LOCAL AND MISCELLANEOUS.

Clubbing chestnuts is the popular amusement now. They are getting so nearly ripe that there is some enjoyment in eating them. We will have a good crop this fall.

Hickory Circuit paid \$352.62 for benevolent purposes, beyond the Pastor's salary during the last Conference Year. The blessing of God will surely honor such a contribution as the above.

Knox & Co. have on hand an abundance of grapes of the first quality, which they sell cheap for cash. They have our heart-felt thanks for a box of the same, with which we appeared our grape hunger and that of our friends.

We have neglected to notice the action of the Erie Conference upon the case of R. R. Roberts. We understand that he was found "not guilty," of the charge preferred, but was silenced for one year on general principles.

Rev. J. A. Hume, of East Hickory was unanimously elected President of the Re-union Association of the 150th Pa. Bucktail Regiment, which met at Meadville, Pa., on Tuesday, the 12th, inst. A compliment worth being appreciated.

Next week is court week. We always enjoy this particular week, because business is bound to be lively. Quite a number of Commonwealth cases will be tried in addition to the trial list which is published. A list of jurors drawn will be found in to-day's paper.

Hickory Circuit was the Banner Charge in the Erie Conference, for 1871, in its collection for "superannuated preachers, their widows and orphans." This statement is authorized by Rev. R. B. Boyd, of South Oil City. \$109 was the amount given by the above circuit.

A. B. Root & C. F. Gillespie have bought out the business of Landers & Savage, on Judah Run, and are about to erect a large mill. They are both good business men, and we have no doubt but that they will make a profitable investment in that particular mill.

The crops, with the exception of grass are said to be good throughout old Forest. This is fortunate, much more so than was expected at the beginning of the Summer, as the dry weather was supposed to be so general and so continuous that short crops were expected.

Jas. McKay and Capt. Knox are going to put a building on the lot north of our office, right soon. The lumber is on the ground, a good share of it, and we understand that the rest is over at the depot. Mr. McKay is to use part of the building as a post office, and a Masonic Hall is talked of in the upper story. We will give fuller details as we hear them.

Improvements are going on about the Court House. New and substantial walks and stairs are being built from the road to the Court House. This is something that has long been needed, and we are glad that it has been attended to before court week. During next summer we expect the Court House ground to be fixed up in a style that will compare favorably with those of other counties around us.

M. Ittel, mine host of the Tionesta House is building an addition to his barn 30x36 feet. This will make the whole barn cover an area of 30x72 feet and will prove ample for the accommodation of the horses of travelers, circusmen, menageries, &c. Mr. Ittel is bound to make the Tionesta House a success, if energy and good management will do it, and we have no doubt that by the time the flood comes, he will be in good shape to entertain all the raftsmen of the creek, and a number of others beside.

MARRIED.

GRAEVES—DALE.—At the residence of the bride's parents, in Tionesta, Tuesday, Sept. 19, by Rev. Dr. Loomis, of Meadville, Mr. Wm. A. Graves, of Utica, N. Y., and Miss Gertrude, daughter of Hon. Jno. A. Dale, of this place.

Having the good fortune to receive tickets, we arose early in the morning and proceeded to the place referred to, to see the happy couple united. They were married at about 9 o'clock A. M., after which congratulations and breakfast took place. We enjoyed both. They took the 2:14 train for Buffalo, where they will spend a few days; from thence they will proceed to Watertown, N. Y., to visit the relatives of Mr. Graves. They will reside in Utica, N. Y. We were sorry to observe that Judge Dale was confined to his bed, by reason of injuries sustained in the railroad accident at Westport. The newly-married pair have our best wishes for a happy future.

Murder in Howe Tp.

One week ago Saturday, a man named Matthew Turner who has made his home for the last three years at Thos. Porter's, left the house to go to his shanty, on the Foxburgh Road, about one mile this side of Foxburgh, where he had a job. On Wednesday last, as Mr. Porter was returning from Marien, where he had been registering, he came by the Foxburgh Road for the purpose of seeing Mr. Turner, and not finding him at the shanty, nor any evidence that he had been there, he took the road that Turner should have taken, and found him lying in the road about two miles from the shanty, face downward, dead. His head and neck were filled with buck-shot, and he had evidently been killed at once. The charge had hit him rather on the left side of the face and neck. His gun was found standing up against a log by the side of the road, and his hatchet on the log. He had a revolver and hunting knife in his belt. His gun and revolver were fully loaded, so that it could have been no accident of his own. A coroner's jury was impaneled, and proceeded to the spot the next morning, and found, that the deceased came to his death from the effects of a charge of buckshot fired from a gun, or other deadly weapon, in the hands of some person or persons unknown.

Mr. Turner is described as having been a man of about 50 years of age, an industrious and steady man, respected by all who knew him. His death has cast a gloom over the community about Howe tp, and hopes are entertained that the assassin may be brought to justice. Suspicion is held as to who the murderer is, but no evidence appearing, we are not at liberty to publish the name of the person suspected.

There comes a report to us from the old part of the county that a man named Haight has been making himself generally obnoxious to the inhabitants of that section by his general lawlessness and ruffianism. Week before last he went to a house where there was an old lady and a little girl of thirteen, and inquired the road to Strattonville. He was informed, but wanted the old lady to let the little girl go with him and show him the road. She would not consent to it, but the little girl went out into the front yard with him to point out the direction to him, when he attempted to violate her person. The old lady coming out, he knocked her down some two or three times, and then fearing assistance would come, fled. The inhabitants have been hunting vigilantly for him since then. And now comes a report that he has lately burned the barn of Owen Butterfield, across the Clarion River, in Jefferson county. It was a valuable barn, and the loss will be considerable. Haight is said to be an old convict, having just gotten out of prison recently. We sincerely hope that the citizens of that vicinity may succeed in catching him, that he may pay the penalty of his crimes.

