WRONG DATE.

It will be noticed on the outside of to-day's paper, that the date is the same as that of last week's issue. In the hurry of putting the outside to press, the changing of the date was overlooked. It will be found correct on the inside pages. Those keeping files of the paper can make the corrections with a pen.

A Trip to Fort Pitt.

By invitation of Mr. E. B. Freeman, of the firm of Emery & Freeman, of the Superior Lumber Co. Mills, we took a trip to Fort Pitt, on Friday evening of last week, on which occasion the Company gave a dance and supper to the men in their employ. We passed over the "Jug-Handle" Road on our way there, and although the road was yet in a fearful condition, we were glad to notice that the bridge at the foot of the hill had been fixed in a substantial manner. We arrived at the mills at 6:30, had a good supper, and calmly watched the proceedings. Soon came in the pleasure-seekers, by twos and fours, and soon by the dozen. "The band struck up" about 8 o'clock, and as but two sets could dance at once, it didn't take more than about five seconds to fill the floor. Then came the faw. All were ripe for the dance, and that floor didn't have a rest except for supper, until 4:30 Saturday morning. Supper was served about 12 o'clock, and we must say that it reflected great credit on those who prepared it. The bill of fare included everything which could be had in the country and town. Roast pigs, Turkeys, Chickens, Oysters, Confections, Cakes, Pies, Bread, Crackers, Tea and Coffee, and several other eatables and drinkables which we don't remember the names of. About a hundred were present at the party, which was as orderly as any party we ever attended. There was quite a majority of men, consequently the ladies were kept very busy. We retired before the party closed, perfectly satiated with victuals and joy. Arose next morning and took breakfast with Mr. Freeman's family, were presented with a choice parcel of the laked pig for future consumption, and came away well satisfied with our trip. When another occasion of like facilities for enjoyment comes off at Fort Pitt, may we be there.

Maud Davis, daughter of Sheriff Davis, a little girl aged about ten years, met with an accident, on Saturday evening last by which one of the bones of her left leg was broken just above the ankle. She, with several other little girls, was playing in the school house, when a large bench fell over, striking Maud's leg. Dr. Hunter reduced the fracture, and Maud is now getting along very well. This will be apt to bring the Sheriff's western trip to an abrupt and unpleasant termination. The family has out sympathy.

"People will talk." Yes, that's the great trouble, they talk too much. We know of some people whose tongues flop up and down like a churn dasher, and emit more virus in five minutes than a viper would in the course of its natural lifetime. It's a kind of diet they seem to thrive on best, and take it as naturally as a dog to his vomit, but they are never known to bite themselves, as the serpent, when in danger of being killed, takes its own life. It would be a blessing if they would bite themselves either accidentally or intentionally.

Notwithstanding the fact that the weather is dry, business about town appears to be in quite a healthy condition, owing principally, we suppose, to the fact that teamsters are making use of the good roads to lay in a winter's stock for all the mills up the creek.

Burlington.

Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the West? The best line acknowledged to be the C. B. & Q., joined together with the B. & M. Railroad by the Iron Bridge at Burlington, and called the BURLINGTON ROUTE.

The main line of the Route running to Omaha, connects with the great Pacific Roads, and forms to-day the leading route to California. The Middle Branch, entering Nebraska at Plattsmouth, passes through Lincoln, the State Capital, and will this year be finished to Fort Kearney, forming the shortest route across the Continent by over 100 miles.

Another branch of the B. M., diverging at Red Oak, falls into a line running down the Missouri through St. Joe to Kansas City, and all Kansas. Passengers by this route to Kansas, see Illinois, Southern Iowa, and Missouri, and, by a slight divergence, can see Nebraska also.

Lovers of fine views should remember the Burlington Route, for its towns "high-gleaming from afar"—its tree-fringed steams—its rough bluffs and quarries—its corn-creases stretching over the prairies further than eye can reach.

Land-buyers will be sure to remember it, for they have friends among the two thousand who have already bought farms from Geo. S. Harris, the Land Commissioner of the B. & M. R. R. at Burlington, Iowa, or among the four thousand home-steaders and preceptors who last year filed claims in the Lincoln land office, where "Uncle Sam is rich enough to give us all a farm."

GROVER & BKE R'S SEWING MACHINES.

The following are selected from thousands of testimonials of similar character, expressing the reasons for the preference of the Grover & Baker Machines over all others.

"I like the Grover & Baker Machine, in the first place, because if I had any other, I should still want a Grover & Baker; and having a Grover & Baker I have given up the thought of any other. It does a greater variety of work and is easier to learn than any other."—Mrs. J. C. Croly (Jenny June)

"I have had several years' experience with a Grover & Baker Machine, which has given me great satisfaction. I think the Grover & Baker Machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker decidedly."—Mrs. Dr. Watts, New York.

"I have had one in my family for some two years, and from what I know of its workings, and from the constant praise of many of my friends who use the same, I can hardly see how anything could be more complete or give better satisfaction."—Mrs. Gen. Grant.

"I believe it to be the best, all things considered, of any that I have known it is very simple and easily learned; it does the ordinary spoils in a great measure, and is very durable; it is doing ornamental work beautifully; it is not liable to get out of order."—Mrs. A. M. Spooner, 39 Bond St. Brooklyn.

"I am acquainted with the work of the principal machines, and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have worn in the house which was done nine years ago which is still good."—Mrs. Dr. McGraw, No. 45 East 23d Street, N. Y.

"More than two-thirds of all the sewing done in my family by the constant use has been done by Grover & Baker's Machine, and I never had a garment rip or need mending, except those which well-to-do boys will make in whole cloth. It is, in my opinion, by far the most valuable of any I have tried."—Mrs. Henry Ward Beecher.

"The Grover & Baker Sewing Machine Company manufacture both the Elastic and Lock Stitch Machines, and offer the public a choice of the best machines of both kinds at their establishments in all the large cities, and through agencies in nearly all towns throughout the country. Price lists and samples of sewing in both stitches furnished on application to Grover & Baker S. M. Co., 127 Wood Street, Pittsburgh, Pa.

ADDRESS

To the Nervous AND DEBILITATED.

WHOSE sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable.

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, your kidneys, frequently get out of order? Is your urine sometimes thick, milky, or bloody, or is itropy on settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, or ill? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have your restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint?

Now, reader, self-abuse, venereal diseases, badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, dominant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the general system so much as to produce almost every other disease—Liber, Lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMHOLTZ'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

Helmholtz's Extract Buchu, established upward of 10 years, prepared by H. T. HELMHOLTZ, Druggist, 204 Broadway, New York, and 104 South 10th Street, Philadelphia, Pa. Price—\$1.25 per bottle or 6 bottles for \$6.50, delivered to any
