two of the recent arrivals at this place whose names are familiar to every American, viz: Geo. Washington and Benj. Franklin. Although in all probability not relatives of their predecessors we hope they may do honor to the names they bear. They are two of our newly enfranchised brothers.

Should time and space permit I hope to have the honor of writing you soon again. Ur's &c. Doc.

Rev. A. Virtue will preach in the Presbyterian Church next Sabbath morning and evening.

Indian clubs for muscular culture, are the latest thing in that line here. They are swung about the head in regular Indian style, with a terrific screech at the end of each exercise, to remind the beholder that they are Indian clubs.

Burlington.

Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the West? The best line is acknowledged to be the C., B. & Q., joined together with the B. & M. Railroad by the Iron Bridge at Burlington, and called the BURLINGTON ROUTE.

The main line of the Route running to Omaha, connects with the great Pacific Roads, and forms to-day the leading route to California. The Middle Branch, entering Nebraska at Plattsmouth, passes through Lincoln, the State Capital, and will this year be finished to Fort Kearney, forming the shortest route across the Continent by over 100 miles.

Another branch of the B. M., diverging at Red Oak, falls into a line running down the Missouri through St. Joe to Kansas City, and all Kansas. Passengers by this route to Kansas, see Illinois, Southern Iowa, and Missouri, and by a slight divergence, can see Nebraska also.

Lovers of fine views should remember the Burlington Route, for its towns "high-gleaming from afar"—its tree-fringed steams—its rough bluffs and quarries—its corn-occans stretching over the prairies further than eye can reach.

Land-buyers will be sure to remember it, for they have friends among the two thousand who have already bought farms from Geo. S. Harris, the Land Commissioner of the B. & M. R. R. at Burlington, Iowa, or among the four thousand home-steaders and preceptors who last year filed claims in the Lincoln land office, where "Uncle Sam is rich enough to give us all a farm."

ADDRESS

To the Nervous AND DEBILITATED.

WHOSE sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable;

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or frothy, or is itropy on setting? Or does a thick album rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, mooping, tired of company, or life? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, have brought about that state of weakness in those organs that has reduced the general system so much as to produce almost every other disease—Idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.

Helmbold's Extract Buchu, established upward of 19 years, prepared by H. T. HELMBOLD, Druggist, 694 Broadway, New York, and 104 South 10th Street, Philadelphia, Pa. Price—\$1.25 per bottle or 6 bottles for \$6.50, delivered to any address. Sold by all Druggists everywhere.

NONE ARE GENUINE UNLESS WRAPPED IN STEEL ENGRAVED HOUSE, and signed H. T. HELMBOLD.