At Tionesta, last week, a dentist named Dally was forced to leave the town for taking too much freedom with his female customers.—Spectator.

In justice to Dr. Dally we wish to correct the above, from which but one inference could be drawn. We never heard, and don't believe, that the Dr. was in the least impolite to his lady customers. His work and bills did not give satisfaction to his male customers, and they made it very disagreeable for him and he folded his tent and left for some other place. He owed us a bill, and paid it, hence we feel called upon to defend him against unjust insinuations and charges.

In our last issue we made a mistake in the day of the Mass Meeting, which is to take place on Tuesday evening instead of Friday evening of Court week. Let there be a full attendance.

D. Black, of the Forest Hotel is erecting a large barn for the accommodation of the cattle and horses of customers. Building business is quite brisk in town just now.

John Hallings, formerly of this place, now on the Venango Co. Poor Farm, came to this place on Saturday last to bury an infant child who had died on Thursday evening. Mr. Hallings and wife have the sympathy of all who know them.

On Wednesday last the "Whooper-ups" met the "Scrubs" on the ball-ground, and dished it up to them to the tune of 60 to 18. It might be well to remark that the champion player of the "Scrubs," Harry Bates, catcher, was absent, and although we cannot tell what the result would have been had he been here, we feel free to say that his absence was severely felt.

Then, again, on Saturday last, by reason of a challenge sent in by the "Scrubs," another game was had, in which the "Whooper-ups" scored 28 runs, and the "Scrubs" 17. We understand that another is to be played. Nobody can say that the "Scrubs" lack grit, and we hope to have it to chronicle that they have eventually come out ahead.

Wm. Graves, of Utica has been painting some portraits since his visit here, and we went up to his studio yesterday morning to look at them. We were particularly pleased with a life-size and life-like portrait of Judge Dale, painted by Mr. Graves within the last two weeks. It is Judge before accident, and if it can be improved upon we have no desire to see the improvement. Mr. Graves has orders for eight portraits from this vicinity, and we shouldn't be surprised that he would have a good many more before he leaves. We also saw a couple of landscapes painted by Mr. Graves, which seem to us to be first-class pictures. Mr. Graves is a young man, but he handles the brush like an old artist.

The Circus has come and gone. We suppose that it was about like the generality of circuses. There was a very large crowd in town, in fact, the largest we have ever seen here. The proprietors of the institution must have made money. The balloon ascension we considered a failure, the balloon only going up a very short distance, and coming straight down again, and the "trapeze" not "trapezing" any to speak of. The disappointment in regard to the ascension was general, as everybody expected a grand sight. Very little drunkenness was observed in town, and in that respect our citizens were pleased. We believe the institution paid all bills promptly.

Burlington.

Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the West? The best line is acknowledged to be the C. B. & Q., joined together with the B. & M. Railroad by the Iron Bridge at Burlington, and called the BURLINGTON ROUTE.

The main line of the Route running to Omaha, connects with the great Pacific Roads, and forms to-day the leading route to California. The Middle Branch, entering Nebraska at Plattsmouth, passes through Lincoln, the State Capital, and will this year be finished to Fort Kearney, forming the shortest route across the Continent by over 100 miles.

Another branch of the B. M., diverging at Red Oak, falls into a line running down the Missouri through St. Joe to Kansas City, and all Kansas. Passengers by this route to Kansas, see Illinois, Southern Iowa, and Missouri, and, by a slight divergence, can see Nebraska also.

Lovers of fine views should remember the Burlington Route, for its towns "high-gleaming from afar"—its tree-trimmed steams—its rough bluffs and quarries—its corn-oceans stretching over the prairies further than eye can reach.

Land-buyers will be sure to remember it, for they have friends among the two thousand who have already bought farms from Geo. S. Harris, the Land Commissioner of the B. & M. R. at Burlington, Iowa, or among the four thousand home-steaders and pre-emptors who last year filed claims in the Lincoln land office, which "Uncle Sam is rich enough to give us all a farm."

CARPENTERS, Blacksmiths, Saw mill men, Oil men, and other citizens of Forest county, who are in want of anything in the Hardware line, should go to Andrews & Co., Tidioute. They have the largest stock in this section of the country. They are making and repairing all kinds of Machinery and Saw mill castings at short notice 4-tf.

ADDRESS

To the Nervous AND DEBILITATED.

WHOSE sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable:

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or floccy, or is itropy on settling? Or does a thick skum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, or life? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have your restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the general system so much as to produce almost every other disease—Idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doled for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.

Helmbold's Extract Buchu, established upward of 19 Years, prepared by H. T. HELMBOLD, Druggist, 694 Broadway, New York, and 104-South 10th Street, Philadelphia, Pa. Price—\$1.25 per bottle or 6 bottles for \$6.50, delivered to any address. Sold by all Druggists everywhere.

NONE ARE GENUINE UNLESS DONE UP IN SEAL ENGRAVED Wrapper, fac-simile of my Chemical Warehouse and signed H. T. HELMBOLD. 28-1 y
