

Cash-Up. From an interview with a man who is in business at Cash-Up, we learn that the McLaughlin well, the original big well, has been torpedoed, and is doing six hundred barrels per day. The Emory well is doing about five hundred; the Fisher well, about nine barrels; one of the Brown wells is producing nine, and the other three barrels daily; the Crouse well nine barrels. The Bronson well was to have been chambered yesterday. There are over one hundred rigs up, in that region, and new ones are being built as fast as men can be had to do the work. There are eight boarding houses, two groceries, two hardware stores, two drug stores, two clothing stores, and two livery stables, in Cash Up. In Ruggville, forty rods west of Cash Up proper, on the Pleasantville road, contains a tavern, a boarding house, a drug store, and a livery stable. There are also several private houses in the place. Board commands seven to nine dollars per week, and all the boarding-houses are crowded almost to suffocation. A great many of the drillers and workmen there board themselves, or in other words, "shanty." The excitement seems to increase steadily. All the oil produced there is found in the fourth sand, and it is the opinion of operators at Cash Up, that the territory about Tionesta will yet become the scene of large production, for the reason that the wells about here have only gone through the third sand. If we are on this belt, as the best posted operators seem to believe, then we have not drilled deep enough, and we confidently expect to live to see oil produced in large quantities, in this immediate section.

Personal. Col. and Mrs. J. W. H. Reisinger were in town last week, being called here by the report of the critical condition of Mrs. Winans. They returned to Meadville the latter part of the week. Rev. and Mrs. E. D. McCreary arrived on Friday of last week, called by the same report. The Rev. returned to his home in Canfield, Ohio, on Saturday. Mrs. McCreary remains in town. Col. and Mrs. J. H. Dewees have been visiting in town for about a week past. They still reside at the Poor Farm, whither they return to-day. Miss Blanche Burton returned from her school at Fredonia, during the holidays. We have not learned whether or not she intends to go back. Dr. D. F. Pennington, of Fort Pitt, called at our office yesterday. He informs us that he intends to leave for Pittsburgh during the week. He will start for the West next spring, and we may expect some interesting correspondence from him when he gets out there. We are sorry, however, to miss him from this particular locality. F. D. Mable has been quite sick for a couple of weeks past, with erysipelas fever. He is improving, but it will be some time before he will be able to attend to business. Wm. P. Neill has for some weeks been prostrated on a bed of sickness, at the Holmes House, and was the occasion of a report that a case of small pox was in the house. He is slowly improving. Mrs. Winans is very low, and fears are entertained that she cannot long survive. Her sufferings are said to be very great. She has the best of care. S. G. Sullivan, of Cincinnati, passed through town last week, to take a job at Lacytown. We are glad to see his agile frame among us once more. Our friend, Selden Whitman, met with an accident some three weeks ago, cutting the fore finger of his left hand completely through with an ax. He will probably lose entirely the use of his finger.

Burlington. Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the West? The best Line is acknowledged to be the C., B. & Q., joined together with the B. & M. Railroad by the Iron Bridge at Burlington, and called the BURLINGTON ROUTE. The main line of the Route running to Omaha, connects with the great Pacific Roads, and forms to-day the leading route to California. The Middle Branch, entering Nebraska at Plattsmouth, passes through Lincoln, the State Capital, and will this year be finished to Fort Kearney, forming the shortest route across the Continent by over 100 miles. Another branch of the B. M., diverging at Red Oak, falls into a fine running along the Missouri through St. Joe to Kansas City, and all Kansas. Passengers by this route to Kansas, see Illinois, Southern Iowa, and Missouri, and, by a slight divergence, can see Nebraska also. Lovers of fine views should remember the Burlington Route, for its towers "high gleaming from afar"—its tree-fringed steams—its rough bluffs and quarries—its corn-fields stretching over the prairie further than eye can reach. Land-buyers will be sure to remember it, for they have friends among the two thousand who have already bought farms from Geo. S. Harris, the Land Commissioner of the B. & M. R. K. at Burlington, Iowa, or among the four thousand home-landers and preceptors who last year filed claims in the Lincoln land office, where "Uncle Sam is rich enough to give us all a farm."

GROVER & BAKER SEWING MACHINES. ADDRESS To the Nervous AND DEBILITATED. WHOSE sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable. If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or frothy, or is itropy on setting? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, or life? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have your restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint? Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man Did you ever think that those bold, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any meanness about them. I do not mean those who keep the organs inflated by running to excess. Those will not only ruin their constitutions, but also those they do business with or for. How many men, from badly cured diseases, from the effects of self-abuse and excess, have thought about that state of weakness in those organs that has reduced the generative system so much as to produce almost every other disease—Idiocy, Lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected and have doctored for all but the right one. Diseases of these organs require the use of a Diuretic, HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing. If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy. Helmbold's Extract Buchu, established upward of 19 years, prepared by H. T. HELMBOLD, Druggist, 394 Broadway, New York, and 104 South 10th Street, Philadelphia, Pa.
