If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your l ver, or urinary organe, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy on settling? Or does a thick skum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dispepsia? Are your bowels constipated? Do you have spells of frainting, or rushes of blood te the head? Is your memory impored? Is your mind constantly dwelling on this subject? Doyou feel dult, listless, moning, tired of company, or lite? Do you wish to be left alone, away from everybody? Does any little thing make' you start or mu? Is your sleep broken or re-tless? is the lustre of your eye as brilliant?

ging, given to fits of melancholy? If so,

do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but ittle appetite, and you attribute this to dys pepsia or liver-complaint? Now, reader, self-abuse, venereals; deases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't be-

come sad and discouraged; they arealways

polite and pleasant in the company of la-

dies, and look you and them right in the

face-none of your downca-t looks or any

meanness about them. I do nat mean

those who keep the organs inflated by

running to excess. Those will not only

they do business with or for.

How many men, from badly cured disases, from the effects of self-abuse and excess, have brought about that state of weakness in those organs that has reduced the geneal system so much as to produce almost every other disease-idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and

have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness: Female Complaints, General Debity, and all diseases of the Urinary organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Con sumption or Insanity may casue. O a fiesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prempt use of a reliable remedy.
